

# Mindray DPM7

## Patient Monitor

Straightforward and transportable monitor well-suited for any medical department

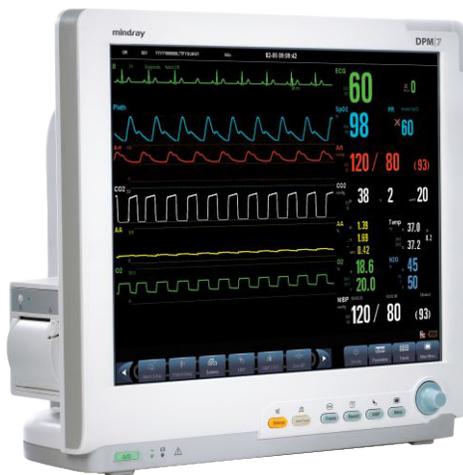

With a large, 17-inch touch screen and diverse monitoring functions, the Mindray DPM7 is an asset to any intensive care unit or operating room. The unit provides clinicians with multi-vector arrhythmia monitoring, as well as 3, 5 and 12-lead ECG monitoring, RESP, NIBP, ST analysis, CO, CCO/SVO2, CO2, 8 invasive blood pressures, and 5-agent multi-gas analysis with auto-ID and data storage. The Mindray DPM7 Patient monitor also features a unique ECG split-screen feature, allowing operators to view 5-lead ECG while still analyzing real-time data. Available with optional conventional or Microstream® EtCO2, Masimo SET® or Nellcor® OxiMax® SpO2, and various mounting configurations.
