

# GE Avance Anesthesia Machine

## Veterinary Anesthesia Machine

### Advanced Anesthesia Delivery & Range of Clinical Information Management Systems

The GE Avance S5 Carestation features advanced anesthesia delivery, patient monitoring, and a range of clinical information management systems. The Avance provides sophisticated ventilation with the 7900 Smartvent and its pressure control and ventilation capabilities. It's ability to precisely and rapidly mix anesthetic gas with a 500 millisecond response time provides extra control to the clinician when they need it the most. The integrated Advanced Breathing System (ABS) is solid state to greatly reduce leaks. All while being easy to use, clean, and maintain. The Avance S5 is built for the clinician, starts up fast, has innovative safety features, and provides the feedback you need right at your fingertips.

#### Features:

- ✓ Complete Patient Monitoring Capabilities:
  - Respiratory Gas
  - Hemodynamic
  - Adequacy of Anesthesia
