aIRSTAR

SPRIT OF FREEDOM

lunix

main features

- > Helium-inflated balloon
- > Indoor or outdoor use
- > Can also be air-inflated when suspended
- > Dimmable light (halogen) or RGB LED

why should you have the lunix ?

A very versatile product: in its applications (lighting, communicating, decorating) and in its target markets (reception, showrooms, festivals etc..). It can also be customized, particularly with vinyl graphics. Thus it is an ideal product for rental jobs.

Lunix RGB LED: an helium lighting ballon with RGB LED and DMX control.

6 unique shapes: thanks to their unique shapes, Lunix lighting balloons bring a clear added value of differentiation to any kind of event. They also enable a great brand awareness that puts logos in the spotlight.

markets

Social events
cocktails, parties,
diners

Fashion
fashion shows,
photoshoots

Festivals
concerts,
arts, culture

Sports
championships
tournaments, races

Hospitality
hotels, bars,
restaurants

Business
seminars,
trade fairs

Branding
showroom, street
marketing, product launch

main strengths

> Customization

Branding and signal thanks to printed covers, slip covers (coloured, hot air balloon, etc.), and vinyl graphics

> Efficiency

Strong but soft light, with a 360° diffusion

> Dimmable/DMX Control

Ability to choose the brightness or the color thanks to the control box

> Strength of the structure and materials

Wind resistance up to 40 km/h and Airstar know-how

> Quick set up

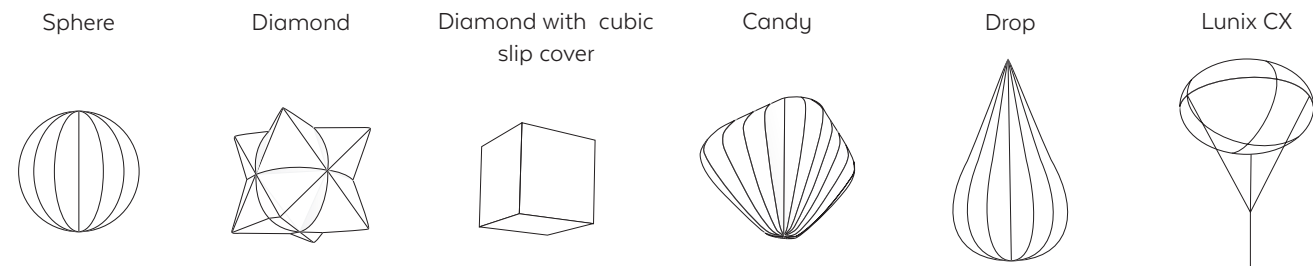

About 15 min
