

BRIGHTTECH

Water & Agriculture Projects

Introduction

"Brightech" is a subsidiary company of "Bright Future".

Our company provides planning, coordination, implementation and construction of projects in various fields (Tern key projects).

The following are the main areas in which we are involved.

Areas of Expertise

- **Municipal water treatment**
- **Treatment and purification of water reservoirs and distribution.**
- **The establishment of hydroponic greenhouses**
- **The establishment of large chicken farms for eggs or meat.**

Specializing in Projects

Agriculture

- Hydroponic greenhouses for wide range of vegetables.
- large chicken farms for the eggs & meat industries

Hydroponic Greenhouses

We build a factory, High Tech, with automation, top standard do all the required certifications (CE, ISO).

Why do it, Because it is:

- **Certified Hydroponics**
- **Lower Risk of Pathogen Contamination**
- **No Herbicide, Pesticide or Chemical Residues**
- **Grow locally**
- **Environmentally Friendly**
- **Longer Shelf-Life**
- **Grow Year round**
- **Maximize Crop Yield, Uniform & Quality**
- **Minimizing Fertilizer & Water**
- **Reducing air pollution**

Planning matching customer requirements
