HYBRID
2200K to 5600K

The **HYBRID** line of products from **Airstar** allows unique control of color temperature without taking away any light intensity.
Multiple combinations are now available to light your sets, fitting your needs thanks to the mix between different lighting sources (Tungsten, Daylight, Sodium and Mercury), from 2200K to 5600K.

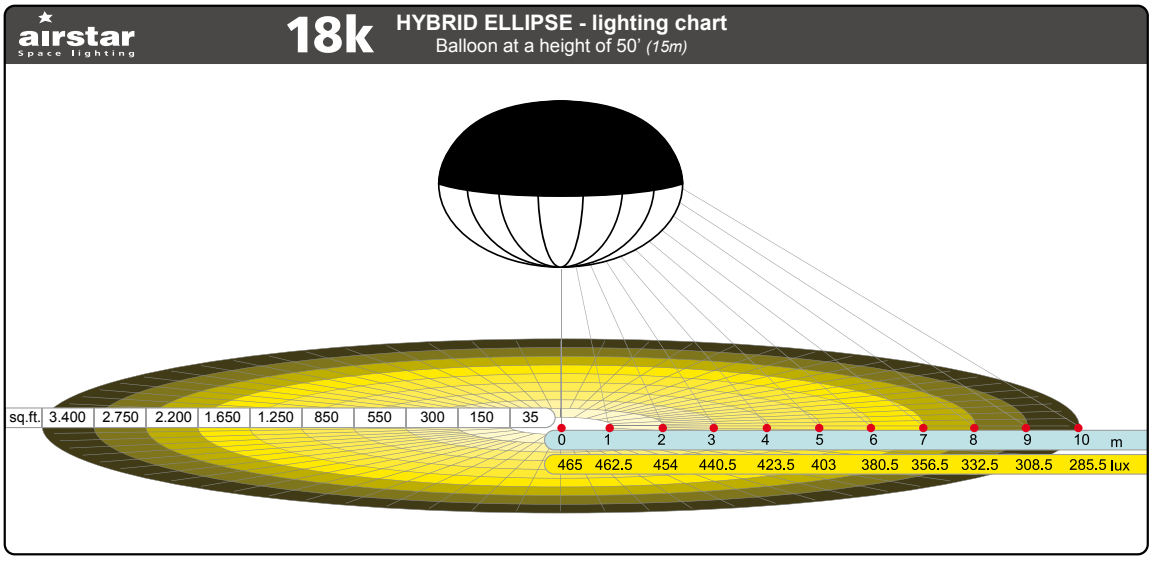

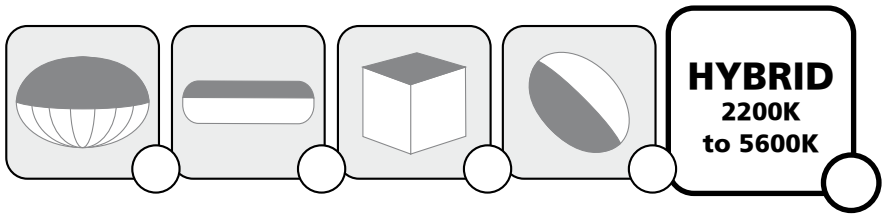

Available accessories:
- Reflectors
- Black skirts
- CTB & CTS filters (full, ½, ¼)

Example of lighting chart

AIRSTAR 09/11 - Printed on 100% recycled paper
