

Avante Digital Floor Scale

Equine Equipment

Accurate and reliable: ideal for accurately weighing horses and other large animals

The Equine Digital Floor scale measures an above average capacity of 3,000 pounds. Although mainly used for weighing horses, this scale can be used for other heavy animals such as cattle, pigs, etc. The low profile scale provides an abundant amount of room so that the horse will feel comfortable enough to walk on and stand still while being weighed.

FEATURES

- Accuracy– 0.1% of full load
- Capacity– 3,000 lb x 1 lb (1,500 kg x 0.5 kg)
- Hold Function– Ideal for single user weighing
- Versatile– Multitude of weighing jobs: equestrian weighing, shipping, and receiving bulk containers
- Battery– Remote location operation
- Detachable ABS Plastic Indicator– Convenient battery charging
- Auto Off– For saving power during downtime
- Durable– Designed for rigorous applications
- Optional floor indicator stand available (shown in image)

SPECIFICATIONS

Capacity & Resolution:
3,000 lbs x 0.1 lb

Platform Size:
78.75" L x 39.37" W x 3.93" H

Platform Construction:
Powder coat paint for corrosion protection. Mild steel construction with safety tread plate surface with fixed rubber mat

Overload Protection:
150%

End Loading Capacity:
100%

Indicator Enclosure:
ABS robust plastic

Display:
LED visible 0.8", six digit

Internal Resolution:
520,000 divisions

Display Rate:
up to 8 times per second

Power:
9V 600mA

Battery Life:
20 hours (approximate)

Operating Temperature:
14°F to 104° F
(-10° C to 40° C)
