

Faculty of Medical Sciences, University of Delhi

List of Protocols submitted by Post-graduate students : Batch 2023 : MS General Surgery

S. No	Name	Department	College	Title
1	Dr. Basant Jindal	General Surgery	UCMS	Correlation between intravesical prostatic protrusion (IPP on TA USG) with clinical parameters of bladder outlet obstruction -a prospective observational study
2	Dr. Chinmay M Biradar	General Surgery	UCMS	A descriptive study on clinical, radiological & pathological profile of inflammatory conditions of breast
3	Dr. Diptarup Das	General Surgery	UCMS	Clinico-demographic profile and associated morbidity of catheter associated urinary tract infection in patients undergoing emergency surgery - an observational study
4	Dr. Isha Jain	General Surgery	UCMS	To evaluate the efficacy and safety of deflazacort + tamsulosin V/S tamsulosin for distal ureteric calculi
5	Dr. Ishu Sharma	General Surgery	UCMS	A descriptive study in menopause and fertility related outcomes in breast cancer survivors
6	Dr. Shivam Tiwari	General Surgery	UCMS	A descriptive study in prevalence, charactersitics and correlates of emotional distress in breast cancer survivors
7	Dr. Ananya Dilip	General Surgery	MAMC	Evaluation of change in quality of life in patients of gastroesophageal reflux disease undergoing laparoscopic anti-reflux surgery
8	Dr. Annadanapu Venkata Sita Ramarao	General Surgery	MAMC	Comparasion of subcutaneous onlay laparoscopic approach (Scola) Versus Extended view totally extraperitoneal rives stoppa (e-Tep Rs) Repair for primary midline ventral Hernia-A randomized controlled study
9	Dr. Chetna Kumari Meena	General Surgery	MAMC	Intraoperative parathyroid gland identification during indocyanine green (ICG) guided total thyroidectomy versus conventional total thyroidectomy : A Randomised controlled study
10	Dr. Deepak Singh	General Surgery	MAMC	Effect of laparoscopic cholecystectomy on gastric emptying time and dyspepsia score in patients with gall stone disease
11	Dr. Deepinder Kaur	General Surgery	MAMC	Evaluation of surgical site infection rates with or without metronidazole wound irrigation in appendicectomy for acute appendicitis -A randomised controlled study
12	Dr. Divyansh Goyal	General Surgery	MAMC	Evaluation of intracorporeal pneumatic lithotripsy in the management of ureteric stones

13	Dr.Durlabh Jyoti Gogoi	General Surgery	MAMC	Comparasion of Extrahepatic Biliary Anatomy during laparoscopic cholecystectomy using intracholecystic versus intravenous indocyanine green (ICG) : A Randomised controlled study
14	Dr. Kanishh Tayal	General Surgery	MAMC	Comparison of effect of powdered oxidised regenerated cellulose (ORC) on inflammatory markers and achieving hemostasis in laparoscopic cholecystectomy -a randomised controlled study
15	Dr.Kavyashree V	General Surgery	MAMC	Comparison of closure of midline exploratory laparotomy using polypropylene mesh strips vs polypropylene suture - A randomised controlled study
16	Dr. Kirubasini V	General Surgery	MAMC	Comparison of polyethylene glycol with lactulose for bowel preparation for completion colonoscopy -A Randomized controlled study
17	Dr. Matiz Hossain	General Surgery	MAMC	Feasibility of day care laparoscopic interval appendicectomy
18	Dr. Mukh Ram	General Surgery	MAMC	Effect of laparoscopic cholecystectomy on lipid profile in patients of symptomatic cholelithiasis with hypercholesterolemia
19	Dr. Nidhi Paswan	General Surgery	MAMC	Evaluation of breast flap viability after modified radical mastectomy using intraoperative fluorescence imaging with indocyanine green -pilot cohort study
20	Dr. Soukat Ali Khan	General Surgery	MAMC	Comparison of surgical stress response in standard pressure pneumoperitoneum versus isobaric pneumoperitoneum (Gasless) in patients undergoing laparoscopic cholecystectomy : A randomized controlled study
21	Dr. Ujala Pathak	General Surgery	MAMC	Study of medium-term and long-term outcomes six months to ten years after laparoscopic sleeve gastrectomy (LSG) and mini-gastric bypass (MGB) surgery
22	Maj Shailesh Ishwar	General Surgery	AH(R&R)	Incidence of Carcinoma Gall bladder in intraoperative Laparoscopic cholecystectomy in a low suspicion Gall bladder Carcinoma : A prospective study
23	Maj Nikhil M	General Surgery	AH(R&R)	Comparative study between class II, Class III Anti-Arrhythmic drugs & placebo in preventing post cabg atrial fibrillation
24	Maj Shyam Saran VV	General Surgery	AH(R&R)	" Study of post-operative complications using clavien dindo criteria in patients undergoing surgery for gastrointestinal malignacies"
25	Maj Thomas G Pappaly	General Surgery	AH(R&R)	Effect of endovenous thermal ablation vs cyanoacrylate Glue therapy in management of truncal varicose veins

26	Maj Dhanasri R	General Surgery	AH(R&R)	Study on pattern of presentation, , evaluation,management and outcomes of intestinal obstruction-prospective observational study
27	Maj Tarun Kumar Pareek	General Surgery	AH(R&R)	Postnatal Outcomes of Antenatally Detected Hydronephrosis in Paediatric Population
28	Maj Gudikandula Sridhar	General Surgery	AH(R&R)	" A Study on clinical features, Aetiology and management of cental venous stenosis"
29	Dr Anaswar Prasad SP	General Surgery	AH(R&R)	Predictive ability of pre operative peak systolic velocity, lumen diameter & volume flow rate in branchial artery, in the maturation of brachiocephalic AV Fistula
30	Dr Praveen Kumar Singh	General Surgery	AH(R&R)	To study the efficacy of tumor markers in the prognosis of carcinoma gall bladder
31	Dr Job Clemency Anpian	General Surgery	AH(R&R)	Analysis Of Bacteriological Profile In Burns Patients- A Prospective Observational Study
32	Amneet Kaur	General Surgery	LHMC	A randomised control trial to Compare the use of trocar Free K- Wire and nathanson retractor for operative view score in laparoscopic bariatric surgery.
33	Shubhrika Singhal	General Surgery	LHMC	A randomized control trial of Clinical outcomes in early versus delayed laparoscopic cholecystectomy in cases of Acute Calculous Cholecystitis.
34	Aayush Ranjan	General Surgery	LHMC	Evaluation of Non Acid Gastroesophageal reflux in morbidly obese patients undergoing one anastomosis gastric bypass using 24 Hour Multichannel Intraluminal Impedance pH Manometry.
35	Palash Keshari	General Surgery	LHMC	A randomized control trial study of early post-operative pain following elective laparoscopic mesh repair of midline ventral hernias by laparoscopic enhanced-view totally extra peritoneal (e-TEP) and laparoscopic trans- abdominal retro muscular (TA-RM) Approach.
36	Rahul Shah	General Surgery	LHMC	Estimation of per- operative serum c- reactive protein and serum bilirubin levels in patietns of acute appendicitus undergoing emergency appendectomy
37	Digvijay Singh	General Surgery	LHMC	A comparative study of quality of life following elective mesh repair of inguinal hernias by laparoscopic (Transabdominal Preperitoneal Repair) vs open (Lichtenstein) approach – A Randomized control trial.
38	Varun Singh Rautela	General Surgery	LHMC	Effect of Neoadjuvant Chemotherapy in Alteration on of PDL1 Expression In Breast Cancer.
39	Nicita Khattar	General Surgery	LHMC	Correlation of serum thrombopoietin (TPO) level with the severity of acute biliary pancreatitis.

40	Neeraj Kumar Kanwar	General Surgery	LHMC	Effect of Laparoscopic sleeve gastrectomy on level of Glucagon like peptide (GLP-1) in patients with morbid obesity.
41	Manav Bansal	General Surgery	LHMC	Comparison of surgical site infections between negative pressure wound therapy and standard dressing on closed midline incisions in class-III & Classs IV abdominal surgical wounds : A Randomized control trial.
42	Akhilesh Kumar	General Surgery	LHMC	Comparative Study On seroma formation after Laparoscopic Intraperitoneal Onlay Mesh (IPOM) Plus And Ventral Transabdominal Preperitoneal Mesh (vTAPP) Hernioplasty for Ventral Hernia Repair.
43	Vignesh K	General Surgery	LHMC	Randomized control trial comparing short term outcomes of hybrid approach versus total laparoscopic approach for abdominal incisional Hernia repair.
44	Prakhar Agrawal	General Surgery	LHMC	Evaluation of risk factors to predict difficult elective laparoscopic cholecystectomy.
45	Rakesh Kumar	General Surgery	LHMC	Effect of Neoadjuvant chemotherapy on Ki-67 index in locally advanced breast cancer- a prospective observation study.
