TECHNOLOGY

DETAILS

- Water and Dust-Proof Case with IP67 Certification
- Impact-Proof Lightweight NK-7™ Resin
- Mil-STD-810F Immersion Test Certified
- ATA-300 Certification
- Pad Lockable Design
- Soft-Grip Comfort Handle
- Built-In Wheels and Tow-Handle
- Easy Release Powerclaw™ Latching System

The Titan Series guitar cases from Gator are some of the most durable and secure ATA cases on the market. Constructed with impact-proof lightweight NK-7™ Resin and equipped with a soft-grip comfort handle, the Titan Series guitar cases are meticulously designed to ensure the best possible protection for guitar and accessories. The easy release Powerclaw™ Latching System ensures your case stays securely sealed and protects your guitar from the elements using UltraGuard Technology. This technology is comprised of military spec immersion certification, IP 67 water-proof and dust-proof certification, and ATA-300 certification. There is immense attention to detail put into the creation of every Titan Series guitar case from Gator.

ATA MOLDED CASE WITH TSA LATCHES DESIGNED TO FIT ELECTRIC GUITARS

Travel with peace of mind and lock up your guitar before sending through airport security with Gator's TSA Guitar Cases. These cases are ideal for air travel and have been updated with new and improved hardware and TSA approved locking latches. With a military grade molded Polyethylene plastic outer shell, the TSA Guitar Cases provide top notch protection and are significantly lighter than traditional wooden flight cases. The uninterrupted black aluminum valance gives these cases a stealth look and provides additional strength to the overall frame. Surface mounted TSA latches now feature an improved latch housing for impact diversion and sport a sleek black matte finish with red release trigger. These cases have also been updated with a thick black plush interior lining and are available for Standard Electric, Bass, Classical, Acoustic, 335, Les Paul® Style, and SG® Guitars.

TSA LOCKING CENTER LATCH

TSA Approved locking center latch and surface-mounted impact diversion latch housing make this case ideal for air travel.

RED RELEASE TRIGGER

Gator's easy to use Signature Red Release Triggers allow you to easily open and close the latches .

COMFORTABLE HANDLE

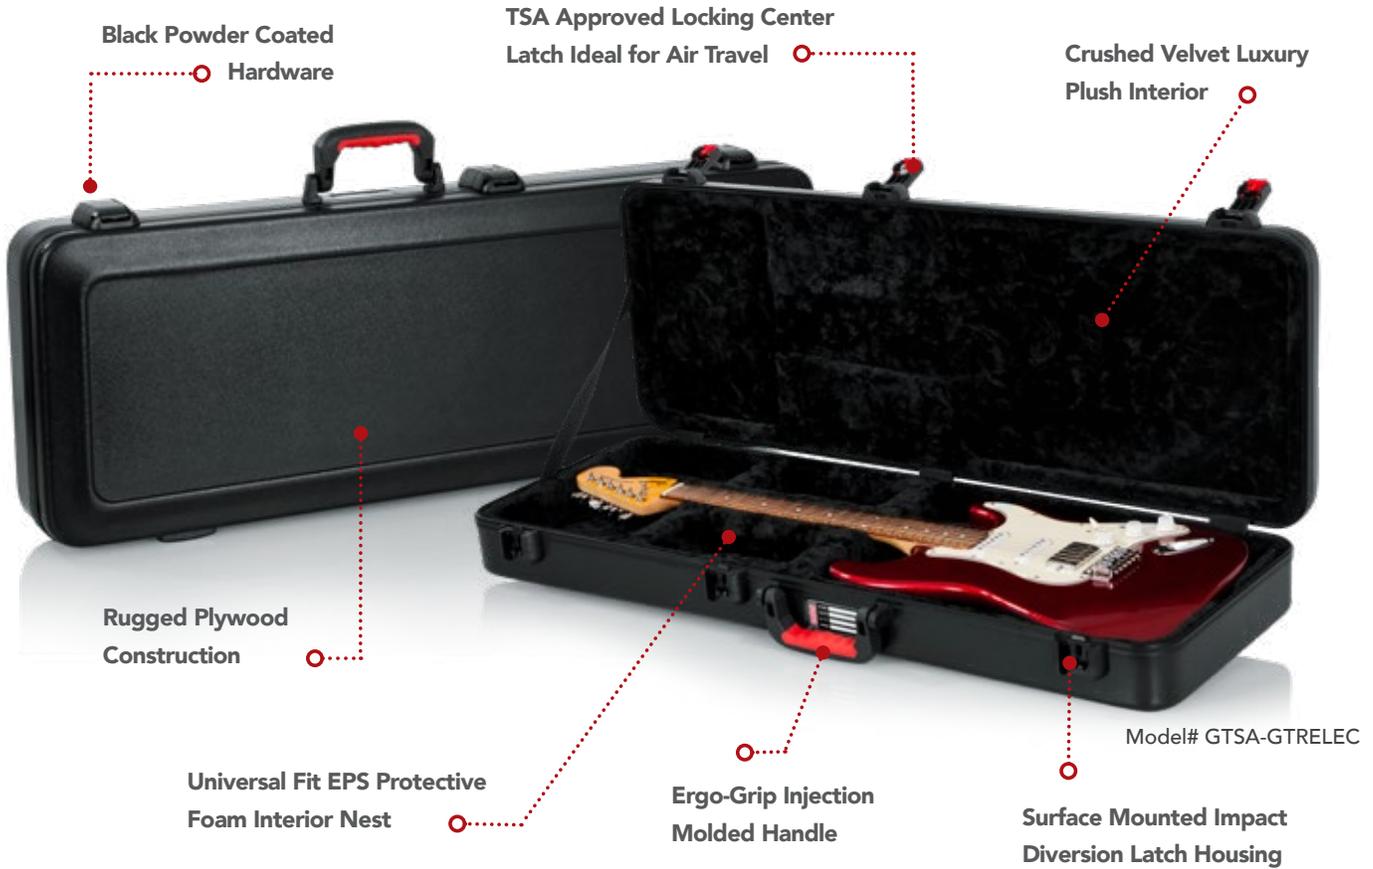

Ergo-Grip injection molded handle with Gator signature red insert for comfort and style

PLUSH PROTECTIVE INTERIOR

Thick, black, plush-covered EPS Protective Foam interior nest along with an extended reach protective neck cradle.

G-TOUR SERIES

Gator's G-TOUR™ line of heavy-duty wooden road cases are available in three models custom fit for electric guitars. A traditional wood road case provides serious protection for guitars with laminated panels, sleek aluminum valance and red recessed twist latches and spring loaded rubber grip handles. On the interior, the guitar rests softly on the thick black plush lined interior and includes a large storage compartment perfect for holding strings, straps, picks, slide, capo, and more. The Electric model will hold most standard electric guitars including Fender Strat and Tele style. The bass model features a universal fit interior to hold most standard four and five string bass guitars.

EXTRA STRENGTH HANDLE

Featured Model # GC-APX

Our Deluxe ABS Molded Guitar Cases are perfect for around the town and local gigging. Made of a rugged ABS plastic, the GC series provides hard-shell protection for a variety of guitar styles. Each case includes a heavy-duty aluminum valance and reinforced extra strength carry handle. The interior features a protective EPS foam interior with deep black plush lining to safely secure the guitar and large internal storage compartments for strings, capo, tuner, picks and anything else you need to keep rocking. Lastly, the chrome plated latches can be locked with the included keys to provide an additional level of protection.

DELUXE WOOD CASES

DETAILS

- Rugged Plywood Construction
- Plush Lined Foam Padded Interior with Storage Compartment
- Lockable with Ergonomically Designed Padded Carrying Handle

Featured Model
GW-CLASSIC

Gator's stylish Deluxe wood guitar cases are made from a heavy-duty plywood providing hard-shell protection for your valuable instrument. The plush lined foam padded interior keeps your guitar looking brand new and includes ample storage for related accessories such as picks, strings, capo, and more. Each model includes lockable chrome plated latches and an ergonomically designed padded carry handle. Standard models feature thick black Tolex-wrapped exterior with white contrast stitching. Go for a classic look with the distressed leather-like finish of the Vintage Electric Case or the Traditional Brown cases for Gibson guitars featuring the luxurious bright magenta plush interior and guitar cover. Models are available to fit a variety of standard electric, acoustic and bass guitars with custom fit models also available for Gibson Les Paul®, SG® & 335®, Fender Jaguar® and Jazzmaster®, and an extra wide case perfect for PRS® guitars.

JOURNEYMAN Series

TRADITIONAL WOOD CASES

DETAILS

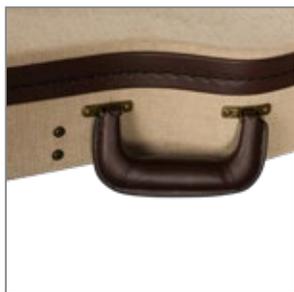

- Traditional Wood Case Craftsmanship
- Antique Brass Hardware
- Royal Blue Crushed Velvet Interior
- Pebble Weave Burlap Exterior with Espresso Trim
- Internal Accessory Compartment

Classic styling and traditional craftsmanship come together to create the elegant Journeyman Series. Inspired by Bluegrass and Folk music, the Journeyman Series provides a fresh look with its pebble weave burlap wrapping and espresso brown trim. Antique brass hardware give each Journeyman case a classic look and the beautiful royal blue crushed velvet lines the interior to provide a soft cushioning for your guitar. The internal storage compartment is perfect for straps, strings, capo and related accessories. The stylish Journeyman series is constructed of thick plywood and is available for standard electric, dreadnaught acoustic, resonators, banjos, bass, mandolins, Soprano/Concert/Tenor style Ukuleles, and Gibson Les Paul® and 335® guitars.

ANTIQUÉ BRASS HARDWARE

Antique brass hardware, with a locking latch, provides the finishing touch on the case's retro sophistication.

PADDED COMFORT HANDLE

The espresso, padded, comfortable handle perfectly balances the weight of your instrument while finishing off the traditional feel of the case.

INTERIOR STORAGE

Spacious internal storage compartment with a lid keeps strings, picks, capos and your other favorite accessories organized.

CRUSHED VELVET INTERIOR

Vibrant, royal blue crushed velvet and thick foam padding cradle your instrument safely in place.

HARD-SHELL WOOD GUITAR CASES

Featured Model
GWE-UKE-CON

DETAILS

- Durable Plywood Construction with Tolex Covering
- Ergonomic Matching Handle
- Plush Padded Interior with Accessory Compartment
- Locking Latches

The GWE Series hard-shell wood guitar cases are a best seller and the perfect choice when you need a lightweight solution. Each case is made from durable plywood and features a Tolex laminated exterior. Cushion your guitar in the thick padded plush lined interior and store picks and strings in the interior storage compartment. Chrome plated hardware compliments the all-black exterior and includes lockable latches. Models are available to fit a variety of standard electric, acoustic and bass guitars with custom fit models also available for Gibson Les Paul® and 335®, Fender Jaguar® and Jazzmaster®, and an extra wide case perfect for PRS guitars.

INTERIOR STORAGE

Spacious interior accessory compartment organizes all your favorite guitar accessories, while providing additional neck support.

LOCKABLE LATCHES

Chrome plated lockable latches form a secure enclosure to keep your gear and accessories safe.

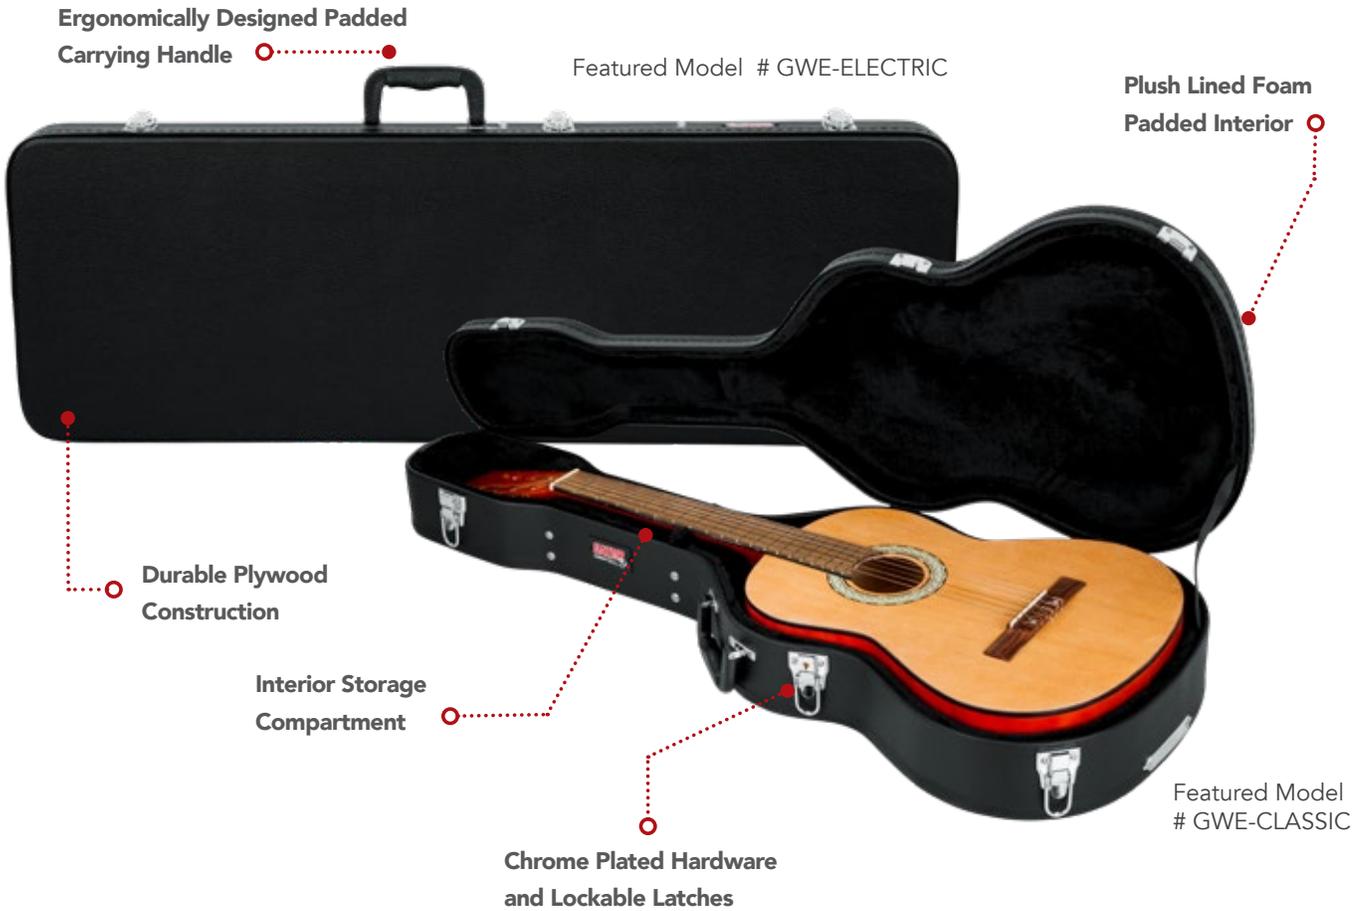

PADDED CARRY HANDLE

Ergonomic handle offers a comfortable grip, perfectly balancing the weight of your instrument.

NECK CRADLE

Plush fabric over a molded neck cradle keeps your guitar stable and prevents sliding around in the case during transport.

The Lightweight Series of guitar cases are the perfect cross between a hard case and gig bag. Each GL series case features a rugged nylon exterior wrapped over a dense EPS foam, keeping the case rigid and tough but lightweight and easy enough to throw over your shoulder. Soft plush lines the inside of the case and the extended neck cradles ensure the guitar is kept secure during use. The Lightweight Series features plenty of additional storage for all your guitar related accessories with internal compartments as well as zippered pockets on the front of the case. Available in eleven unique models to fit a variety of guitar styles, the Lightweight Series is great for everyday use.

Gator has taken the styling of the Transit Gig Bag Series and the durability of the GL Lightweight Series and combined them to create the Transit Rigid Series Lightweight guitar cases for the ultimate hybrid. Available to fit electric, bass and dreadnought guitars, the case will cradle your guitar in dense EPS foam with premium plush lining. There is plenty of space for capos, strings, picks and other guitar accessories in the internal accessory compartment as well as a large external zipper pocket on the front with an additional layered zipper pocket with soft lining providing quick access to phone, keys and small electronics. When you are ready to transport the Transit Rigid Series you can use the molded, padded contoured handle or the color matched, padded backpack straps with top grab handle. When you aren't using the backpack straps you can conveniently tuck them away in the hideaway compartment on the rear of the case.

DETAILS

- Lightweight Aluminum
- Universal Mounting Bracket Included
- Angled for Easy Access
- Cable Routing Perforations Make Routing Signal and Power Easy
- No Slip Rubber Feet
- Adhesive Hook and Loop Strips Included
- Deluxe Carry Bag with Removable Shoulder Strap

CABLE PORT ALLOWS EASY ACCESS FOR POWER AND SIGNAL ROUTING

Gator's U.S.A. made lightweight pedal boards feature an all-aluminum frame with angled platform for easy access to each pedal. The unique 'C' shape provides a stable footprint and maximizes space with an included universal bracket to mount most common power supplies beneath the board, including Gator's own G-BUS power supply (sold separately). The pedal surface includes angled cut-outs for signal and power routing. Each board includes a deluxe padded carry bag with internal storage, polyethylene reinforced top and bottom and an adjustable and removable shoulder strap. The board comes standard in a sleek matte black finish but is also available in a variety of exciting colors.

Model#
G-TOUR PEDALBOARD-LGW

The flight-safe G-TOUR Pedal Boards feature a thick plywood construction and a tough laminated exterior. The heavy-duty outer case shell safely and securely holds the pedal board inside with a specialized EVA foam lining interior to protect your effects pedals during transport. The pedal board surface can be removed from the base and sits flat for low-profile use while the interior space below the pedal surface doubles as accessory storage. Included with each G-TOUR Pedal Board is the unique 3M Dual Lock™ fastener strip for pedal mounting. The Dual Lock's specialized grip side can attach to itself and won't wear over time ensuring each pedal is securely mounted to the board. The G-TOUR Pedal Boards are available in two sizes. The smaller model features a compact 17" x 11" pedal surface to hold eight-ten standard sized stomp box pedals and is small enough to be carried on most airlines. The larger model features a 24" x 11" pedal surface that will hold around ten-fourteen stomp boxes. The large model also includes a convenient retractable tow-handle and wheels.

WOOD GIG-BOX Series

WOODEN ALL-IN-ONE PEDAL BOARD AND 3X GUITAR STAND COMBO CASE

DETAILS

- Collapsible Stand in Lid Adjusts to Hold Two Electrics and One Acoustic or Three Electric Guitars
- 21.25" x 15" Pedal Board in Base
- Recessed Section on Pedal Board for Mounting Power Supply
- Hook and Loop Pedal Fasteners

The Pedal Board and Guitar Stand Combine into a Compact and Convenient Briefcase!

ADJUSTABLE COLLAPSIBLE STAND

RECESS IN PEDAL BOARD FOR MOUNTING POWER SUPPLY

Gator's unique and patented Gig-Box Series is also available in a Jr. model. The Gig-Box Jr. features the same innovative hybrid design combining a pedal board with collapsible guitar stand. The Junior model's compact pedal board surface is carpet lined and will hold up to ten standard sized stomp boxes. The pedal board also includes a dedicated section for mounting a power supply (powered model includes Gator G-BUS power supply). Flip over the lid and use the folding guitar stand to conveniently hold up to three electric guitars. When it's time to load up, the pedal board and guitar stand combine into a compact and convenient briefcase with sleek black tolex, white stitching, and reinforced end caps. Chrome plated locking latches secure the case while the reinforced carry handle makes it easy to safely get your gear wherever it needs to go.

MODEL: GW-GIGBOXJR

Gig-Box Jr. Pedal Board/Guitar Stand Case w/ Power

MODEL: GW-GIGBOXJRPWR

Model #G-MEGA-BONE

The unique Bone series pedal boards are molded from a rigid polyethylene plastic to create a tough and durable pedal board that is incredibly lightweight. Taking its name from the unique bone shape, each pedal board features a carpet lined surface with hook and loop strips for pedal mounting. The Standard Bone holds up to five stomp boxes with extended end section to hold a volume/wah pedal. When five pedals just won't cut it, check out the Mega Bone which will hold around eight-ten pedals and features a unique and ergonomic arched shape. For a compact solution, the Mini Bone is perfect and will hold up to three standard sized stomp boxes. Both the standard Bone and Mega Bone include a 9v daisy chain power supply and Nylon carry bag with outer storage pocket. The Mini Bone includes a convenient cinch style carry tote.

BONE Series

MOLDED PEDAL BOARDS

POWER MOUNTS UNDER BOARD WITH CABLE ACCESS

EXTERIOR STORAGE POCKETS FOR ACCESSORIES

REINFORCED INTEGRATED HANDLE

Gator's original pedal board series is still a top seller. The Gator Pedal Tote features a traditional plywood pedal board that is paired with a convenient and durable Nylon carry bag. The pedal board is wrapped with protective Tolex and includes a carpet lined surface with hook and loop strips to securely mount each effects pedal. The Nylon carry bag features a handle cut out allowing use of the pedal board's integrated carry handle providing a secure grip when heading to a gig. The carry bag also includes a large front pocket for cable and accessory storage. Available in two sizes, both the standard and pro models are offered with or without Gator's G-BUS Power Supply. The power supply is mounted underneath the pedal board with an access slot to run power cables to each pedal.

TSA ATA KEYBOARD CASES

DETAILS

- Polyethylene Construction
- Unique Wedge and Block Design for Interior Customization
- Two TSA Locking Latches with Impact Diversion Dishes
- 200lb Recessed In-Line Wheel Weight Capacity
- Two Rubber Gripped Handles

Featured Model # GTS-A-KEY61

Gator's TSA Keyboard cases are ideal for air travel with new and improved hardware and TSA approved locking latches. With a military grade molded polyethylene plastic outer shell, the TSA Keyboard Cases provide top notch protection significantly lighter than traditional wooden flight cases. The uninterrupted black aluminum valance not only gives these cases a stealth look, but provide additional strength to the overall frame. Surface mounted TSA latches feature an improved latch housing for impact diversion and sport a sleek black matte finish with red release trigger. The unique case interior features an adjustable wedge block system and additional foam blocks in the lid ensure the best possible fit for almost any keyboard. Move large and bulky keyboards with ease using the spring loaded handles and recessed wheels (Wheels not included on 49-note model).

Gator Cases Deluxe PRO-GO Series Keyboard bags provide professional level protection for players on the go. These stylish gig bags are built tough featuring a durable nylon exterior and ultra-thick padded sidewalls. Inside, your keyboard is cushioned in a luxurious, white micro-fleece lining. Additionally, micro-fleece padded straps help to secure the board during transport. Each PRO-GO Keyboard bag includes an extra-large front pocket with storage compartments for cables, foot pedal, and other related accessories. The pocket includes storage for tablet devices with a micro-fleece lining. A reinforced padded carry handle and removable backpack straps provide convenient carry options. Lastly, a slight change in weather is nothing to fear as a zipper compartment stores a stylish protective rain cover that wraps around the exterior to keep everything dry.

CLASSIC Series

ROTO MOLDED DRUM CASES

- Durable 600-Denier Nylon Construction
- 10mm padded and lined interior
- Comfortable Carrying Straps
- Collapsible compact design

Recognized as the industry standard rotationally molded drum cases, Protektor Cases' Classic Series provides strength, durability and simplicity for almost any drum size. The rotational molding process gives added strength and durability to case corners and provides water resistance that non-rotomolded cases can't match. Custom depths and colors are available. All Protektor Cases come with a limited, lifetime warranty against cracking.

ELITE Series

The revolutionary Elite Air Series design features an oversized case with tailor-made contours and shaped foam strips to securely cushion each drum. The drum rests in the middle, away from side walls, which provides a snug fit and eliminates the need for foam. The unique shape is designed to accommodate most suspended mounting brackets without "up-sizing" and comes with a limited, lifetime warranty against cracking.

EVOLUTION Series

Gator's deluxe USA-made Evolution Snare case takes protection to the next level with its patented drum rim suspension system. Made of tough molded polyethylene plastic, the specialized interior is designed to cradle and suspend the drum inside resting only on the rims using foam pads in the base and lid. When the case is closed using the heavy duty buckles and Nylon web straps, the drum is suspended in the center of the case and any impact or movement is fully absorbed. The unique interior also allows the case to fit both 13" and 14" diameter snare drums and is available in a variety of depths. Lastly, interlocking outer grooves on the case allow for convenient and secure stacking and will also interlock with Gator's deluxe hardware trap case.

Unique system allows drum
to be suspended in case
resting only on rims

ROLLING DRUM CART

DRUM HARDWARE BAG
W/ STEEL FRAME &
100 POUND CAPACITY
IN-LINE WHEELS

Tuners, sticks, mallets, beaters, lugs, drum keys and more have plenty of room inside the spacious accessory pockets with high quality zippers. The 600-denier Nylon GP-DRUMCART allows you to load stands in at full height, eliminating time for adjusting when setting up or breaking down. The 25mm steel constructed frame works perfectly in conjunction with 100-pound capacity in-line wheels, acting as a dolly-style system for narrow hallways and steep stairwells. The bag removes from the frame by grabbing the secure wrapped nylon handles allowing you to carry the GP-DRUMCART with ease.

AMPLE STORAGE CAPABILITIES

Several exterior accessory pockets for accessories, sticks and other percussion hardware

REMOVABLE ROLLING CART

TITAN SERIES™

WATERPROOF INJECTION MOLDED CASES

- Custom Foam Inserts
- Water and Dust Proof with IP 67 Certification
- ATA-300 Flight Safe Rating
- Impact Proof Lightweight NK-7™ Resin
- Easy Release Powerclaw™ Latching
- Soft Grip Comfort Handle
- Pad Lockable

Featured Model # GM-04-WMIC-WP

The popular Titan Series from Gator Cases provides unmatched protection for a variety of pro audio equipment. These injection molded cases feature Gator's UltraGuard Technology, providing top notch protection with heavy-duty impact resistance and a water and dust proof seal. Each Titan case is certified with IP 67 and MIL-STD-810F immersion tests which means this case can endure the harshest of elements. The outer shell is constructed of a tough, impact-proof lightweight NK-7™ resin material and comes with an ATA-300 flight safe rating. Each case secures with the unique easy release Powerclaw™ latching system and features a soft-grip carry handle.

TSA Series

Whether you go wireless or wired, Gator has a solution in its popular TSA Series. These perfect travel cases feature TSA approved locking latches with impact diversion housings to protect the latches from being broken during transport. All of the TSA cases include the newly redesigned, signature easy release trigger on the latch and the comfortable injection molded handle. The incredible durable construction coupled with a lightweight design make the TSA Series ideal for air travel.

GM-DUALW FEATURES

Gator's GM-DUALW bag offers protection and purpose with its unique design allowing you to carry and use your Shure BLX or similar wireless system without having to remove it from the bag. This Nylon padded bag fits one receiver up to 12.1" x 5.5" x 1.6", two (2) wireless microphones, and two (2) body packs. The reinforced, padded interior includes a secure strap to hold the receiver in place while the compartment on the back opens to provide full access to rear panel of wireless receiver. There is plenty of room for accessories and power supply with a large external zipper pocket and an additional removable storage pouch in the rear of the bag. Keep tabs or store important info by utilizing the clear window on the outside of the bag that fits an ID or business card. When you are ready to pack up and go zip it up and throw it over your shoulder with the removable, adjustable shoulder strap.

Includes Removable Storage Pouch

Gator's lightweight polyethylene shock racks are built for protection and function. The shock rack is specifically designed to allow 360 degree air ventilation around equipment to keep your gear running cool. Adjustable interior sliding support on each side of the rack adjusts front to back and up and down for rear support of gear to eliminate shifting and jostling. Recessed side handles give your hands a break while the locking lid gives you peace of mind.

ROLLING BASE RACK CASES

Rolling rack bases are made of lightweight polyethylene plastic and conveniently fit under any Gator GRC or standard rack case. The four easy rolling wheels include two locking wheels for keeping the rack base in position. The butterfly-style twist latches and recessed side handles make it the ultimate pack and load solution.

GU-2217-08-WPDV

DETAILS

- Water and Dust Proof with IP 67 Certification
- ATA-300 Flight Safe Rating
- Impact Proof Lightweight NK-7™ Resin
- Easy Release Powerclaw™ Latching System
- Soft Grip Comfort Handle
- Pad Lockable
- Optional Pluck and Pull Layered Diced Foam Inserts Available
- Select Models Available with Adjustable Divider Inserts

The popular Titan series from Gator Cases provides unmatched protection for a variety of equipment. These injection molded cases feature Gator's UltraGuard Technology, providing top notch protection with heavy-duty impact resistance and a water and dust proof seal. Each Titan case is certified with IP 67 and MIL-STD-810F Immersion tests which means this case can endure the harshest of elements.

The outer shell is constructed of a tough impact-proof lightweight NK-7™ resin material and comes with an ATA-300 flight safe rating. Each case secures with the unique easy release Powerclaw™ latching system and features a soft-grip carry handle. With a variety of sizes available, The Titan series is the ideal choice for any application. Utilize the empty shell version, adjustable divider system models or simply use the optional pluck and pull diced foam to create a custom fit for your equipment.

TSA Series

TSA APPROVED HARD-SHELL CASES

DETAILS

- Polyethylene Construction
- Unique Wedge and Block Design for Interior Customization
- Two TSA Locking Latches with Impact Diversion Dishes
- 200lb Recessed In-Line Wheel Weight Capacity
- Two Rubber Gripped Handles with 130lb Weight Capacity
- Solid Aluminum Valance with Black Powder Coated Finish

TSA LOCKING LATCHES

Featured Model
GTSA-UTL1813

Gator's TSA cases are ideal for air travel and have been updated with new and improved hardware and TSA approved locking latches. With a military grade molded polyethylene plastic outer shell, the TSA Cases provide top notch protection and are significantly lighter than traditional wooden flight cases. The uninterrupted black aluminum valance not only gives these cases a stealth look, but provide additional strength to the overall frame. Surface mounted TSA latches now feature an improved latch housing for impact diversion and sport a sleek black matte finish with red release trigger. Move large and bulky items with ease using the spring loaded handles and recessed wheels.

GXR Series

ROTO MOLDED UTILITY SERIES

DETAILS

- Rotationally Molded Polyethylene Utility Case
- Built-In Pressure Release Valve
- Stackable Design
- Recessed Wheels
- Black Powder Coated Stainless Steel Hardware
- Recessed Spring Loaded Handles
- Recessed Twist Latches; Center Latch is Pad Lockable
- Made in the USA

Featured Model # GXR-3216-1603

Gator's GXR ATA Series of USA made, rotationally molded cases are a true fit-all solution. These "built-to-last" cases are constructed of rugged, rotationally molded Polyethylene with black powder coated, stainless steel hardware. All of the GXR Utility cases are truck-pack friendly utilizing a stackable design, recessed wheels, as well as recessed spring-loaded handles and twist latches. A Unique travel feature is the built-in pressure release valve to equalize air pressure during altitude changes, and a pad-lockable center latch to provide secure protection for equipment and gear.

LIGHTWEIGHT ROLLING CARGO CASES

Cargo Case w/ Wheels

MODEL: GX-20

Cargo Case w/ Wheels; Larger Size

MODEL: GX-22

Gator's lightweight rolling utility cases are perfect for transporting snakes, cables, adapters, tools and other accessories or odds and ends. The lift-out trays keep smaller items organized while the large exterior pockets keep items you need close at hand readily available. The pull-out handle and wheels do all the work for you when moving heavy gear.

G-TOUR™ LOUNGE

Gator's G-TOURLOUNGE offers a unique, self-contained seating solution. This unassuming plywood road case quickly transforms into a full furniture set including two cushioned chairs, two ottomans and a large table top. The two chairs feature bright red overstuffed cushions with a large storage drawer in the base. Easily roll the chairs into position with the four casters, then lock in place with the two locking mechanisms. Put your feet up and get comfortable with the two padded ottomans that also provide extra storage inside. The lid of the case has four sturdy legs that unfold to become a large table. With a 48" x 32" surface area the table provides plenty of room to spread out. The entire unit features a sleek, black laminate coating and commercial grade hardware including; Gator signature red, spring-loaded-rubber gripped handles and red recessed twitch latches. Once the system is packed back up in case form, it can be transported on the eight Penn-Elcom 4" heavy-duty casters, 4 of which are locking. The furniture set takes only moments to set-up or tear down using the recommended two-person team.
