

Medical Equipment | Oakworks ProLuxe PT100

Oakworks brand equipment

Get ultimate access to patient's neck and upper torso with the ProLux PT 100 hi-lo table from Oakworks. It is effective in the application of multiple interventions such as Deep Tissue work, Manipulation and ADLs (Activities of Daily Living). The rectangular top offers comfort to the patient and provides ergonomic ease for the practitioner. The PT 100 secures and lifts large patients effortlessly and facilitates patient transfer. Features Manually Adjusted Top Options: The Hi-Lo table's one break $\pm 40^\circ$ top enables ultimate access when treating the neck or upper torso of your patient. Four top options make the PT100 the most versatile selection.
