

THE FAVORITE BRAND OF THE BRAZILIAN ARTISTS

Fundo
de
Quinta

See below, the samba reference group playing Luen

During 1982, the company started producing snare wires for drums, specializing in music business percussion. Over the years, Luen invested a lot in technology and, in 1999, acquired a complete line of heads production starting the manufacture of percussion heads.

In 2001, due to their expansion acquired, the company started the fabrication of percussion instruments, amplifying the structure and increasing their market share.

During 2004, aligned to their strategic planning, the Luen sets a benchmark by hiring two professionals on the development and production of professional drumheads, together, they have participated in the evolution and development of drumheads in Brazil, they have found in the company all the structure, technology and potential to develop their knowledge, releasing innovative products with exclusive characteristics.

Nowadays, Luen operates with a factory over 7000m, located in São Paulo - Brazil.

Recently created the Luen group, the union already established Luen handcraft Percussion with Brazil Percussion brands that was created to elevate the concept of percussion and Nohpe a new brand that through study and technology behind what is most modern in drumheads and accessories.

Up to now, Luen is increasing their-territories, for partnerships worldwide and over the time, promoting cultural exchange among those territories
