

Faculty of Medical Sciences, University of Delhi
List of Protocols submitted by Post-graduate students : Batch 2024 : MS General Surgery

S. No	Name	Department	College	Title
1	Maj (Dr) Pratyush Gautam	MS GENERAL SURGERY	AHRR	A Study On Predicting Burn-Related Mortality Using Serum Biomarkers
2	Maj (Dr) Kartik Gupta	MS GENERAL SURGERY	AHRR	The Effect Of Preoperative Oral Intake Of Liquid Carbohydrate On Postoperative Stress Parameters In Patients Undergoing Open Surgery For Intra Abdominal Malignancies
3	Maj (Dr) Shayak Chakraborty	MS GENERAL SURGERY	AHRR	Evaluation Of Skin Changes By Dermoscopy In Varicose Veins
4	Maj (Dr) Shivangi Sharma	MS GENERAL SURGERY	AHRR	The Utility Of Thermalytix Niramai As A Screening Tools Compared To Mammography For Early Detection Of Breast Cancer
5	Maj (Dr) Vikram Yadav	MS GENERAL SURGERY	AHRR	A Prospective Cohort Study To Compare The Outcomes Of Negagative Pressure Wound Therapy (Npwt) Versus Conventional Dressing On Split Thickness Skin Graft (Stsg)
6	Maj (Dr) Sumit Singh Yadav	MS GENERAL SURGERY	AHRR	A Randomised Control Study On Prehabilitation Prior To Major Cancer Surgeries
7	Maj Nikhil Kumar Soni	MS GENERAL SURGERY	AHRR	Prospective Study To Observe The Incidence Of Stricture Urethra In Patients Undergoing Bipolar Turp Of Prostate For Benign Prostatic Hyperplasia
8	Maj (Dr) Shihari Uday	MS GENERAL SURGERY	AHRR	Surgical Site Infection In Conventional Closure Vs Subcutaneous Wound Drainage After Laparotomy
9	Sqn Ldr (Dr) M Chiranjeevi	MS GENERAL SURGERY	AHRR	Outcomes Of Biliary Reconstruction After Liver Transplantation: An Observational Study On Post-Operative Complications
10	Maj (Dr) Mohit Sharma	MS GENERAL SURGERY	AHRR	Functional Status Of Pituitary Gland In Non-Functioning Adenoma Post Gamma Knife Surgery Patients
11	Maj (Dr) Ashutosh Verma	MS GENERAL SURGERY	AHRR	The Effect Of Surgery On Growth And Development Of Infants - Ambispective Descriptive Study
12	ABHISHEK BANGA	MS GENERAL SURGERY	MAMC	Comparison of Transinguinal Pre-peritoneal (TIPP) versus Lichtenstein repair for treatment of inguinal hernia - a randomized controlled study
13	AYUSHI SINGLA	MS GENERAL SURGERY	MAMC	Comparison of Tumescant versus Conventional Dissection in raising flaps during Modified Radical Mastectomy - A Randomized Controlled Study
14	GAURI H	MS GENERAL SURGERY	MAMC	Comparison of stone clearance with and without pre-procedure double j stenting inpatients undergoing extracorporeal shock wave lithotripsy for renal and upper ureteric calculi: a randomised controlled study.
15	SHAIKH MOEED AHMED	MS GENERAL SURGERY	MAMC	

16	RAKSHITA	MS GENERAL SURGERY	MAMC	Comparison of Trans Abdominal Pre-peritoneal (TAPP) and Enhanced view Totally Extraperitoneal Rives Stoppa (e-TEP RS) repair for Primary Umbilical and Para umbilical Hernia – a Randomized Controlled Study
17	PRADYUMAN SONI	MS GENERAL SURGERY	MAMC	Effect of low versus standard pressure pneumoperitoneum on post operative shoulder tip pain in patient undergoing laproscopic cholecystectomy-a randomized controlled study.
18	ANKIT KUMAR	MS GENERAL SURGERY	MAMC	Comparison of N-butyl cyanoacrylate glue and suture mesh fixation in laparoscopic enhanced view totally extraperitoneal inguinal hernia repair – A randomized controlled study.
19	ASHISH KUMAR	MS GENERAL SURGERY	MAMC	Comparison of Postoperative drain output with and without use of fibrin sealant in patients undergoing Total Thyroidectomy- A Randomized controlled study
20	SANJU SINGH	MS GENERAL SURGERY	MAMC	Comparison of mini lateral and conventional approach for hemithyroidectomy in solitary thyroid nodule- a randomised controlled study.
21	NANCY RUSTAGI	MS GENERAL SURGERY	MAMC	Comparison of postoperative inflammation with or without preoperative high dose dexamethasone after emergency laparotomy: A randomised controlled study
22	POOJA MEENA	MS GENERAL SURGERY	MAMC	Association of Dyspeptic Symptoms with Upper Gastrointestinal Endoscopic Findings in Patients with Cholelithiasis
23	ISHIKA KAUL	MS GENERAL SURGERY	MAMC	Comparison of Axillary Reverse Mapping (ARM) using Indocyanine Green fluorescence with conventional blue dye in patients of carcinoma breast undergoing standard Axillary Lymph Node Dissection (ALND) - A Randomized Controlled Study
24	VEDIKA JHA	MS GENERAL SURGERY	MAMC	Assessment of Change in Quality of Life in Quality of Life in Women Undergoing Mastectomy
25	RANJAN KUMAR L	MS GENERAL SURGERY	MAMC	Comparison of transabdominal preperitoneal (tapp) and intraperitoneal onlay mesh (ipom) repair for primary umbilical and paraumbilical hernia - a randomized controlled trial.
26	RAHUL KUMAR	MS GENERAL SURGERY	MAMC	Comparison of Surgical Site Infections with or without Subcutaneous Amikacin In Patients of Emergency Laparotomy- A Randomised Controlled Study
27	ZAIRA SUFYAN	MS GENERAL SURGERY	MAMC	Evaluation of inflammatory biomarkers in peritoneal fluid for predicting severity of acute abdomen using APACHE-II score
28	Dr Amit Kumar	MS GENERAL SURGERY	LHMC	Evaluation of Radiofrequency ablation for primary varicose veins with saphenofemoral junction incompetence.
29	Dr Angumjungla L Lomgkumer	MS GENERAL SURGERY	LHMC	Comparison of clinical examination, ultrasonography and magnetic resonance imaging in evaluating the response to neoadjuvant chemotherapy in breast cancer: A prospective study
30	Dr Anirudh Kumar Tanwar	MS GENERAL SURGERY	LHMC	Prospective evaluation of the role of indocyanine green fluorescence during laparoscopic cholecystectomy in symptomatic gall stone disease for biliary anatomical clarity and operative outcomes

31	Dr Deepti Deepshikha	MS GENERAL SURGERY	LHMC	Impact On Carotid Intima-Media Thickness After One Anastomosis Gastric Bypass In Patients With Morbid Obesity
32	Dr Himanshu Ghunawat	MS GENERAL SURGERY	LHMC	Prospective observational study to classify post-operative complication following small intestinal perforation using clavin dindo classification and identify associated risk factors
33	Dr Karan Karwani	MS GENERAL SURGERY	LHMC	Effect of one anastomosis gastric bypass on insulin resistance in patients with morbid obesity prospective observational
34	Dr Nikhil Jain	MS GENERAL SURGERY	LHMC	A prospective observational study comparing the timing (early vs delay) of laparoscopic cholecystectomy in mild acute biliary pancreatitis
35	Dr Rahul Kumar	MS GENERAL SURGERY	LHMC	Early Post-Operative Outcomes (Length Of Hospital Stay, Post-operative Pain And Surgical Site Infections) Following Mesh Repair Of midline Ventral Hernias By Endoscopically Assisted Mini or Less-open Sublay (MILOS) technique.
36	Dr Ravi Raj	MS GENERAL SURGERY	LHMC	Comparative Study Evaluating Indocyanine green- near infra-red fluorescence (NIF), Yellow enhancement (YE), and White light (WL) Imaging in Delineation of Extrahepatic Biliary Anatomy During Laparoscopic Cholecystectomy- A prospective self controlled cross
37	Dr Sasi M	MS GENERAL SURGERY	LHMC	Role of Irinec and siari scores in evaluation of soft tissue infection in surgical patients – a prospective observational study
38	Dr Shatakshi Dutt	MS GENERAL SURGERY	LHMC	Comparison Between Laparoscopic Guided Transversus Abdominis Plane Block And Port Site Infiltration For Post-Operative Analgesia In Laparoscopic Midline Ventral Hernia Repair - A Randomised Controlled Trial
39	Dr Shubham Choudhary	MS GENERAL SURGERY	LHMC	Anatomical variations of calots Triangle During Laparoscopic Cholecystectomy- An Observational Study
40	Dr Vaibhav Khullar	MS GENERAL SURGERY	LHMC	Comparison of tumescent transabdominal preperitoneal (Tumescent TAPP) and conventional transabdominal preperitoneal (TAPP) techniques for repair of inguinal hernia Randomized Controlled Trial to Compare Tumescent Transabdominal Preperitoneal
41	Dr. Yashas M	MS GENERAL SURGERY	LHMC	Comparative analysis of chronic postoperative inguinal pain between mesh fixation and non-fixation of 3-dimensional polypropylene mesh in patients undergoing laparoscopic transabdominal preperitoneal inguinal hernia repair for unilateral inguinal hernias: A randomized controlled study
42	ABIN S FERNANDEZ	GENERAL SURGERY	UCMS	A descriptive study on sensory changes around surgical site after modified radical mastectomy vs breast conservation surgery
43	KAYNAT HUSSAIN	GENERAL SURGERY	UCMS	Evaluation of Catheter Associated Meatal Pressure Injuries (CAMPI) with long term indwelling urinary catheter in hospitalised patients-A prospective observational study

44	NAVYA THAKUR	GENERAL SURGERY	UCMS	Efficacy and safety of ascorbic acid in prevention of catheter associated urinary tract infections in institutionalized patients undergoing elective general study
45	PRACHI YADAV	GENERAL SURGERY	UCMS	A prospective study on clinical presentation, treatment and outcomes in patients of Granulomatous mastitis
46	RAVI SHARMA	GENERAL SURGERY	UCMS	Prospective Comparative Randomized Control Study of the occurrence of UTI following Cystoscopy with and without Prophylactic Single Dose Oral Ciprofloxacin
47	SAKSHAM SADHYAN	GENERAL SURGERY	UCMS	A Descriptive Study To Assess The Self Care Behaviour of Patients In The Management Of Late and Long -Term Effect Of Breast Cancer Treatment
