

List of Protocols submitted by Post-graduate students : Batch 2022 : MS General Surgery

1	2			
S. No	Name	Department	College	Title
1	Asha B5:H11Ahirwar	General Surgery	LHMC	Prevalence of Metabolic syndrome in symptomatic gallstone disease
2	Maneesha Goyal	General Surgery	LHMC	Assessment of change in the quality of life before and after laparoscopic mesh repair of midline ventral hernias
3	Usha	General Surgery	LHMC	Effect of laparoscopic sleeve gastrectomy on neurocognitive function in patients with morbid obesity
4	Sarthak Verma	General Surgery	LHMC	Comparison of Tumor Size by clinical examination, Ultrasonography and MRI with the Pathological Tumor Size in Breast Cancer
5	Balakrishnan Sunitha Janakiram	General Surgery	LHMC	Clinical profile of patients who develop surgical site infection after emergency abdominal surgeries
6	Ahfaaz Mujawar	General Surgery	LHMC	Correlation of serum procalcitonin with the severity of acute biliary pancreatitis.
7	Rishav Pacharia	General Surgery	LHMC	Comparison of Chronic groin pain patients with or without mesh fixation with tacks undergoing total extra peritoneal hernia repair for unilateral inguinal hernia: a randomized control trial
8	Sukhith T R	General Surgery	LHMC	Comparison of post-operative pain between transabdominal pre peritoneal mesh repair and open Lichtenstein techniques for uncomplicated inguinal hernia repair : A randomized controlled study
9	Tejaswini Bhalla	General Surgery	LHMC	Study of serum adiponectin and leptin levels in pre and postmenopausal women with breast cancer
10	Rajat Saini	General Surgery	LHMC	A prospective observational study of demographic profile, underlying etiologies and early post-operative complications in the patients undergoing emergency abdominal surgery.
11	Rishu Ram Singh	General Surgery	LHMC	To study the prevalence of methicillin-resistant staphylococcus aureus in preoperative patients posted for elective general surgery
12	Skanda N V	General Surgery	LHMC	A comparative study of port site infection in laparoscopic cholecystectomy with and without use endobag for gallbladder extraction

13	Nagendra Venkata Ravi Teja	General Surgery	LHMC	Postoperative port site pain and surgical site infection after gall bladder retrieval from umbilical vs epigastric port in patients undergoing laparoscopic cholecystectomy – a randomized controlled trial
14	Shashank Mishra	General Surgery	LHMC	Effect of laparoscopic sleeve gastrectomy on insulin resistance in patients with morbid obesity
15	DR. ABHINAV SINGH	General Surgery	MAMC	Comparison Of Hughes And Interrupted X Versus Continuous Closure Technique In Rate Of Wound Dehiscence In Emergency Midline Laparotomy Closure- A Randomised Controlled Study
16	DR. AMAN AGRAWAL	General Surgery	MAMC	Evaluation of Achievement Of Critical View Of Safety In Laparoscopic Cholecystectomy-A Cross Sectional Observation Study.
17	DR. BANOTH MANIDEEP	General Surgery	MAMC	Comparison Of Levels Of Inflammatory Markers In Laparoscopic And Open Ventral Hernia Repair.
18	DR. DEEPAK KUMAR	General Surgery	MAMC	Comparison Of Post-Operative Recovery In Patients Undergoing Elective Gastrointestinal Surgeries With And Without ERAS Protocol -A Randomised Controlled Study.
19	DR. DIVYANSH RAGHUVANSHI	General Surgery	MAMC	Effect Of Topical Nitroglycerin Ointment On Healing Of Flap After Modified Radical Mastectomy- A Randomized Controlled Study.
20	DR. HARSHA	General Surgery	MAMC	Comparison Between Mini-Laparoscopic And Conventional Laparoscopic Cholecystectomy As A Day Care Procedure- A Randomized Controlled Study.
21	DR. LALROPUJA	General Surgery	MAMC	Comparison Of Fixation And Non-Fixation Of Mesh In Daycare Laparoscopic Totally Extra-Peritoneal Repair Of Indirect Inguinal Hernia: A Randomized Controlled Study.
22	DR. MANICKA AAKASH	General Surgery	MAMC	Comparison Of Voice Change Between Flapless And Conventional Total Thyroidectomy- A Randomised Controlled Study.
23	DR. MANISH SIDHARTH	General Surgery	MAMC	Clinical And Microbiologic Profile Of Diabetic Foot Patients: A Cross-Sectional Study.
24	DR. NITHYA K	General Surgery	MAMC	Evaluation Of Gasless Diagnostic Laparoscopy In Assessment Of Patients With Acute Abdomen.
25	DR. PALAK BHATNAGAR	General Surgery	MAMC	Evaluation Of Association Of International Prostate Symptom Score With Uroflowmetry, Endoscopy And Radiological Parameters.
26	DR. SHIKHA BAISOYA	General Surgery	MAMC	Comparison Of Bowel Function Recovery After Ileostomy Closure With Or Without Preoperative Bowel Stimulation - A Randomised Controlled Study.

27	DR. SHRAWAN KUMAR PRASAD	General Surgery	MAMC	Evaluation Of Occurrence Of GERD In Patients Undergoing Bariatric Surgery Using Multichannel Intraluminal Impedance pH(MII-pH) Monitoring.
28	DR. SHREYA JAIN	General Surgery	MAMC	Evaluation Of Clinical And Laboratory Parameters Affecting Post-Operative Mortality In Patients Undergoing Emergency Exploratory Laparotomy.
29	DR. SOURAV DHAR	General Surgery	MAMC	Comparison Of Laparoscopic Transabdominal Retromuscular (TARM) Repair With Extended View Totally Extraperitoneal - Rives Stoppa (eTEP-RS) Repair For Ventral Hernias- A Randomized Controlled Study.
30	Dr. Raja Kumaran R	General Surgery	UCMS	Acute pancreatitis- Classification of severity based on revised atlanta classification and assessment of its association with outcomes
31	Dr. Gajji Rajesh	General Surgery	UCMS	A Randomized controlled study to evaluate the effect of prophylactic retention sutures in preventing wound complication in emergency midline laparotomy
32	Dr. Ashish Kumar Singh	General Surgery	UCMS	A randomized controlled study on impact of survivorship care counselling session on clinical outcome in breast cancer patients
33	Dr. Saurav	General Surgery	UCMS	Necrotizing soft tissue infections: Presentation and outcomes
34	Dr. Himanshu Singh	General Surgery	UCMS	Acute Intestinal obstruction: clinical presentation, management and outcome
35	Dr. Shubham Kumar	General Surgery	UCMS	Efficacy of using "Microalbuminuria" as a biomarker to predict overactive bladder symptom deterioration
36	Dr. Jackson Jacob Ashwin	General Surgery	UCMS	A Comparative study of isabgaol versus lactulose on bowel habits in patients with hemorrhoids
37	Dr. Nitu Singh	General Surgery	UCMS	Efficacy and safety of using tamsulosin therapy in women with luts (non-neurogenic)
38	Dr. Munish Dwivedi	General Surgery	UCMS	An analytical study on clinical athological radiological & metabolomic profile of phyllodes tumor of breast
39	Dr. Mukul	General Surgery	UCMS	Efficacy of using 'voiding time' as a uroflow parameter for detecting urinary obstruction in men with 'Luts'(lower urinary tract symptoms) due to 'BPH'(Benign prostatic hyperplasia)
40	Dr. Shradha Tamang	General Surgery	UCMS	A prospective study on accuracy of methylene blue guided low axillary sampling in staging of axilla in breast cancer

41	Maj Prateek	General Surgery	AH	Comparative Study On Post Operative Shoulder Tip Pain Following Low Pressure Versus Standard Pressure Pneumoperitoneum In Laparoscopic Cholecystectomy: A Prospective Study
42	Maj Dr. Gurjot Singh	General Surgery	AH	A Comparative Study Of Two Different Techniques Of Laparoscopic Herniotomy In Pediatric Population
43	Maj. Arun Govind KV	General Surgery	AH	Assessment Of Glanular Width As A Predictor Of Outcome For Urethroplasty In Hypospadias
44	DR. S. Nithya	General Surgery	AH	Evaluation Of Outcomes Of Palliative Surgeries In Cancer Patients In A Tertiary Care Hospital
45	MAJ. Pankaj Singh	General Surgery	AH	Clinico-Radiological Correlation Between Pre-Operative Ct Scan Findings And Intra-Operative Findings In Acute Interstinal Obstruction-A Prospective Study
46	Dr. K. Yella sekhar	General Surgery	AH	A Comparative Study Of Outcomes Of Minimal Invasive Cardiac Surgery Vs Converntional Sternotomy In Patients Undergoing Open Heart Surgeries
47	Maj. Dr. Porandla Namrata Patel	General Surgery	AH	Role Of Dermoscopy In Chronic Venous Insufficiency And Histopathological Corelation
48	Dr. Garimella bharath	General Surgery	AH	To Assess The Efficacy Of Doxycycline In Chronic Venous Insufficiency
49	Maj. Kartik Bhatt	General Surgery	AH	Evaluation Of Outocmes Of Single Extended Cervical Incision For Neck Dissections In Oral Cancer Patients At Tertiary Care Army Hospital In India
50	Maj. Dev Dutt	General Surgery	AH	Comparative Study Between Tunica Vaginalis Flap And Dartos Fascia Cover For Re-Do Urethroplasty In Hypospadias
51	Dr. Mohit Gupta	General Surgery	AH	A Prospective Observational Study To Assess The Outcomes Of Usg Guided Stripping Of Great Saphenous Vein With Endovenous Ablative Techniques In Management Of Varicose Veins
