

**List of Protocols submitted by Post-graduate students : Batch 2022 : MD
Physiology**

S. No	Name	Department	College	Title
1	Avinav Sahoo	Physiology	LHMC	Effect of yoga practices on pulmnrny function test in parkinson's disease.
2	Radhika Pundir	Physiology	LHMC	Relation of Body Mass index with nerve Conduction parameters Across the carpal Tunnel
3	Raza Amir	Physiology	LHMC	Autonimic function and pulmonary function in systemic sclerosis
4	Swatiparashar	Physiology	LHMC	Assesment of pulmonary functions and NT-PRO BNP in patients with chronic kidney disease
5	H Pangshei	Physiology	LHMC	A study of relation of various physical fitness parameters and autonomic function status in healthy adults
6	DR. MOHD ASLAM	Physiology	MAMC	A cross-sectional study on thyroid dysfunction among adults in the urban population of Delhi.
7	DR. NEETHU MARY GEORGE	Physiology	MAMC	A study of thyroid function tests and inflammatory response markers in acute myocardial infarction patients.
8	DR. SUSHANT SHEKHAR KATIYAR	Physiology	MAMC	Comparison of cognition, personality and psychological health parameters between action and puzzle mobile-gamers.
9	DR. TANGIRALA SIVA SANKAR REDDY	Physiology	MAMC	The effect of brief heart rate variability biofeedback session on salivary cortisol, electrodermal activity and cardiovascular reactivity to mental stress.
10	DR. SHADAB NAIYER	Physiology	MAMC	Study of thyroid dysfunction and insulin resistance in chronic kidney disease.
11	DR. ABID AHMED C	Physiology	MAMC	A study of thyroid function tests and inflammatory markers in copd patients.
12	Dr. Kishor Kumar	Physiology	UCMS	Effect of heart rate variability biofeefback vs yogic intervention on autonomic function tests and serum lipid profile in hypertensive patients
13	Dr. Nripender	Physiology	UCMS	Effect of biofeedback training and yogic intervention on heart rate variability and clinical outcome in megraine patients
14	Dr. Ankit Swarup	Physiology	UCMS	Effect of heart rate variability biofeedback training on lung functions& respiratory health in chronic obstructive pulmonary disease patients:A pilot study

15	Dr. Shruti Tripathi	Physiology	UCMS	Assesment of cognition and molecular markers for neuropsychological functions in hypertention
16	Dr. Adarsh Chandra	Physiology	UCMS	Artificial intelligence in physiology: Developing a students effective based on medical students and teachers needs assessment
17	DR. Atul K M	Physiology	UCMS	Adaptation, Integration and implement of trans-aaffirmative competencies in physiology education: A pilot study
18	Dr. Anjali Sonkusley	Physiology	UCMS	Assessment of congntive functions in polycystic ovary syndrome and its correlation with bisphenol-A Levels
