

List of Protocols submitted by Post-graduate students : Batch 2022 : MS Ophthalmology

S. No	Name	Department	College	Title
1	Mukund Garg	Ophthalmology	LHMC	Combined bent ab interno needle goniotomy and phacoemulsification in open angle glaucoma
2	Anusmita Mitra	Ophthalmology	LHMC	Study of association between serum insulin like growth factors (IGF-1) Levels in the umbilical cord blood of infants born at ≤ 34 weeks and the subsequent Development of Retinopathy of Prematurity (ROP)
3	Sidrah Imran	Ophthalmology	LHMC	Comparison of Optical Coherence Tomography Angiograph (OCTA) Features in Nephropathic versus Non-Nephropathic Patients with Diabetes Mellitus
4	Prabhash Shekhar Mishra	Ophthalmology	LHMC	Optical coherence tomography and functional visual parameters between both eyes of adolescents with anisomyopia
5	Dr. Nikunj Garg	Ophthalmology	AH	Pterygium Extended Removal Followed By Minor Ipsilateral Simple Limbal Epithelial Transplantation Versus Conjunctival Autograft Fixation With Fibrin Glue After Pterygium Excision: A Randomized Clinical Trial
6	DR NAVJYOT KAUR	Ophthalmology	AH	To compare effect of Inj Ranibizumab 0.25 mg versus Inj Aflibercept 1 mg in Retinopathy of Prematurity
7	DR. ASHOK KUMAR AGRAWAL	Ophthalmology	AH	To Study The Effect Of Occlusion Therapy On Macular Vessel Density In Children With Amblyopia On Oct Angiography
8	Dr. Shubhendra Singh	Ophthalmology	AH	To Study And Compare The Surgical Outcomes Of External Dacryocystorhinostomy (Dcr) With Flap And Without Flap In Acquired Nasolacrimal Duct Obstruction
9	DR. AASHI JAIN	Ophthalmology	MAMC	Evaluation of combined levator resection and frontalis muscle advancement flap versus unilateral sling in severe congenital ptosis.
10	DR. ADITHYA R NATH	Ophthalmology	MAMC	Comparative evaluation of combined phacoemulsification surgery and low-dose intravitreal triamcinolone acetonide versus stand-alone surgery in patients of cataract with diabetic retinopathy.

11	DR. APARNA SOMAN	Ophthalmology	MAMC	Comparative evaluation of 10-0 Vicryl sutures versus 10-0 Nylon sutures in pediatric cataract surgery.
12	DR. APOORVA GOYAL	Ophthalmology	MAMC	Evaluation of optical coherence tomography angiography parameters following use of ranibizumab biosimilar in branch retinal vein occlusion.
13	DR. AYUSH ARYA	Ophthalmology	MAMC	Evaluation of intraocular pressure and optical coherence tomography angiography parameters in preeclampsia.
14	DR. CHITRA	Ophthalmology	MAMC	Evaluation of changes in angle configuration after pediatric cataract surgery measured by Anterior Segment Optical Coherence Tomography
15	DR. GAHAN REDDY A	Ophthalmology	MAMC	Comparison of efficacy of corneal collagen crosslinking using contact lens versus hypotonic riboflavin in pediatric keratoconus patients.
16	DR. KAMINI	Ophthalmology	MAMC	Assessment of Reliability of Anterior Segment Optical Coherence Tomography Measurement in Strabismus Resurgery.
17	DR. MIYANI HITENKUMAR PRAVINBHAI	Ophthalmology	MAMC	Evaluation of optical coherence tomography angiography parameters following use of anti vascular endothelial growth factor in non resolving central serous chorioretinopathy.
18	DR. NISHI	Ophthalmology	MAMC	Evaluation of change in superior sulcus deformity after implantation of porous polyethylene subperiosteal sheet.
19	DR. OBINAM MUANG	Ophthalmology	MAMC	Evaluation of changes in Mean choroidal thickness and Central macular thickness pre and post treatment with laser photocoagulation in patients of Eales' disease.
20	DR. PURVA VERMA	Ophthalmology	MAMC	Comparative evaluation of surgical outcomes in acute acquired comitant esotropia managed with and without pre-operative prism adaptation test.
21	DR. RASHMI	Ophthalmology	MAMC	Evaluation prevalence of refractive error in urban school children and barriers to refractive correction.
22	DR. TIPU SULTAN	Ophthalmology	MAMC	Surgical outcome of modified nishida's procedure in monocular elevation deficit.
23	DR. UTTAM DHAKA	Ophthalmology	MAMC	Evaluation of Pupillometry in patients with pseudoexfoliation and healthy individuals: A Comparative Study.

24	DR. VARDAYANI MEHTA	Ophthalmology	MAMC	Evaluation of foam sclerotherapy with sodium tetradecyl sulphate in periorbital dermoid cysts.
25	DR. VINAYAK S GADAD	Ophthalmology	MAMC	Efficacy of phacoemulsification combined with bent angle needle goniotomy in primary open angle glaucoma cases with visually significant cataract: A randomised control trial.
26	Dr. K Mavahrii James	Ophthalmology	UCMS	Comparative evaluation of conventional external dacryocystorhinstomy with and without Mitomycin-C- injection in chronic Dacryocystitis :A randomized controlled trial
27	Dr. Rajender Prasad	Ophthalmology	UCMS	Colour vision assessment in type II diabetic patients
28	Dr. Sanjeevani Joshi	Ophthalmology	UCMS	To study the effect of bimatoprost 0.03% and dorzolamide hydrochloride 2% on central corneal thickness in patients of primary open angle glaucoma
29	Dr. Amar Singh Jatab	Ophthalmology	UCMS	Association of the meibomian gland dysfunction with dyslipidemia in indian population
30	Dr. Miding Tamuk	Ophthalmology	UCMS	Comparative evaluation of prophylactic brimonidine and prophylactic dorzolamide in lowering intraocular pressure [IOP] spikes following nd yag laser capsulotomy as compared to the controls
