

Avante Vision V3

Exam Light

Provides maximum brightness and color rendering

As one of the top choices in lighting for medical facilities, the Avante Vision V3 provides superior light quality. A unique diamond optic design and premium LEDS create maximum brightness and color rendering while reducing shadows, ensuring accurate results. The Vision V3 can easily switch between 3500k and 4500k color temperatures, to fit the exam or procedure. It is also designed to be easy to clean, and it includes a sanitizing component to help prevent the spread of harmful bacteria.

FEATURES

- Evenly lit light field
- High illumination level with an illumination intensity of 60,000 lx/0.5m
- Excellent color rendering
- 360° rotational axis at luminaire head
- Long 50-inch arm reach
- Aluminum arm
- Two color options (3500k and 4500k) for accurate observation and diagnosis
- Integrated low voltage transformer
- Choice of ceiling installation or mounting on a wall, table, rail, or floor stand
- Manufactured with a biocidal component to prevent the spread of bacteria
- Diamond optic design to reduce shadows
- Four dimming levels

SPECIFICATIONS

Ceiling Mount Weight:
19.8 lb (9kg)

Rail/Table/Floor/Wall Mount Weight:
4.4 lb (2kg)

Rated Input Voltage:
100 - 240VAC

Frequency Range:
50/60 Hz

Power Consumption:
21-25VA (21W)

Input Current:
0.1-0.22A

Power Factor:
0.88-0.99

Power Supply Secondary Side:
24VDC

MOUNTING OPTIONS

- Table Clamp
- Floor Stand, with Casters, Gray
- Wall Mount, White
- Universal Base Mount, Black
- Rail Mount (does not include rail)
- Ceiling
