

Poskom Vet Handheld Generator

X-Ray Generator

Hybrid Battery-Powered Portable X-Ray for Equine Radiography

Created with Microengineering and New Battery Technology for Equine Veterinarians, the Poskom Vet Handheld Generator is the Lightest, Most Brilliant and Durable X-Ray Unit on the Mobile Market.

FEATURES

- Lightweight and Easy to Travel
- Dual Laser Focusing on the Center of X-Ray Film at 26" Preset SID
- Software Controlled Makes Imaging Easier
- Integrated with Wireless Sync Module (Optional for DR) by Radio-Frequency Communication Device
- Preset PROM technique, Collimator Lamp, and Laser Pointer are Selected with Remote Hand-Switch Before Making Exposures.

SPECIFICATIONS

Weight:
15 lbs (6.8 kg)

Output Power:
1.6 kW (800 W)

Battery:
Lithium-Ion Polymer Battery

mAs Range:
0.4 ~ 20mAs in 25 Steps

Max. kV Deviation:
 $\pm 1\%$

Max. mAs Deviation:
 $\pm 3\%$

Indication:
kV (error code) /mAs: 7-segment LED

X-Ray Tube Focal Spot:
1.2mm x 1.2mm

Target Angle:
19-Degree

Anode Heat Storage:
10 kJ

Total Filtration:
2.5 mm Al eq. @90kV

Collimator:
Double Slit Type, Manual Operation X-Ray Field Size: 13.8 in x 13.8 in @25.6 SID
Laser Pointer: 5mW Laser
Push Button Illuminator with 30 Sec Timer Lamp: 5mW Laser

Software:
APR Memory: 15EA (Compounding of 5 Keys)
Infrared Rays Remote Control Software and Remote Control Handswitch
