MOODSCAPES
A Curated Collection of Colors for Every Mood

MOODSCAPES

Elevate your space. Awaken your senses.

Color speaks to the soul. It has the power to calm, awaken, ignite, and comfort. In this booklet, we invite you to explore color through emotion—with palettes designed not just for aesthetics, but for how you want your space to feel.

Each Moodscape tells a story. Inspired by nature, memory, and moments of stillness or spark, these curated palettes help you express mood through color. Let your creativity wander and your senses guide you—because color isn't just something you see, it's something you live.

SUN & RAIN®

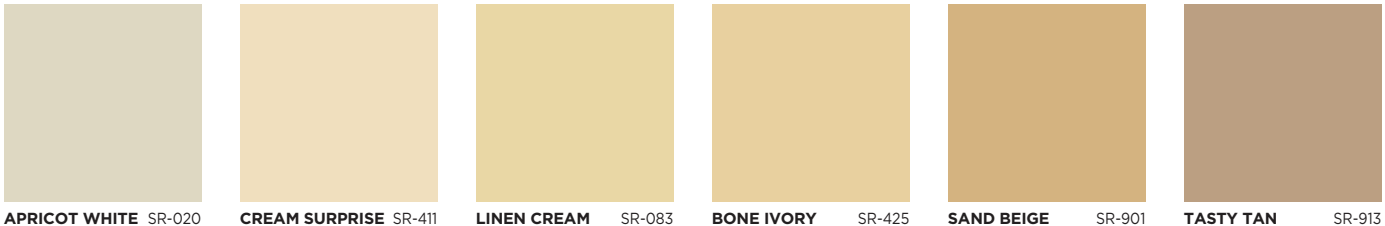

100% ACRYLIC
PREMIUM
ELASTOMERIC PAINT

DAVIES® SUN & RAIN® is an odorless self-priming and waterproofing low sheen elastomeric paint. Unlike ordinary elastomeric paint, it utilizes 100% acrylic technology that gives excellent resistance to water and ultraviolet rays—resulting in a more durable and attractive paint finish. It covers hairline cracks due to its high elasticity and gives long-lasting paint protection.

DAVIES® SUN & RAIN® is suitable for exterior and interior concrete walls.

AQUA GLOSS-IT™

100% ACRYLIC WATER-BASED QUICK-DRY ENAMEL PAINT

DAVIES® Aqua Gloss-it™ is a high gloss 100% acrylic water-based paint formulated as an alternative to conventional solvent-based alkyd enamels. This latest breakthrough in waterborne paint technology combines the high gloss and smooth finish properties of solvent-based alkyd enamels, along with the fast-drying and environment-friendly features of water-based paints. It dries to a tough and durable finish due to its room temperature cross-linking capability.

DAVIES® Aqua Gloss-it™ is suitable for interior & exterior surfaces, such as properly primed wood and metal surfaces.

BIO-FRESH+™

ANTI-BACTERIAL
ODORLESS AND
STAIN-RESISTANT
PAINT

DAVIES® Bio-Fresh+™ is a water-based, stain resistant premium interior paint. Its ultra-low Volatile Organic Compound (VOC) level emits less pollutants into the air, and has no unpleasant smell which normally comes with ordinary paints. It has a special anti-bacterial formulation that helps inhibit growth of disease-causing bacteria, and exhibits excellent stain resistance—making common household stains easy to remove.

DAVIES® Bio-Fresh+™ is suitable for interior surfaces.

PAINTING SYSTEM GUIDE

A paint system is the sequence of different types and layers of coating materials, with each layer serving a specific purpose. Each substrate, or base material, requires a unique system to ensure long-lasting vibrancy and protection.

DIY PAINTING TIPS

STEP 1: GETTING STARTED

1. Clear the room from all furniture and clean the area.
2. Cover exposed surfaces with drop cloths or newspapers to prevent splatters.
3. Use masking tape strips to protect sockets and switches.
4. Protect window frames and woodwork with masking tape and newspaper.
5. Cover floor trim with newspapers or drop cloths and prevent spills.

STEP 2: PREPARING WALLS FOR PAINTING

1. Start by scraping off loose paint with a scraper.
2. Remove popped nails. Repair cracks and uneven crevices with filler.
3. Use sandpaper to smoothen the wall of any rough and uneven spots.
4. Dust and wipe off surfaces to be painted. Make sure that the surfaces are thoroughly dry and clean before painting.
5. Try to counterbalance any alkali on the walls. Use a wall sealer.

STEP 3: PROPER PAINTING TECHNIQUES

1. To prevent your surfaces from being ruined during painting, follow this painting sequence: ceiling, cornices, walls, woodwork, doors, and floor skirtings.
2. If using a brush, dip only a third of the bristles into the paint. Use long, sweeping strokes for painting hard-to-reach areas like edges and corners.
3. A roller gives the best finish when painting walls and is quickest. Start painting from the wall's top right corner, using overlapping strokes in an up-down movement.

4. Always let the first coat of paint dry before applying another coat. Drying time for the first coat is indicated on the paint can.
5. Wash all equipment after painting. Use water for emulsion paint and turpentine for oil-based coatings.
