

GE LOGIQ e

Portable Ultrasound

The GE LOGIQ e portable ultrasound machine is a leader in state of the art innovation

The machine itself is 10 lbs, but its small size does not diminish its functionality and capability. With the Logiq e you can reach your patients anytime, anywhere with little or no restriction making it perfect for anesthesiology, breast imaging, emergency medicine, and vascular imaging. The Logiq e will allow you to create clear, real-time images at the point of care.
