MANHASSETSTANDS.COM

SINCE 1935

MANHASSET HAS BROUGHT PERFORMANCE EXCELLENCE TO MUSIC STANDS

The **MANHASSET® Specialty Company** began in 1935, when inventor and musician, Otto Lagervall, set out to develop a better music stand. He succeeded in creating the very first **MANHASSET®** music stands, using the highest quality materials and workmanship - a tradition that continues today. At the time of the company's founding, Otto lived in Manhasset, New York - hence the company's name. During the early 1940s, Otto moved the company to Yakima, Washington and the company has grown exponentially since that time.

Otto Lagervall

QUALITY IS THE NUMBER ONE PRIORITY

New stand models and various accessory products have been added to the **MANHASSET®** line to provide numerous solutions for musicians.

Manufacturing improvements have been made to production processes, including the addition of robotics and state of the art equipment to enable the company's parts to be made consistently and with great precision. **MANHASSET®** has always remained committed to producing its products with outstanding quality; which is the company's highest priority. As a result, the company now offers a **Lifetime Warranty** on its music stand products.

SOLUTIONS FOR MUSICIANS

MANHASSET® is continuing to research and develop new and unique products to fit the needs of musicians of all ages, as well as to improve upon what has always been the finest quality line of music stands available. The company is Employee Owned and every employee is focused on making great products, every day. The reputation for outstanding quality and dependability is a great source of pride to all employees.

ACOUSTIC SHIELD

Model #2000

AVAILABLE IN: Single cartons only

The 22" high by 26" wide shield is made of clear, durable polycarbonate sheet plastic. It is designed to effectively provide hearing protection to the musician stationed in front of other musicians, yet not causing impaired vision for the musician behind.

The unit's height adjustment range will afford protection for the musician while sitting and, with a height of 66 inches, it can also provide hearing protection to the standing musician. In addition to offering hearing protection for musicians playing in front of loud instrumentalists, shields can be easily positioned around percussion sections to reduce the hearing impact on other musicians.

The shield folds down to a height of 37" allowing it to be comfortably tucked away behind your chair when not needed and the collapsible tripod base makes it easily transported. The MANHASSET® Acoustic Shield also has a 1" ledge, so it easily doubles as a fully-functioning music stand for directors or those desiring a larger music desk, yet not wanting to sacrifice visibility.
