

Valleylab Force 2

Electrosurgical Unit

Allows two surgeons to work simultaneously from a single generator

Blended Cut Modes

Provide flexibility through varying degrees of hemostasis. Choose one of three preset modes

Simultaneous Independent Coagulation

Permits two surgeons to fulgurate from a single generator, for added convenience and efficiency. Accessories are activated only when keyed, reducing the potential for injury caused by inadvertent activation.

Low Voltage Coagulation

Ensures controlled, precise desiccation with less destruction of peripheral tissue, making the Force 2 generator ideal for laparoscopic procedures.

FEATURES

- › Provides cutting and coagulation in monopolar or bipolar outputs
- › Audible and visual alarms, including a standard REM™ Fault Indicator (Return Electrode Monitoring)
- › Maximum 300 watt output for cutting
- › Available refurbished

OPTIONAL ACCESSORIES

- › Bipolar foot switch
- › Monopolar foot switch
- › Rolling Cart
- › Forceps (Mono and Bipolar)
- › Pen (Mono and Bipolar)
- › Grounding Cord/Plate

 Refurbished

SPECIFICATIONS

Weight:
23 lbs. (10.4 kg)

Dimensions:
8" x 13" x 21"
(20 x 33 x 53 cm)

Input Voltage:
85-135 VAC 5%

Mains Line Frequency
Range (nominal):
45/65 Hz

Max Wattage:
300W

Available with an
optional ESU cart
