INDEPENDENT AUDITORS' REPORT

Borough Council
Doylestown Borough, Pennsylvania

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Doylestown Borough, Pennsylvania, as of and for the year ended December 31, 2020, and the related notes to the financial statements, which collectively comprise the Borough's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Doylestown Borough, Pennsylvania, as of December 31, 2020 and the respective changes in financial position and, where applicable, cash flows thereof and the respective budgetary comparison for the general fund, for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other-Matters

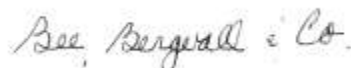

Required Supplemental Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and the historical trend information as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Doylestown Borough's, Pennsylvania, basic financial statements.

The combining and individual nonmajor fund statements and schedules are presented for additional analysis and are not a required part of the basic financial statements. The combining and individual nonmajor fund statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

BOROUGH OF DOYLESTOWN
BUCKS COUNTY, PA
Management's Discussion and Analysis
Year Ended December 31, 2020

As management of the Borough of Doylestown, we offer readers of the Borough's financial statements this narrative overview and analysis of the financial activities of Doylestown Borough for the fiscal year ended December 31, 2020. Please read in conjunction with the Borough's financial statements which follow this section.

FINANCIAL HIGHLIGHTS

- The assets of Doylestown Borough exceeded its liabilities at the close of the most recent fiscal year by \$10,349,570 (*net position*). Of this amount, \$7,563,320 (*unrestricted net position*) may be used to meet the Borough's ongoing obligations to citizens and creditors.
- The Borough's total net position decreased \$1,253,037.
- At the close of the current fiscal year, the Borough's governmental funds reported combined fund balances of \$8,034,896, an increase of \$1,536,097 in comparison with the prior year. Approximately 4.8% of the fund balance (\$378,629) is available for spending at the government's discretion (*unassigned fund balance*).
- At the end of the current fiscal year, the total of the *assigned* and *unassigned* components of *fund balance* for the general fund was \$966,619 or 14.6% of total general fund expenditures.
- The Borough of Doylestown formally adopted a Fund Balance Policy to establish the appropriate level of reserves of fund balance for the General Fund.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to Doylestown Borough's basic financial statements. The Borough's basic financial statements comprise three components:

1. Governmental-wide financial statements
2. Fund financial statements
3. Notes to the financial statements

This report also includes supplementary information intended to furnish additional detail to support the basic financial statements themselves.

Government-wide Financial Statements

The *government-wide financial statements* are designed to provide readers with a broad overview of the Borough's finances, in a manner similar to a private-sector business.

The *statement of net position* presents financial information on all of the Borough's assets, liabilities, and deferred inflows/outflows of resources, with the difference reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the Borough's financial position is improving or deteriorating.

The *statement of activities* presents information showing how the Borough's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the Borough that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*).

The governmental and business-type activities of the Borough include:

- General Government
- Public Safety
- Highways and Streets
- Parking
- Culture and Recreation
- Debt Service
- Water
- Water Capital
- Fanny Chapman Pool

The government wide financial statements can be found on pages 20 to 23 of this report.

Fund Financial Statements. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. Doylestown Borough, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the Borough can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental Funds. *Governmental funds* are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balance of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

Doylestown Borough maintains eight individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General, Capital Projects, and Bond/Capital Reserve funds, which are considered to be major funds.

Data from the Other Governmental Funds (Fire, Ambulance, Debt Service, Highway Aid and Road) are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of *combining statements* elsewhere in this report.

The Borough adopts an annual appropriated budget for its general fund and special revenue funds. A budgetary comparison has been provided for the general fund to demonstrate compliance with this budget.

Proprietary Funds. Proprietary funds are used to account for services for which the Borough charges a fee. Proprietary funds are reported in the same way that all activities are reported in the Statement of Net Position and the Statement of Activities. The Water Fund, Water Capital Fund and the Fanny Chapman Pool Fund are the Borough's three proprietary funds. The basic proprietary fund financial statements can be found on pages 29 to 31 of this report.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are *not* reflected in the government-wide and fund financial statements because the resources of those funds are *not* available to support the Borough's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds. The basic fiduciary fund financial statements can be found on pages 32 and 33 of this report.

Notes to the Financial Statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 34 to 62 of this report.

Other Information. In addition to the basic financial statements and accompanying notes, this report also presents *required supplementary information* concerning the Borough's progress in funding its obligation to provide pension benefits to its employees.

The combining statements referred to earlier in connection with nonmajor governmental funds and fiduciary funds are presented immediately following the required supplementary information on pensions.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of Doylestown Borough, assets exceeded liabilities by \$10,349,570 at the close of the most recent fiscal year. This represents a \$1,253,037 or 10.8% decrease from previous year.

A significant portion of the Borough's net position (\$2,506,363 or 24.2%) reflects its investment in capital assets (e.g. land, buildings & improvements, machinery, and equipment), less any related debt used to acquire those assets that is still outstanding. The Borough uses these capital assets to provide services to citizens; consequently, these assets are *not* available for future spending. Although the Borough's investment in its capital assets is reported net of related debt, and net of accumulated depreciation, it should be noted that the resources needed to repay this debt may be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

THE BOROUGH AS A WHOLE

The following table reflects the condensed statement of net position:

Table 1
Consolidated Statement of Net Position – December 31, 2020

	Governmental Activities		Business-Type Activities		Total	
	2020	2019	2020	2019	2020	2019
Current and Other Assets	\$ 8,907,893	\$ 6,951,695	\$ 924,204	\$ 1,134,285	\$ 9,832,097	\$ 8,085,980

Deferred Inflows of Resources	<u>401,016</u>	<u>221,182</u>	<u>-</u>	<u>-</u>	<u>401,016</u>	<u>221,182</u>
Net Assets						
Net Investment in Capital Assets	1,502,689	3,479,723	1,003,674	955,287	2,506,363	4,435,010
Restricted	264,475	187,716	15,412	14,969	279,887	202,685
Unrestricted (restated)	6,895,279	5,937,239	668,041	1,027,673	7,563,320	6,964,912
Total Net Assets	<u>\$ 8,662,443</u>	<u>\$ 9,604,678</u>	<u>\$ 1,687,127</u>	<u>\$ 1,997,929</u>	<u>\$ 10,349,570</u>	<u>\$ 11,602,607</u>

An additional portion of the Borough's net position (\$279,887 or 2.7%) represents resources that are subject to external restrictions on how they may be used. The remaining balance of *unrestricted net position* (\$7,563,320 or 73.1%) may be used to meet the Borough's ongoing obligations to citizens and creditors. At the end of the current fiscal year, the Borough is able to report positive balances in all three categories of net position, both for the government as a whole, as well as for its separate governmental activities. The Borough's net position decreased by \$1,253,037, or 10.8%, during the current fiscal year.

The following chart shows the revenues and expenses of the governmental activities and component unit business-type activities:

Table 2

Revenue Overview

For the fiscal year ended December 31, 2020, revenues for governmental and business-type activities totaled \$9,302,206, a decrease of \$427,285 or approximately 4.4% from 2019. This decrease was due in part to lower charges for services and investment income. In 2020 the total real estate tax millage increased by 0.824 mills to 15.999 mills. The millage breakdown was thus: general millage at 10.165 mills, fire tax at 1.70 mills, road tax at 1.50 mills, ambulance tax at 0.50 mills and debt service tax at 2.134 mills. The debt service millage of 2.134 is used to finance debt service principal and interest on a \$1,500,000 (2013) Note, a \$1,600,000 (2015) Note, and interest payments on a \$5,000,000 (2020) Note. Sources of revenue for the fiscal year 2020 are comprised of the following items:

Figure 1
Revenues by Source for the Year Ended December 31, 2020

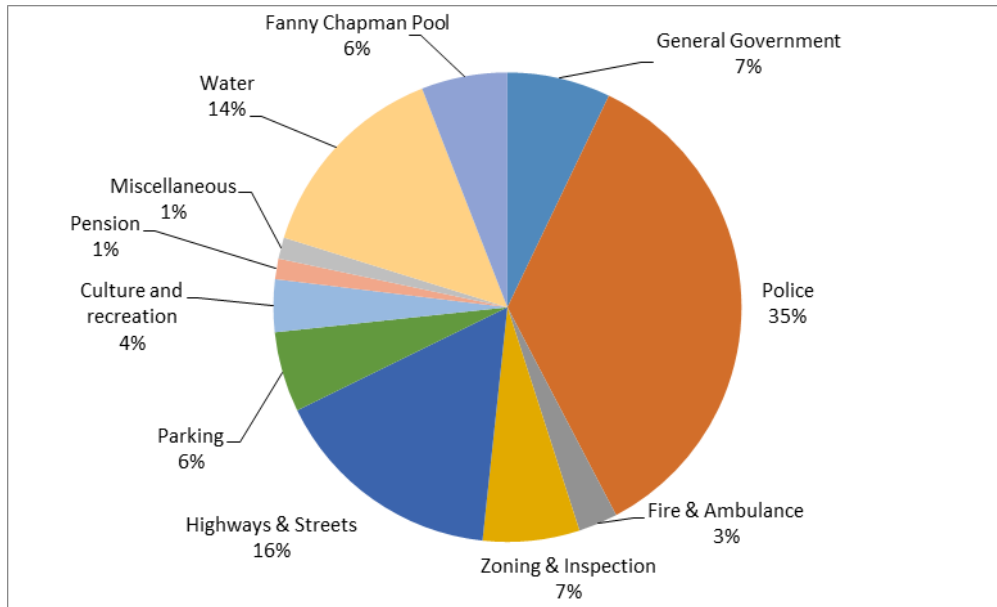

“Charges for Services” is the largest Borough revenue source totaling \$2,792,246 (30% of total revenues) in 2020. The Business-type activities (Water Fund and Fanny Chapman Pool Fund) rely most heavily on this revenue source. Next is the Earned Income Tax at \$1,976,125 (21%), followed by Property taxes at \$1,860,746 (20%), with a total certified assessment of \$117,856,640. Other taxes include the Real Estate transfer tax generating \$506,498 and the Local Services Tax generating \$362,682.

Expense Overview

For the 2020 fiscal year, expenses for government and business-type activities totaled \$10,555,243, an increase of \$1,236,158 (13.3%) over 2019 expenses. The largest areas of expense in 2020 were, in order, Police, Highways and Streets, and Water.

Figure 2
Expenses by Function for the Year Ended December 31, 2019

As indicated above, the Borough's largest program expense is for police protection at \$4,303,908, followed by Highways & Streets (public works activities) at \$1,488,275 and water operations at \$1,447,787.

The change in net position reflects the difference between total revenues and total expenses. For governmental and business-type activities in fiscal 2020, revenues (9,302,206) were exceeded by expenses and net transfers (\$10,555,243) by \$1,253,037 resulting in a decrease in net position by that amount. The year ended with a total net position of \$10,349,570.

FINANCIAL ANALYSIS OF THE GOVERNMENTAL FUNDS

As noted earlier, the Borough used fund accounting to ensure and demonstrate compliance with finance related legal requirements.

Governmental funds. The focus of the Borough's *governmental funds* is to provide information on near-term inflows, outflows, and balances of *spendable* resources. Such information is useful in assessing the Borough's financing requirements. In particular, *Restricted, Assigned and Unassigned Fund Balances* may serve as a useful measure of a Borough's net resources available for spending at the end of the fiscal year. However, the *Restricted* and the *Assigned* are ear-marked for specific purposes.

As of the end of the current fiscal year, the Borough's governmental funds reported combined ending fund balances of \$8,034,896, an increase of \$1,536,097 in comparison

with the prior year. Of the total, \$378,629 constitutes *unassigned fund balance*, which is available for spending at the government's discretion. The remainder of fund balance is *restricted* (\$260,236) or *assigned* (\$7,396,031) to indicate that it is not available for new spending because it has already been reserved for other borough capital projects, purchases and contractual obligations, repayment of debt service, or taxes levied and collected for specific purposes, per Borough Code.

The *Assigned Fund Balance* includes amounts that can only be used for the specific purposes determined by a formal action of Borough Council. A portion of the *Assigned Fund Balance* (\$587,990) is set by Council Resolution as an emergency reserve with a target balance of 10% of all regular general fund operating revenues. These funds are not available for normal expenditure in annual budgets or to supplement normal and ordinary budgetary operational and capital expenses. Only through Council resolution may the funds be spent.

The **General Fund** is the Borough's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund. The general fund balance decreased by \$368,970. The Borough's budget for expenditures in 2020 was \$6,774,971 and the actual expenditures were \$6,622,384, a difference of \$152,587. The Borough's budget for revenues was \$6,311,193 and the actual revenues were \$5,879,901, a shortfall of \$431,292.

The **Capital Projects/Reserve Fund** was set up a number of years ago to account for resources for the acquisition or construction of specific capital facilities and projects by the Borough. In 1994, the Borough sold its sewer system to Bucks County Water and Sewer Authority. Approximately \$7 million of the sale proceeds were put into this fund to be used for capital improvements and equipment purchases. The **Bond/Capital Reserve Fund** accounts for a \$5,000,000 2020 General Obligation Note issued to finance the new Borough Hall and Central Bucks Regional Police HQ. At the end of 2020, the combined balance in these funds were \$6,808,041.

In 2020, capital projects and purchases included:

- Harvey Ave/Shady Retreat Property subdivision
- Fire Marshal Equipment
- MS4 Plan Update
- Computers & Technology
- Asphalt Paver
- 1988 CAT Loader
- Historic Street Lights & Poles
- Parking Dept. Electric Vehicle
- Parking meter housings
- Mowers
- Snow blower
- Chapman Park pond access
- Shade Tree Inventory
- Arbor Day program
- Holiday decorations/hanging flower program (partnership with Destination Doylestown)
- New Borough Hall & Central Bucks Regional Police HQ construction

Special Revenue Funds

Special Revenues Funds are comprised of the following minor funds:

Highway Aid Fund

The Borough received \$254,069 in liquid fuels and \$5,360 in PA turnback funds in 2020. This money was used to reimburse the General Fund for costs associated with winter maintenance services, traffic control devices and street lighting.

Fire Tax Fund

Real estate taxes and interest totaling \$196,328 were collected by the Borough for transfer to Doylestown Fire Company #1. The total tax millage assigned to the fire company is 1.70 mills.

Ambulance Tax Fund

Real estate taxes and interest totaling \$57,414 were collected by the Borough for transfer to Central Bucks Ambulance and Rescue Squad. The total tax millage assigned to the ambulance squad is 0.50 mills.

Road Tax Fund

Real estate taxes and interest totaling \$174,178 were collected by the Borough for road paving and improvements. The total tax millage assigned to the special road fund is 1.5 mills. In 2020, the following roads were resurfaced and/or patched:

- Broad Street (Main to Union)
- East Ashland Street (Church to State)
- West Street (Doyle to Avenue A)
- Belmont Avenue (church to Spruce)
- Kreutz Avenue (N. Chubb to S. Chubb)
- Church Street (Oakland to Ashland)
- Garden Alley (Broad to Pine)
- Wood Street (Hamilton to Clinton)
- Printer's Alley

The fund balance at the close of 2020 was \$68,961. These funds will be used to supplement the 2021 paving projects.

Debt Service Fund

Real estate taxes and interest totaling \$248,053 were collected by the Borough for payment of the General Fund portion of the 2013 and 2015 Bond Issues, and interest payments on the 2020 Bond Issue. The total tax millage assigned to the debt service fund is 2.134 mills.

Proprietary Funds. The Borough's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

Water Fund

This fund is used to account for the financing, costs, and other expenses of water service provided to Borough residents and businesses. 2014 marked the completion of the joint automated meter reading project with Bucks County Water and Sewer Authority. Meter readings are now downloaded remotely via radio antenna, thus enabling an expedited billing process. The unrestricted net position at the end of 2020 was \$159,570.

Water Capital Fund

A new Capital Fund dedicated specifically to the water system was created at the end of 2018, funded by new construction water connection fees. At the end of 2020, the unrestricted net position was \$31,458.

Fanny Chapman Pool Fund

This fund is used to account for the financial activity of the Borough's community swimming pool. The Fanny Chapman Pool complex has five pools and operates from Memorial Day to Labor Day. It is overseen by an appointed Board of Managers who has the authority, subject to the approval of Borough Council, to:

- employ and discharge personnel necessary to operate a swimming pool and provide swimming and aquatic instruction;
- fix the salaries of all employees;
- establish membership fees;
- promulgate and enforce reasonable and proper rules for the use of the pools and the grounds surrounding it in order to ensure the health and safety of the public and the conduct of the program of instruction;
- establish a schedule of hours when swimming shall be permitted; and
- purchase supplies and to maintain the grounds, buildings, and equipment of the pool.

The unrestricted net position at the end of 2020 was \$477,013. This is a decrease of \$216,863 to 2019 and can be attributed to decreased and limited memberships as a result of the COVID19 global pandemic.

Fiduciary Funds. As mentioned earlier, fiduciary funds are resources held for the benefit of parties outside the government. These include:

Pension Trust Fund

This fund is used to account for resources required to be held in trust for the members and beneficiaries of the Borough's defined benefit pension plan – the Non-Uniformed Pension Fund. The Borough is eligible for Act 205 assistance in the form of state aid. The plan is administered by Uninvest Municipal Pension Services.

Custodial Fund

This fund is used to account for subdivision/land development, shade tree, water, and all other types of escrows held by the Borough in a custodial capacity.

General Fund Budgetary Highlights

Final budget compared to actual results. There were no budget amendments so the original and the final budget are the same. Differences between the final budget and the actual budget can be briefly summarized as follows:

Revenues - Total Revenues in the General Fund finished under budget by \$431,292.

- Act 511 Taxes – overage of \$97,983:
 - Real Estate Transfer Taxes were \$121,498 greater than anticipated
 - Local Services Taxes were \$22,318 less than anticipated (COVID19)
- Fines – shortfall of \$113,421:
 - District Justice Fines were \$41,420 less than anticipated (COVID19)
 - Parking Meter Fines were \$69,375 less than anticipated (COVID19)
- Recycling Grant was \$39,013 less than anticipated (received in 2019)
- Public Safety – shortfall of \$78,829 (overall permit fees)
- Highways & Streets – shortfall of \$314,507:
 - Parking Meter Fees were \$276,817 less than anticipated (COVID19)
 - Plaza West Parking Revenue was \$32,149 less than anticipated (COVID19)

Expenditures - Total Expenditures in the General Fund finished under budget by \$152,587.

- Police Services expenditures were under budget by \$35,437
- Zoning/Planning/Inspections expenditures were \$22,843 greater than anticipated
- COVID19 Expenses were \$18,579 greater than anticipated (unbudgeted)
- General Services/Public Works expenditures were under budget by \$63,197
- Snow & Ice Removal expenditures were under budget by \$15,175
- Parking Department expenditures were under budget by \$17,435
- Parks Department expenditures were under budget by \$36,384

The Budgeting process may be conservative on the Revenue side. However, the Expenditure side must be as realistic as possible. Almost the entirety of the revenue shortfalls can be attributed to the COVID19 Global Pandemic and the shutdown of parking and services in Doylestown Borough. However, some of these shortfalls were able to be offset by expenditure budget cuts and conservative spending.

ITEMS OF GENERAL INTEREST

Water

Residents and businesses of the Borough receive water service from Doylestown Borough. The Borough has five supply wells and two water storage standpipes located at Spruce Street (1,000,000 million gallon capacity) and South Chubb Drive (500,000 gallon capacity). Billing is quarterly, and the rates were increased 3% in 2020:

Quarterly Base Charge Per Meter Size

<u>Meter Size</u>	<u>Base Charge</u>
<1.5"	\$ 25.02
1.5"	\$ 26.30
2"	\$ 28.84
3"	\$ 30.11
4"	\$ 31.38

Quarterly Usage Charges

0-3,000 gallons	Base Charge Only
3,001-20,000 gallons	\$3.73/1,000 gallons
20,001 gallons & up	\$4.65/1,000 gallons

Waste Water

Residents and businesses of the Borough are served by the Bucks County Water and Sewer Authority. The Borough has no financial or management control of the sewer authority.

Sanitation

Residents and businesses contract privately for trash pickup. The Borough has no financial or management control of the trash collection and disposal.

Fire and Ambulance

Residents and businesses of the Borough are served by the Doylestown Fire Company and Central Bucks Ambulance. Doylestown Fire Company receives 1.70 mills, and Central Bucks Ambulance receives 0.50 mills for their services. The Borough has no other financial or management control of the fire company or ambulance service.

Public Facilities

The Borough owns nine neighborhood parks along with several open space parcels. The Borough municipal building is located on West Court Street and houses both administration and the Central Bucks Regional Police Department operations. The original building was built in 1838 and is in generally good condition. The Borough administrative operations have been in this building since 1979. The public works department is located at 300 Harvey Avenue and has three garages and several storage buildings including a salt storage shed. The water department office, lab and most storage is also located at 300 Harvey Avenue. There is also a water department storage facility located in Chapman Park.

CAPITAL ASSETS AND DEBT ADMINISTRATION

The Borough's investment in capital assets for its governmental and proprietary type activities as of December 31, 2020, amounts to \$9,557,261 (*net of accumulated depreciation*). This investment in capital assets includes: land and land improvements, construction in progress, building and infrastructure improvements, machinery, vehicles and equipment.

Table 3
Changes in Capital Assets – Governmental & Proprietary Funds

	Beginning Balance <u>1/1/20</u>	Net Additions (Deletions) <u>2020</u>	Ending Balance <u>12/31/20</u>
Non-Depreciable Assets

							<u>\$ 7,172,000</u>

The Borough of Doylestown maintains an AA rating from Kroll Bond Rating Agency, with a Stable Outlook.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES

The elected officials for the Borough of Doylestown considered many factors when setting the 2021 calendar year's budget, tax rates, and fees that will be charged for government-wide and business-type activities (water and municipal pool). One of those factors is the economy and the recovery from the COVID19 Global Pandemic. Overall employment data is not compiled for municipalities, but such data is compiled for the Philadelphia-Camden-Wilmington Metropolitan Statistical Area which includes Bucks County. Unemployment in Bucks County is typically below that of the Philadelphia Region. For June 2020, the county unemployment rate was 12.7% which is 5% below the region (17.7%) and 1.5% above the national rate (11.2%). This statistic reflects an increase at the county level over 2019 of 8.9%, and can be attributed to the COVID19 Global Pandemic.

The Borough of Doylestown total property tax rate will increase by 1.841 mills to 17.84 for 2021. This will change the Debt Service Fund tax millage and reallocate a portion of the Fire and Road taxes to the General Fund. The increase in Debt Service Fund taxes will be used to pay debt service payments for \$5 million in new borrowing for the completion of construction on the long-awaited Broad Street Gateway Park, Central Bucks Regional Police Headquarters, and Borough Hall project.

A 5-year capital improvement plan was implemented in 2014 and will be vital to the Borough's strategic planning in 2021 and future budgets.

Scheduled capital purchases and projects for 2021 include:

- Network upgrades & technology for remote operations
- Historic Street Light poles & fixtures
- Hanging flower basket program
- Parking meter housings
- Base model pickup truck
- Asphalt paver lease payment
- Bucket lift for tree work
- Shade trees and grates
- Arbor Day program
- Fire Marshal equipment
- MS4 plan update
- Traffic signal inspection
- MS4 plan update
- North Main Street water main
- Water system leak detection
- Fire hydrants and system valves
- Well house meters for SCADA system
- Water line locator

2021 paving projects funded by the 1.00 mill real estate tax will include pothole patching and the following streets:

- East Ashland Street (Church to Green)
- West Ashland Street (Main to Clinton)
- East Oakland Avenue (Pine to State)
- Pine Street (Oakland to Ashland)

Borough 2021 water rates will rank as the second lowest in the region when compared to 2020 rates, with no rate increase anticipated. The water rates for 2021 will remain unchanged:

Quarterly Base Charge Per Meter Size

<u>Meter Size</u>	<u>Base Charge</u>
<1.5"	\$ 25.02
1.5"	\$ 26.30
2"	\$ 28.84
3"	\$ 30.11
4"	\$ 31.38

Quarterly Usage Charges

0-3,000 gallons	Base Charge Only
3,001-20,000 gallons	\$3.73/1,000 gallons
20,001 gallons & up	\$4.65/1,000 gallons

The 2021 General Fund budget maintains all services at current levels and includes no increases to staffing levels. This will allow the Borough to continue the high level of service expected by our residents. Police services will continue to be provided by the Central Bucks Regional Police Department, which services Doylestown, New Britain and Chalfont Boroughs.

The 2019 General Fund Budget balanced with a small surplus of \$11,811. The 2020 Budget had a budgeted deficit of \$95,568. The 2021 Budget has a budgeted surplus of \$126,433. Fortunately for the General Fund, 2019 ended with a surplus of \$370,120, which helped cover the 2020 actual deficit of \$368,970. With continued conservative spending and better economic conditions increasing our EIT, Real Estate Transfer Tax, and other revenues affected by the COVID19 Global Pandemic, 2021 will end with as with a larger surplus. As future budgets reflect revenue rising trends, budgeted deficits should disappear.

This financial report is designed to provide our citizens, taxpayers, customers, investors and creditors with a general overview of Doylestown Borough's finances and to show the Borough's accountability for the money we receive.

Requests for Information

This financial report is designed to provide a general overview of Doylestown Borough's finances for all those with an interest in the Borough's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Finance Department, 57 West Court Street, Doylestown, PA 18901.

DOYLESTOWN BOROUGH

RECONCILIATION OF THE BALANCE SHEET FOR GOVERNMENTAL FUNDS
TO THE STATEMENT OF GOVERNMENT-WIDE NET POSITION

December 31, 2020

TOTAL GOVERNMENTAL FUND BALANCES		\$ 8,034,896
Capital assets used in governmental activities are not financial resources and, therefore, are reported in the funds.		
Cost of capital assets	13,061,729	
Accumulated depreciation	<u>(5,189,542)</u>	7,872,187
Because the focus of governmental funds is on short-term financing, some assets will not be available to pay for current-period expenditures. Those assets (such as certain receivables) are offset by deferred revenues in the governmental funds, and thus are not included in fund balance.		
Property tax receivables	29,071	
Earned income taxes receivable	<u>243,363</u>	272,434
Deferred inflows and outflows or resources related to pensions are applicable to future periods and, therefore, are not reported in the funds.		
Deferred outflows - pension plan	166,307	
Deferred inflows - pension plan	<u>(401,016)</u>	(234,709)
Long term liabilities are not due and payable in the current period and therefore, are not reported as liabilities in the funds. Those liabilities consist of the following:		
Accrued interest on bonds	(125,269)	
Bonds and notes payable	(6,369,498)	
Capital lease payable	(307,503)	
Net pension liability	(318,489)	
Compensated absences	<u>(161,606)</u>	<u>(7,282,365)</u>
TOTAL NET POSITION OF GOVERNMENTAL ACTIVITIES		<u>\$ 8,662,443</u>

The notes to the financial statements are an integral part of this statement.

DOYLESTOWN BOROUGH

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND
CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE
GOVERNMENT-WIDE STATEMENT OF ACTIVITIES

For the Year Ended December 31, 2020

NET CHANGE IN FUND BALANCES - GOVERNMENTAL FUNDS		\$ 1,536,097
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.		
Capital outlay	3,264,890	
Depreciation expense	<u>(349,743)</u>	2,915,147
Because some taxes and other receivables will not be collected for several months after the Borough's year end, they are not considered as "available" revenues in the governmental funds, but are considered revenues in the statement of activities. These taxes and other receivables are net of corresponding amounts due as of the end of the prior year.		7,671
The issuance of long-term debt (e.g. bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.		
Debt issuance	(5,377,155)	
Repayment of debt	177,471	
Interest expense	<u>(95,726)</u>	(5,295,410)
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.		
Net pension liability and deferred items	(118,805)	
Compensated absences	<u>13,065</u>	(105,740)
CHANGE IN NET POSITION OF GOVERNMENTAL ACTIVITIES		<u>\$ (942,235)</u>

he notes to the financial statements are an integral part of this statement.

DOYLESTOWN BOROUGH

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2020

I. Summary of significant accounting policies

A. *Reporting entity*

Doylestown Borough is a municipal corporation existing and operating under the Borough code of the Commonwealth of Pennsylvania. The Borough Council (the “Council”) is the basic level of government which has financial accountability and control over all activities related to municipal functions in the Borough of Doylestown. The Council is not included in any other governmental “reporting entity” as defined by the Government Accounting Standards Board, since Council members are elected by the public and have decision-making authority, the authority to levy taxes, the power to designate management, the ability to significantly influence operations, and have primary accountability for fiscal matters.

In evaluating the Borough (the primary government) as a reporting entity, all potential component units that may or may not fall within the financial accountability of the Borough have been addressed. Financial accountability is present if the Borough appoints a voting majority of a component unit’s governing body and has the ability to impose its will on the organization or if there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the Borough. Based on these criteria, there are no organizations or agencies which should be included in the Borough’s reporting entity

B. *Government-wide and fund financial statements*

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the Borough. All fiduciary activities are reported only in the fiduciary fund financial statements. *Governmental activities*, which normally are supported by taxes, intergovernmental revenues, and other nonexchange transactions, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges to external customers for support.

The statement of activities reports the expenses of a given function offset by program revenues directly connected with the functional program. A function is an assembly of similar activities and may include portions of a fund or summarize more than one fund to capture the expenses and program revenues associated with a distinct functional activity.

Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include: (1) charges for services which report fees and other charges to users of the Borough’s services; (2) operating grants and contributions which finance annual operating activities; and (3) capital grants and contributions which fund the acquisition, construction, or rehabilitation of capital assets. These revenues are subject to externally imposed restrictions to these program uses. Taxes and other revenue sources not properly included with program revenues are reported as general revenues.

DOYLESTOWN BOROUGH

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2020

I. Summary of significant accounting policies (Continued)

B. Government-wide and fund financial statements (continued)

While separate government-wide and fund financial statements are presented, they are interrelated. The governmental activities column incorporates data from governmental funds, while business-type activities incorporate data from the government's enterprise funds. Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments in lieu of taxes where the amounts are reasonably equivalent in value to the interfund services provided and other charges between the government's proprietary functions and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Fund Financial Statements

Fund financial statements are provided for governmental funds, including its fiduciary funds. Separate statements for each fund category - governmental, proprietary, and fiduciary - are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental and enterprise funds are aggregated and reported as nonmajor funds. Major individual governmental and enterprise funds are reported as a separate column in the fund financial statements.

C. Measurement focus, basis of accounting, and financial statement presentation

The government-wide statements report using the *economic resources measurement focus* and the *accrual basis of accounting* generally including the reclassification or elimination of internal activity (between or within funds). Proprietary and fiduciary fund financial statements also report using the same focus and basis of accounting although internal activity is not eliminated in these statements and any custodial funds reported have no measurement focus. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property tax revenues, net of any uncollectible amounts, are recognized in the year for which they are levied while grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

DOYLESTOWN BOROUGH

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2020

I. Summary of significant accounting policies (Continued)

C. *Measurement focus, basis of accounting, and financial statement presentation (continued)*

Governmental fund financial statements reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized when they are both measurable and available. Available means collectible within the current period or soon enough thereafter to pay current liabilities. The Borough considers revenues to be available if they are collected within 60 days of the end of the fiscal year. Property taxes levied but collected beyond 60 days after year-end are recorded as deferred revenue to be recognized as revenue when the taxes are collected. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds.

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the government.

Basis of Presentation - Fund Accounting and Measurement Focus

The accounts of the Borough are organized on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues and expenditures, or expenses as appropriate. Government resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. The following is a description of the fund types used by the Borough in the accompanying basic financial statements.

The government reports the following major governmental funds:

The *General Fund* is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The *Capital Projects Fund* is used to account for resources for the acquisition or construction of specific capital facilities by the Borough.

DOYLESTOWN BOROUGH

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2020

I. Summary of significant accounting policies (Continued)

C. *Measurement focus, basis of accounting, and financial statement presentation (continued)*

The *Capital Reserve Fund* is used to account for resources accumulated for future capital projects.

Proprietary Funds - These funds are used to account for operations that are organized to be self-supporting through user charges.

The *Water Fund* is used to account for the financing, costs, and other expenses of water services provided to Borough residents.

The *Water Capital Fund* is used to account for tapping/connection fees and the capital expenditures of the water system.

The *Fanny Chapman Pool Fund* is used to account for the financial activity of the Borough's community swimming pool.

Trust and Custodial Funds - Are used to account for assets held by the Borough in a trustee or custodial capacity for individuals and/or other funds.

Pension Trust Fund - This fund is used to account for resources required to be held in trust for the members and beneficiaries of the Borough's defined benefit pension plan - The Non-Uniform Pension Fund.

Custodial Fund - This fund is used to account for subdivision/land development, shade tree, water/sewer, and all other types of escrows held by the Borough in a custodial capacity.

Major revenue sources susceptible to accrual include: property taxes, earned income taxes, interest earnings, special assessments, levies, intergovernmental revenues and charges for services. In general, other revenues are recognized when cash is received. In applying the susceptible to accrual concept to intergovernmental revenues, there are essentially two types of revenues. In one, monies must be expended for the specific purpose or project before any amounts will be paid to the Borough; therefore, revenues are recognized based upon the expenditures incurred. In the other, monies are virtually unrestricted and are usually revocable only for failure to comply with prescribed compliance requirements. These resources are reflected as revenues at the time of receipt or earlier if the susceptible to accrual criteria are met.

DOYLESTOWN BOROUGH

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2020

I. Summary of significant accounting policies (Continued)

C. Measurement focus, basis of accounting, and financial statement presentation (continued)

Proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses reported in proprietary fund financial statements includes revenues and expenses related to the primary, continuing operations of the fund. Principal operating revenues for proprietary funds are charges for services, consisting of rent. Principal operating expenses are the costs of providing goods or services and include administrative expenses and depreciation of capital assets. All revenues and expenses not meeting this definition classified as nonoperating in the financial statements.

When both restricted and unrestricted resources are available for use, it is the Borough's policy to use restricted resources first, then unrestricted resources as needed.

During the course of operations the government has activity between funds for various purposes. Any residual balances outstanding at year end are reported as due from/to other funds and advances to/from other funds. While these balances are reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Balances between the funds included in governmental activities (i.e., the governmental funds) are eliminated so that only the net amount is included as internal balances in the governmental activities column. Similarly, balances between the funds included in business-type activities (i.e., the enterprise funds) are eliminated so that only the net amount is included as internal balances in the business-type activities column.

Further, certain activity occurs during the year involving transfers of resources between funds. In fund financial statements these amounts are reported at gross amounts as transfers in/out. While reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Transfers between the funds included in governmental activities are eliminated so that only the net amount is included as transfers in the governmental activities column. Similarly, balances between the funds included in business-type activities are eliminated so that only the net amount is included as transfers in the business-type activities column.

DOYLESTOWN BOROUGH

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2020

I. Summary of significant accounting policies (Continued)

D. Assets, liabilities, and net assets or equity

1. Deposits and investments

The government's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

With the exception of Pension Trust Funds, state law allows the government to invest in obligations of the United States of America, the Commonwealth of Pennsylvania, or any agency or instrumentality of either, which are secured by the full faith and credit of such entity. The law also allows for the Government to invest in certificates of deposit of banks, savings and loans, and savings banks both within and outside the Commonwealth of Pennsylvania, provided such amounts are insured by the Federal Deposit Insurance Corporation (FDIC) or other like insurance, and that deposits in excess of such insurance are collateralized by the depository.

The state also imposes limitations with respect to the amount of investment in certificates of deposit to the extent that such deposits may not exceed 20% of a bank's total capital surplus or 20% of a savings and loan's or savings bank's assets, net of its liabilities. The government may also invest in shares of registered investment companies, provided that investments of the Company are authorized investments, as noted above.

The law provides that the government's Pension Trust Funds may invest in any form or type of investment, financial instrument, or financial transaction if determined by the government to be prudent.

Investments for the government are reported at fair value. The Investment Pool operates in accordance with appropriate state laws and regulations. The reported value of the pool is the pool's amortized cost-based net asset value per share, which approximates fair value. There are no limitations or restrictions on withdrawals.

2. Receivables and payables

Outstanding balances between funds are reported as "due to/from other funds". Any residual balances outstanding between the governmental activities and other activities are reported in the government-wide financial statements as "internal balances".

At December 31, 2020, all trade receivables were deemed to be fully collectible. The property tax receivable allowance is immaterial and therefore is not included in outstanding property taxes at December 31, 2020.

DOYLESTOWN BOROUGH

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2020

I. Summary of significant accounting policies (Continued)

D. Assets, liabilities, and net assets or equity (continued)

2. Receivables and payables (continued)

Property taxes are levied as of March 1 on property values assessed as of the same date. Taxes are billed March 1 and payable under the following terms: a 2% discount March 1 through April 30; face amount May 1 through July 1; and a 10% penalty after July 1. Any unpaid taxes are attached as an enforceable lien on such property as of January 15 of the following year. The Borough employs an elected tax collector to collect the property tax levied. Property taxes collected within sixty days subsequent to December 31, 2020 are recognized as revenue for the year ending December 31, 2020.

3. Use of estimates

The preparation of the financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

4. Capital assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the governmental or business activities columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$5,000 (amount not rounded) and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed. Prior to January 1, 2004, governmental funds' infrastructure assets were not capitalized. These assets are valued prospectively.

DOYLESTOWN BOROUGH

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2020

I. Summary of significant accounting policies (Continued)

D. Assets, liabilities, and net assets or equity (continued)

4. Capital assets (continued)

Property, plant, and equipment of the primary government, as well as its component units, are depreciated using the straight line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Land improvements	20
Building and improvements	25-50
Fixtures, equipment, vehicles	8-25
Road projects and traffic lights	40

5. Compensated absences

The Borough allows employees to carry over certain paid time off. Except with prior approval by the Borough Manager, vacation days may not be accumulated from year to year but shall be taken in the year of entitlement or the employee shall be paid for any unused vacation with the last pay of the year.

A record of unused sick leave and vacation entitlement for the coming year shall be issued to each member in the collective bargaining unit agreement. Upon termination or retirement, the Borough will purchase from each employee their accumulated sick days beginning after 180 days.

6. Long-term obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the governmental activities, statement of net assets. If bond premiums or discounts exist, they are deferred and amortized over the life of the bonds using the straight line method. Bonds payable are reported net of any applicable bond premium or discount. Bond issuance costs are expensed as incurred.

In the fund financial statements, governmental fund types would recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Any premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

DOYLESTOWN BOROUGH

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2020

I. Summary of significant accounting policies (Continued)

D. *Assets, liabilities, and net assets or equity* (continued)

7. *Deferred outflows/inflows of resources*

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will *not* be recognized as an outflow of resources (expense/ expenditure) until then. The Borough has the following item that qualifies for reporting in this category.

1. *Change in assumptions* is reported in the government-wide statement. A difference results when assumptions used to prepare the actuarial valuation of the pension plan changes. These amounts are deferred and recognized as an outflow of resources in the period that the amounts become available.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will *not* be recognized as an inflow of resources (revenue) until that time. The Borough has the following items that qualify for reporting in this category.

1. *Differences between expected and actual experience on pension plan liability* is reported in the government-wide statement. A difference results when actual economic or demographic factors differ from expected results. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.
2. *Net difference between projected and actual earnings on pension plan investments* is reported in the government-wide statement of net position. A net difference results from the actual earnings in the plan either exceeding or falling short of projected earnings. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.
3. *Unavailable revenue - property taxes* is reported in the governmental funds balance sheet. The governmental funds report unavailable revenues from one source: property taxes. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

DOYLESTOWN BOROUGH

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2020

I. Summary of significant accounting policies (Continued)

D. *Assets, liabilities, and net assets or equity (continued)*

8. *Net position*

In the government-wide financial statements, net position is classified in the following categories:

Net investment in capital assets - This category groups all capital assets, including infrastructure, into one component of net assets. Accumulated depreciation and the outstanding balances of debt that are attributable to the acquisition, construction or improvement of these assets reduce the balance of this category.

	<u>Governmental Activities</u>	<u>Business-Type Activities</u>	<u>Total</u>
Net Investment in Capital Assets			
Capital assets not being depreciated	\$ 3,487,753	\$ 141,964	\$ 3,629,717
Capital assets being depreciated, net of accumulated depreciation	4,384,434	1,664,212	6,048,646
Less: Long-term debt outstanding	<u>(6,369,498)</u>	<u>(802,502)</u>	<u>(7,172,000)</u>
Total Net Investment in Capital Assets	<u>\$ 1,502,689</u>	<u>\$ 1,003,674</u>	<u>\$ 2,506,363</u>

Restricted net position - This category presents external restrictions imposed by creditors, grantors, contributors or laws or regulations of other governments and restrictions imposed by law through constitutional provisions or enabling legislation.

Unrestricted net position - This category represents net position of the entity, not restricted for any project or other purpose.

9. *Fund balance*

Governmental funds report fund balance in classifications based primarily on the extent to which the Borough is bound to honor constraints on the specific purposes for which amounts in the funds can be spent. Fund balance for governmental funds consists of the following:

Nonspendable Fund Balance - Includes amounts that are (a) not in spendable form, or (b) legally or contractually required to be maintained intact. The “not in spendable form” criterion includes items that are not expected to be converted to cash, for example: inventories, prepaid amounts, and long-term notes receivable.

DOYLESTOWN BOROUGH

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2020

I. Summary of significant accounting policies (Continued)

D. Assets, liabilities, and net assets or equity (continued)

9. Fund balance (continued)

Restricted Fund Balance - Includes amounts that are restricted for specific purposes stipulated by external resources providers, constitutionally or through enabling legislation. Restrictions may effectively be changed or lifted only with the consent of resource providers.

Committed Fund Balance - Includes amounts that can only be used for the specific purposes determined by a formal action of the Borough's highest level of decision-making authority, the Borough Council. Commitments may be changed or lifted only by the Borough taking the same formal action that imposed the constraint originally (for example: resolution and ordinance).

Assigned Fund Balance - Includes amounts intended to be used by the Borough for specific purposes but do not meet the criteria to be classified as committed. The governing body, the Board Council, has by resolution authorized the Borough Manager or Finance Director to assign fund balance. The Board may also assign fund balance as it does when appropriating fund balance to cover a gap between estimated revenue and appropriations in the subsequent year's appropriated budget. Unlike commitments, assignments generally only exist temporarily. In other works, an additional action does not normally have to be taken for the removal of an assignment. Conversely, as discussed above, an additional action is essential to either remove or revise a commitment.

Emergency Reserve - By Board Resolution, five (5%) to fifteen (15%), with a target of ten percent (10%), of all regular general fund operating revenues as determined by the Borough financial statements shall be held in reserve and not be available for normal expenditure in annual budgets or to supplement normal and ordinary budgetary operational and capital expenses. Through Board resolution the funds may be spent.

Unassigned Fund Balance - This residual classification is used for all negative fund balances in Special Revenue, Capital Projects, and Debt Service funds; or any residual amounts in the General Fund.

In circumstances when an expenditure is made for a purpose for which amounts are available in multiple fund balance classifications, fund balance is depleted in the order of restricted, committed, assigned, and unassigned. In all cases, encumbrance amounts have been assigned for specific purposes for which resources already have been allocated.

DOYLESTOWN BOROUGH

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2020

I. Summary of significant accounting policies (Continued)

D. Assets, liabilities, and net assets or equity (continued)

10. *Subsequent events*

The Borough has evaluated events and transactions for potential recognition or disclosure in the financial statements through the date of this report, which is the date the statements were available for release. No subsequent events have been recognized or disclosed.

11. *New Accounting Pronouncements*

GASB Statement No. 84, Fiduciary Activities (GASB 84): GASB reclassifies certain escrow deposits from liabilities in the Governmental funds to Fiduciary funds, and reclassifies escrow liabilities to Net Position Restricted for Developers and Others in the Fiduciary Funds. Escrow additions are now recorded as receipts and escrow disbursements are recorded as expenses. The beginning net position in the Fiduciary funds increased by \$306,658 as a result of implementing this statement.

GASB Statement No. 87, Leases (GASB 87): GASB 87 substantially changes current accounting procedures regarding lease accounting and offers specific accounting guidance for lessees, lessors and sale-leaseback transactions. GASB 87 establishes a right-of-use (“ROU”) model that requires lessees to record a ROU asset and lease liability in the statement of financial position for all leases with terms longer than 12 months (the standard may optionally be applied to leases with terms of 12 months or less). Leases will be classified as either finance leases or operating leases depending on the characteristics of the lease; consistent with current accounting procedures, the recognition, measurement and presentation of expenses and cash flows arising from the lease will depend on the lease classification. This Statement is expected to have an implementation date for fiscal year beginning after June 15, 2021.

II. Stewardship, compliance, and accountability

A. *Budgetary information*

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for all funds of the Borough. All annual appropriations lapse at fiscal year-end.

DOYLESTOWN BOROUGH

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2020

II. Stewardship, compliance, and accountability (Continued)

A. *Budgetary information (continued)*

Prior to November, Council approves a preliminary budget for the upcoming fiscal year, reflecting proposed expenditures and the means of financing them. During November, the Borough holds budget hearings for the purpose of receiving oral and written comments from interested parties in regard to the proposed budget for the following year.

The Borough makes available to the public its proposed operating budget for all funds. The operating budget includes proposed expenditures and the means of financing them. The Board holds public hearings and a final budget must be prepared and adopted no later than December 31 through the passage of an ordinance. Any budget revisions require the approval of Borough Council. The Council authorized the use of unallocated fund balance in 2020. Encumbrance accounting is employed in governmental funds. Encumbrances (e.g., purchase orders) outstanding at year end lapse.

B. *Excess of Expenditures Over Appropriations*

For the year ended December 31, 2020, expenditures over appropriations for the General Fund were as follows: Public safety \$3,102. The over expenditures were covered through revenues in excess of budget.

III. Detailed notes on all funds

A. *Deposits and investments*

Custodial Credit Risk - Deposits. In the case of deposits, this is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The government's policy is to require their banking institution to provide a letter stating that they follow the Commonwealth of Pennsylvania Act 72, where all funds in excess of federal depository insurance limits held by the bank are collateralized in public funds secured on a pooled basis.

As of year-end, the governmental and business-type activities carrying value of bank deposits was \$7,382,855. Of the bank balance, \$500,000 was covered by federal depository insurance and \$104,200 was invested in externally pooled investments, which are not subject to credit risk. Any balances exceeding depository insurance are exposed to custodial credit risk because it is uninsured and collateralized with securities held by the pledging institution's trust department or agent, but not in the government's name.

DOYLESTOWN BOROUGH

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2020

III. Detailed notes on all funds (Continued)

A. *Deposits and investments (continued)*

Investment Pool - The Borough has carrying deposits in external investment pools, held with PLGIT Bank. These deposits are considered cash equivalents because of their short maturity dates and are included in the carrying amount of deposits disclosed above. These deposits are not subject to custodial credit risk because they are not evidenced by securities that exist in physical or book entry form.

The investment in the pool is the same as the value of the pool shares and is reported at amortized cost, which approximates fair value. PLGIT activities are invested directly in a portfolio of securities, which are held by a third-party custodian. The Borough can withdraw funds from the external investment pool without limitation or fees upon adequate notice. The investment pool was rated AAAM by Standard & Poor's and has average maturities of less than 30 days. The Investment Pool operates in accordance with appropriate state laws and regulations.

Custodial Credit Risk - Investments. For an investment, this is the risk that, in the event of a failure of the counterparty, the government will not be able to recover the value of its investments or collateral securities that are in possession of an outside party. The risks of default are eliminated due to the constraints imposed upon allowable investment instruments by the Borough's investment policy and through state limitations as discussed in Note I, D, 1.

At year-end balances were as follows:

	<u>Amount</u>	<u>Average Rating</u>	<u>Average Maturity</u>
GOVERNMENTAL ACTIVITIES			
Externally Pooled Investments (PLGIT)	\$ 104,200	AAAM	30 days
Certificates of Deposit	645,467	not applicable	1 year
Mortgages	277	not applicable	4 years
Total Governmental Activities	<u>\$ 749,944</u>		
FIDUCIARY FUNDS			
Externally Pooled Investments (PLGIT)	\$ 372,832	AAAM	30 days
Mutual Funds - Equity	2,420,302	not applicable	not applicable
Mutual Funds - International Equity	543,544	not applicable	not applicable
Mutual Funds - Fixed Income	1,772,712	BB	5 years
Total Fiduciary Funds	<u>\$ 5,109,390</u>		

Interest Rate Risk. This is the risk that changes in interest rates will adversely affect the fair market value of an investment. The Borough's policy regarding its fixed income investments generally limits the maximum maturity of a security to ten years. As of December 31, 2020, the Borough did not have any investments maturing beyond the ten year period. See above maturities.

DOYLESTOWN BOROUGH

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2020

III. Detailed notes on all funds (Continued)

A. *Deposits and investments (continued)*

Concentration of Credit Risk. This is the risk of loss attributed to the magnitude of a government's investment in a single issuer. There were no investments greater than 5% in any one single issuer that would be considered a concentration of credit risk for the government.

Fair Value Measurements: The Borough categorizes its fair value measurements within the hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. The Borough has the following recurring fair value measurements as of December 31, 2020:

	<u>Fair Value</u>	<u>Level 1</u>	<u>Level 2</u>
GOVERNMENTAL ACTIVITIES			
Externally Pooled Investments (PLGIT)	\$ 104,200	\$ -	\$ 104,200
Mortgages	277	-	277
Total Governmental Activities	<u>\$ 104,477</u>	<u>\$ -</u>	<u>\$ 104,477</u>
FIDUCIARY FUNDS			
Externally Pooled Investments (PLGIT)	\$ 372,832	\$ -	\$ 372,832
Mutual Funds - Equity	2,420,302	2,420,302	-
Mutual Funds - International Equity	543,544	543,544	-
Mutual Funds - Fixed Income	1,772,712	1,772,712	-
Total Fiduciary Funds	<u>\$ 5,109,390</u>	<u>\$ 4,736,558</u>	<u>\$ 372,832</u>

B. *Receivables and due from other governments*

Receivables as of year-end for the government's individual major funds, non-major funds, and proprietary funds, are as follows:

	<u>General</u>	<u>Capital Reserve</u>	<u>Other Governmental Funds</u>	<u>Water</u>	<u>Non-Uniform Pension Trust Fund</u>	<u>Total</u>
Receivables:						
Taxes receivable	\$ 603,548	\$ -	\$ 11,791	\$ -	\$ -	\$ 615,339
Other receivable	70,421	688,704	-	-	-	759,125
Accounts receivable	-	-	-	58,017	-	58,017
Unbilled revenue	-	-	-	127,654	-	127,654
Interest receivable	-	-	-	-	2,487	2,487
Total Receivables	<u>\$ 673,969</u>	<u>\$ 688,704</u>	<u>\$ 11,791</u>	<u>\$ 185,671</u>	<u>\$ 2,487</u>	<u>\$ 1,562,622</u>

D. Interfund receivables, payables, and transfers

The composition of interfund balances as of December 31, 2020 are as follows:

	<u>Due From</u> <u>Other Funds</u>	<u>Due To</u> <u>Other Funds</u>
General fund	\$ -	\$ 195,922
Capital projects	47	-
Other governmental funds	1,407	3,085
Water	<u>201,805</u>	<u>4,252</u>
Total	<u>\$ 203,259</u>	<u>\$ 203,259</u>

Interfund balances are primarily a result of:

- (1) reimbursement of expenditures
- (2) allocation of wages and benefits

Interfund transfers:

	<u>Transfer in</u>	<u>Transfer out</u>
General fund	\$ 368,210	\$ -
Capital projects	178,816	106,210
Capital reserve	-	178,816
Other governmental funds	<u>-</u>	<u>262,000</u>
Total	<u>\$ 547,026</u>	<u>\$ 547,026</u>

Interfund transfers are primarily a result of:

- (1) allocation of wages and benefits
- (2) to fund capital projects and acquisitions

E. Rentals

The Borough leases certain of its real property to various communications companies which use it to house antennae and related property. The leases generally have initial lease terms of five years, with options to renew, and contain various escalation clauses, some of which take effect annually, while others are effective at the option renewal dates.

Rent collected under these leases during 2020 was \$148,209. Scheduled payments remaining on existing contracts are as follows for the years ending December 31:

F. Long-term debt

General Obligation Notes

The government issues general obligation notes to provide funds for the acquisition and construction of major capital facilities, and other capital projects. The original amount of general obligation notes issued in prior years was \$3,100,000. In 2020, the Borough obtained a \$5,000,000 general obligation note to pay for capital projects. The note is payable in monthly installments with an interest rate of 2.073%. The note matures in 2040. General obligation notes are direct obligations and pledge the full faith and credit of the Borough.

Amounts outstanding at December 31, 2020 are as follows:

<u>Purpose</u>	<u>Interest Rates</u>	<u>Amount</u>
Government-type activities	2.073%-2.278%	\$ 6,369,498
Business-type activities	2.23%-2.278%	802,502
		\$ 7,172,000

Annual debt service requirements to maturity for general obligation notes are as follows:

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2020

III. Detailed notes on all funds (Continued)

F. Long-term debt (continued)

Debt service for general obligation notes is funded primarily from taxes for governmental activities and charges for service in the business type activities. Any liabilities for compensated absences are generally liquidated by the general fund for governmental activities and the water fund for business-type activities.

IV. Other information

A. Risk management

The government is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; and natural disasters for which the government participates in the Delaware Valley Property & Liability Trust pool, the Delaware Valley Workers' Compensation Trust pool, and the Delaware Valley Health Trust Pool. Trust underwriting and rate-setting policies are established after consultation with independent insurance consultants. Any member may withdraw from the Trust by giving 150 days written notice to the Executive Committee. Settled claims from these risks have not exceeded insurance coverage for the past three years. There were no significant reductions in insurance coverage from coverage in the prior year.

- The Delaware Valley Property & Liability Trust - The insurance expense for the year ended December 31, 2020 was \$72,367. The pooling agreement permits the pool to make additional assessments to its members. At December 31, 2020, there were no additional assessments due or anticipated; instead, the pool declared a dividend of which the Borough's share was \$16,510.
- The Delaware Valley Workers' Compensation Trust - The insurance expense for the year ended December 31, 2020 was \$48,038. The Borough received \$3,017 as a result from a payroll audit of the 2019 coverage year. There were no additional assessments due or anticipated. An audit of the 2020 payroll will be performed in 2021. At December 31, 2020, the pool declared a dividend of which the Borough's share was \$16,426.
- The Delaware Valley Health Trust - The insurance expense for the year ended December 31, 2020 was \$621,459. There were no additional assessments due or anticipated. At December 31, 2020, the pool did not declare a dividend.

DOYLESTOWN BOROUGH

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2020

IV. Other information (Continued)

B. Contingent liabilities (continued)

Amounts received or receivable from grant agencies are subject to audit and adjustments by grantor agencies. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures that may be disallowed by the grantor cannot be determined at this time, although the government expects such amounts, if any, to be immaterial.

In the normal course of business, there are various relatively minor claims and suits pending against the Borough, none of which materially affect the financial position of the Borough.

C. Deferred Compensation Plan

The Borough offers a deferred compensation plan created in accordance with Internal Revenue Code Section 457. The plan is administered by independent plan administrators, and is available to all non-uniformed employees. The Borough's contribution is a 100% match of employee deferrals up to a maximum of 5.5% of base salary. The Borough's contribution for 2020 was \$99,255.

D. Employee retirement systems and pension plans

Defined Benefit Pension Plan Description and Membership

The Borough sponsors a single employer defined benefit pension plan, the Non-Uniform Pension Plan. This plan is reported as a Pension Trust Fund in the accompanying financial statements. The plan does not issue a stand-alone report. The plan is administered by the Borough. The most recent valuation was as of January 1, 2019. Details below are from the valuation.

The plan covers all full time non-uniform employees of Doylestown Borough. An employee enters the plan on the date of hire.

The plan is controlled by the provisions of Ordinance No. 2011-15, as amended, adopted pursuant to Act 581. The plan is governed by the Borough Council which is responsible for the management of plan assets. Borough Council has appointed the Pension Board as the official body to which all related investment matters of the Fund are delegated. The Pension Board consists of four members, consisting of three Borough Council Members and one participant of the plan. The Borough Council has delegated the authority to manage certain plan assets to Girard Pension Services, LLC., with Matrix Trust Company as custodian.

DOYLESTOWN BOROUGH

NOTES TO FINANCIAL STATEMENTS

IV. Other information (Continued)

D. Employee retirement systems and pension plans (continued)

The following table provides information concerning types of covered employees for the Borough's Plan as of December 31, 2020:

Inactive employees (or their beneficiaries) currently receiving benefits	14
Inactive employees entitled to benefits but not yet receiving them	6
Active employees	<u>27</u>
	<u>47</u>

Benefits Provided

The pension plan provides members and their beneficiaries' retirement, death, and disability benefits. All fulltime employees are eligible for participation and are fully vested after 5 years of service. The normal retirement date is age 65 and 5 years of service. The normal retirement benefit is a monthly benefit equal to 1.25% for each year of service times the average monthly salary over the participant's final thirty-six months of employment. Disability benefits are equal to 50% of the member's salary at the time the disability was incurred. Said pension shall be reduced by any available Workers' Compensation benefits received for the same injuries. Upon attainment of ten years of service, nonservice-related disability benefits are provided to a member who is certified to be unable to engage in any gainful employment equal to 30% of the member's salary at the time the disability was incurred. A cost of living adjustment may be provided to retired members. Annual adjustments are not to exceed the increase in the Consumer Price Index from year to year. Total adjustments are not to exceed 30% of the retiree's original pension. Benefits and Contribution provisions are established, and may be amended by, Pennsylvania law. Administrative costs of the Plan are financed through investment earnings.

Measurement Focus and Basis of Accounting

Basis of Accounting: Pension Plan financial statements are prepared using the economic resources measurement focus and the accrual basis of accounting. Employer and member contributions are recognized as when due pursuant to formal commitments, as well as statutory or contractual requirements. Investment income is recognized as revenue when earned. Retirement benefits and refunds are recognized when due and payable in accordance with terms of the Plan. Other expenses are recognized when the corresponding liabilities are incurred.

DOYLESTOWN BOROUGH

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2020

IV. Other information (Continued)

D. Employee retirement systems and pension plans (continued)

Measurement Focus and Basis of Accounting (continued)

The net appreciation/(depreciation) in fair value of investments is recorded as an increase/(decrease) to investment income based on the valuation of investments. The entire expense of Plan administration is charged against the earnings of the Plan. Investment earnings are reduced for investment management fees, portfolio evaluation, custodial services, and actuarial services, as required by State statutes.

Method Used to Value Investments: Pension Plan investments are reported at fair value. Fair value is based on quoted market values. Securities that are traded on a national or international exchange are valued at the last reported sales price at current exchange rates.

Contributions

Non-Uniform members were not required to contribute to the plan in 2020. Contributions are determined on an annual basis. Administrative costs and investment costs of the plan are financed through an addition to the Actuarially Determined Employer Contribution.

The Borough is required by statute, principally Pennsylvania Act 205, to contribute the remaining amounts necessary to finance the Pension Fund. Benefit and contribution provisions are established by Pennsylvania law and may be amended only as allowed by Pennsylvania law. The Pension Plans funding policy provides for periodic employer contributions at actuarially determined rates that, expressed as percentages of annual covered payroll, are sufficient to accumulate sufficient assets to pay benefits when due.

The Borough's annual required contribution is equal to its minimum municipal obligation ("MMO") as calculated in accordance with Pennsylvania law (Act 205 of 1984) less state aid and employee contributions deposited in the pension fund during the year. State law requires that state aid be used first to fund the plan, then employee contributions and finally general Borough funds. The Borough received state aid, which is recognized as revenue and expenses, in the amount of \$128,020 for the pensions for the year ended December 31, 2020.

DOYLESTOWN BOROUGH

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2020

IV. Other information (Continued)

D. Employee retirement systems and pension plans (continued)

Investments

Investment Policy: The pension Board, with the assistance of TCG Investment Advisory, Inc., shall select the appropriate asset weighting percentage to be allocated to each specific asset class. Each asset class shall consist of a combination of investment options that have been made available to obtain the absolute investment objective of the fund. Investments shall be diversified with the intent to minimize the risk of large investment losses. Consequently, the total portfolio will be constructed and maintained to provide prudent diversification with regard to the concentration of holdings in investment funds specializing in individual issues, issuers, countries, governments or industries.

Rate of Return: For the year ended December 31, 2020, the annual money-weighted rate of return on Plan investments, net of investment expense was 13.83 percent. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

Net Pension Liability

The components of the net pension liability of participating entities at December 31, 2020 were as follows:

	<u>Non-Uniformed</u>
Total pension liability	\$ 5,174,844
Plan fiduciary net position	<u>(4,856,355)</u>
Net Pension Liability	<u>\$ 318,489</u>

Plan fiduciary net position as a percentage of the total pension liability	93.8%
---	-------

Actuarial Assumptions: The total pension liability in the January 1, 2019 actuarial valuation was determined using the following economic assumptions, applied to all periods included in the measurement:

	<u>Non-Uniformed</u>	
Inflation	3.00%	
Salary Increases	4.25%	(average, including inflation)
Investment Rate of Return	7.25%	(including inflation)
Postretirement Cost of Living Increase	none	

DOYLESTOWN BOROUGH

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2020

IV. Other information (Continued)

D. Employee retirement systems and pension plans (continued)

Net Pension Liability (continued)

Mortality rates were based on the RP-2000 Table projected to 2017 using Scale AAA for Males or Females, as appropriate, termination rates were based on Scale W65, and disability rates were based on the DI378 Table for Males or Females, as appropriate.

The actuarial assumptions used in the January 1, 2019 valuation were based on the results of an actuarial experience study for the period January 1, 2017 to December 31, 2018.

The net pension liability was measured as of December 31, 2020 and the total pension liability was determined by rolling forward the liabilities from an actuarial valuation as of January 1, 2019. Changes in assumptions occurred between the valuation date and the fiscal year end as noted on page 65.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized as follows:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-term Expected Real Rate of Return</u>
Domestic Equity	43.0%	6.1% - 8%
International Equity	17.0%	7.20%
Fixed Income	37.0%	1.5%-3.8%
Real Estate	0.0%	7.20%
Cash	3.0%	0.80%

Discount Rate: The discount rate used to measure the total pension liability was 7.25 percent. The projection of cash flows used to determine the discount rate assumed that contributions from Plan members will be made at the current contribution rate and that contributions from employers will be made at contractually required rates, actuarially determined. Based on those assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments of active and inactive Plan members. Therefore, the long-term expected rate of return on Plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

E. Escrow cash deposits and investments

The Borough acts in a custodial capacity with respect to monies deposited with it by developers and others. These monies are held by the Borough and used to pay legal, engineering, and other fees incurred on behalf of a specific project. Any unused deposits are returned to the developer upon completion of the project, except for an administrative handling fee. None of the monies received from or expended on behalf of the developers are recorded in the revenues or expenses of the Borough. At December 31, 2020, \$372,832 represents the balance of these monies held in escrow.

Notes to Schedule:

Assumption changes: In 2019, the mortality assumption was changed from the RP-2000 Table to RP-2000 Projected to 2017 using Scale AAA
Change in benefit terms: In 2019, there was a Post Retirement Adjustment (Granted 2018 and 2019 COLAs to retirees)

This schedule is presented to illustrate the requirement to show information for 10 years. However, until a full 10-year trend is complete, available information is presented.

2019	125,506	132,341	(6,835)	1,893,884	6.99%
2020	128,926	128,926	-	1,962,327	6.57%

Notes to Schedule:

Actuarially determined contribution rates are calculated as of January 1, two years to four years prior to the end of the fiscal year in which contributions are reported.

Methods and assumptions used to determine contribution rates:

Valuation date	1/1/2019
Actuarial cost method	Entry Age Normal
Amortization method	Level Dollar Closed
Remaining amortization period	N/A
Asset valuation method	Market
Inflation	3%
Salary increases	4.25%, average, including inflation
Investment rate of return	7.25%, net of pension plan investment expense, including inflation
Retirement age	Normal Retirement Age
Mortality	RP2000 Table. This table does not include projected mortality improvements.

Assumption changes: In 2019, the mortality assumption was changed from the RP-2000 Table to RP-2000 Projected to 2017 using Scale AAA

Change in benefit terms: In 2019, there was a Post Retirement Adjustment (Granted 2018 and 2019 COLAs to retirees)

(1) - covered employee payroll taken from 1/1/2011 through 1/1/2013 actuarial valuations
