

DAYLIGHT
5600K

HMI lighting balloons reproduce **daylight**.

They can be used as a key light or as a fill light to produce a very natural effect.

They provide a color temperature of **5600K** and offer up to **1.440.000lm**.

The **Gaffair** product line is a perfect lighting solution for stage and location film production as well as photography, by combining lightweight design and overall manoeuvrability.

Available accessories:

- Reflectors
- Black skirts
- CTS filters
