Accessing Prior W-2's

Please check your Trion Employee Portal for additional W-2s. If it is not available on the portal, you must request the information directly through the IRS.

To request a wage and income transcript, containing the Federal tax information that was reported to the Social Security Administration, visit the [Get Your Tax Record](#) page on the IRS website. Please refer to [Transcript Types and Ways to Order Them](#) and [About Tax Transcripts](#) for more information.

You may also use a Form 4506-T, [Request for Transcript of Tax Return](#) by checking the box for Form W-2, then specifying which tax year(s) you need, and mailing or faxing the completed form. Most requests are processed within 10 business days from the date the IRS received the request.

Please note that the IRS may be able to provide wage and income transcript information for up to 10 years. However, the current processing tax year information may not be complete until the earnings are reported. This transcript does not include any state or local tax information reported to SSA on Form W-2. If you need W-2 information for retirement purposes, you should contact the Social Security Administration at (800) 772 – 1213.
