# TAMA STAR WALNUT

## Lacquer Finishes

STAR is the flagship line for TAMA drums. It takes the knowledge and research we cultivated for the Starclassic series to the next level, by reexamining every detail to enhance shell resonance. Walnut has long been favored by furniture makers for both its beauty and durability. As a drum shell material, Walnut's naturally EQ'ed tone has been praised by the drum community for both the stage and the studio. The STAR Walnut shells project booming low end with enough cut to be heard through any mix.

# STARCLASSIC MAPLE

## Exotic Finishes

In the '80s TAMA's Superstars and Imperialstars reigned supreme - the perfect drums for the times. But TAMA's builders and designers wanted something that transcended trends, something timeless - drums that understood a player's passion and allowed the expression of every genre, style, mood, and technique. They created Starclassic Maple drums...and ignited the thin-shell revolution. And now the Exotic Finish line offers beautiful, one-of-a-kind exotic wood exteriors for that extra luxurious touch.

Numerous options are available to meet the varied and critical needs of professional drummers including a selection of more than 20 different shell sizes. Starclassic Maple also features three shell hardware finishes to choose from: Black Nickel, Chrome and Smoked Black Nickel. Starclassic Maple is simply an unprecedented combination of sight and sound.

# STARCLASSIC WALNUT/BIRCH

## Lacquer Finishes

Starclassic Walnut/Birch is a result of extensive experimentation to produce a complex, yet balanced tonal quality. Rich, low-end warmth emanates from carefully selected walnut wood plies. Sonic clarity, attack and defined bright projection are tonal attributes produced by the birch plies. These two wood blend beautifully together to project a contemporary, full-spectrum that is supported by professional level drum hardware features that include Die-cast hoops, Star-Cast Mounting System and Quick-Lock Tom Brackets.

# S.L.P. DRUM KITS -FAT SPRUCE-

## Lacquer Finishes

The Fat Spruce kit features luxurious 100% Spruce shells, which is rarely used as a material on complete drum sets. Its unique sound is fat and open with solid mids and a natural, acoustic vibe not found in more common materials. Furthermore, by utilizing die-cast hoops, it provides a very clear, focused sound.

This kit is also very versatile with a wide tuning range – can go low to medium, optimal for R&B, Blues, and Ballads, or tuned higher to work really well for Jazz and Indie Rock.

# S.L.P. DRUM KITS -DYNAMIC KAPUR-

## Lacquer Finishes

This model features Kapur material, which has caught many drummers' attention for its solid, focused sound and rich mid- to low-end. We paired it with our Sound Arc Hoops for plenty of attack and moderately controlled overtones of the Kapur shells. It offers warm resonance and a very natural, comfortable feel. Because of its slightly dry sound and enhanced attack, it works very well for funk, fusion and gospel. The high volume potential also lends itself perfectly to rock music.

# SUPERSTAR HYPER-DRIVE DUO

## Lacquer Finishes

Superstar Hyper-Drive Duo is a unique and exciting series which will bring new value to the current drumming world. Similar to the groundbreaking work we did with the Superstar Hyper-Drive's extra shallow toms in 2008 - drawing inspiration from recent performances of cutting-edge drummers - we have once again created distinct drum setups which are poised to inspire drummers. Opening the door to new approaches to drumming beyond the standard. The key component of this series is the 14" x 10" snare drum, which we call the "Duo Snare". This drum is unique not only because of its uncommon 10" depth, but also because it is equipped with floor tom legs and brackets. You can tune this drum low and place it where the first floor tom would traditionally go. As such, the snare can function as a low/deep snare with the snare wires engaged, or as a 14" floor tom with the snares off. This can lead to many unique phrasing opportunities. Once you experience playing on this new kit your eyes and ears will be opened to the infinite range of possibilities, plus it's a lot of fun. Just try it.

# SUPERSTAR CLASSIC MAPLE

## Exotic Finishes

For more than forty years, the Superstar name has stood for groundbreaking design, superior build quality, sterling tone, and clear projection. Superstar Classic once again upholds tradition by raising the bar for discerning drummers—and remarkably—does it while also lowering the price. Drawing on Superstar of the past, its classic TAMA T-shape badge and streamlined low-mass single lugs point to the simpler state of art of the 70's, while the ingenious Star-Mount system and the thinner gauge 100% maple shells eclipse anything in its class.

# IMPERIALSTAR

## Unicolor Wrap Finishes

With over 40 years of drum building experience, TAMA knows what drummers really want. With this in mind we sought out to design an affordable yet durable kit that retained many high-end features you'll find in our Superstar, and Starclassic lines. What we came up with was Imperialstar. Every aspect of the modern drum kit was exhaustively examined, reexamined, and then improved before it was accepted as part of the Imperialstar design.
