

SUNTECH

# Vet40

## Vital Signs Monitor

The SunTech Vet 40 is surgical vital signs monitor for companion animals. This monitor has a portable design and can be used in various situations from dental procedures and operating rooms to recovery areas.

This veterinary monitor utilizes SunTech's Advantage Vet blood pressure, an animal-specific algorithm to provide accurate readings. It combines various capabilities such as non-invasive blood pressure, temperature, pulse oximetry, electrocardiogram, and optional end-tidal carbon dioxide and respiratory rate monitoring.

The Vet 40 also allows for automatic readings at intervals and has a 5-inch touchscreen, Bluetooth connectivity, and the ability to connect to an external display. Data can be transferred to a reporting PC application for printing or saving reports.

## PARAMETERS

NIBP

Temperature

SPO2

ECG (3 lead)

EtCO2 (optional)

Respiratory rate (optional)

## FEATURES

- Connect to external display
- 5" touchscreen
- Editable clinical alarms
- Equine BP mode
- STAT BP and interval modes
- Focus screens
