Moduflex Coaxial

Veterinary Anesthesia Machine

The Moduflex Coaxial Anesthesia System provides excellent mobility and stability

The only true coaxial CO_2 absorber on the market, the versatile and reliable Coaxial comes standard with large castors, a high-stability base, a rotary float and large scale for easy readability, a recessed flush valve to prevent accidental activation, and a quick-connect fresh gas outlet for easy and secure switching between breathing circuits. It also features SELECTATECTM compatibility manifold for quick and easy installation of a vaproizer. CO_2 absorber with integrated coaxial breathing circuit reduces patient heat loss and helps humidify the expired gas and reduce clutter.

FEATURES

› 0.1 to 0.4 oxygen flowmeter.

› Rotary float and large scale for easy readability.

› Recessed flush valve to prevent accidental activation.

› Quick-connect fresh gas outlet for easy and secure switching between breathing circuits.

› SELECTATEC™ compatibility manifold for easy and quick installation of vaporizer

› CO_2 absorber with integrated coaxial breathing circuit reduces patient heat loss, helps to humidify the inspired gas and reduce clutter.

› Convenient monitor shelf.

› Patient circuit with 2 and 3 liter bags.

› New momentary closed feature incorporated into our pop-off valve.

› 5 year warranty.

AVAILABLE OPTIONS

› Anesthesia vaporizer (Isoflurane, Sevoflurane, Halothane)

› Bain Circuit adaptor

› N2O or medical air

› E-tank holder

› Scavenger interface: For fan or blowing assemblies, For central vacuum system

SPECIFICATIONS
