1ER CONGRESO GRUPO ESPAÑOL DE **LINFOLOGÍA**

23-24 SEP

Comité Científico

Presidenta GEL
Isabel Forner Cordero

Vicepresidenta GEL
Marta López Martín

Secretaria GEL
Pilar Crespo Cobo

GEL
GRUPO ESPAÑOL DE LINFOLOGÍA

Comité Científico Local

Roser Belmonte Martínez
Pilar Crespo Cobo
Carolina de Miguel Benadiba
Marta Fernández González
Fernando Gómez Muñoz
Marta López Martín
Helena Martínez Ramos
José Muñoz Langa
Blanca Pardo Sievers
Cristina Puigdellívol Serafí
Vicenta Pujol Blaya
Lourdes Reina Gutiérrez
Reme Ruiz Miñarro

Miércoles 23 SEP

13:30-14:00 **Acreditación**

[PENDIENTE SALAS]

14:00-16:00 **TALLER 1: DRENAJE LINFÁTICO**

16:00-17:15 **TALLER 2: VENDAJE**

16:00-19:00 **Comunicaciones orales**

17:15-18:00 **Symposio Jover: evaluación del linfedema mediante la tecnología**

18:00-19:30 **TALLER 3: PRENDAS**

Jueves 24 SEP

08:00-08:30 **Acreditación**

[SALÓN DE ACTOS]

08:30-09:00 **Apertura del Congreso**

09:00-10:30 **SESIÓN 1: LINFEDEMA**

Flebolinfedema: un problema común frecuentemente infradiagnosticado e infratratado en las unidades de úlceras. Lourdes Reina

Evaluación instrumental I: linfogammagrafía- linfoSPECT. Cristina Ruiz

Evaluación instrumental II: linfo RMN. Alberto Alonso Burgos

Discusión

10:30-11:00 **Pausa café** (zona expocición)

11:00-13:00 **SESIÓN 2: LIPEDEMA**

Perspectivas de investigación en lipedema: estado actual y líneas futuras. Isabel Forner

Lipedema de brazos: claves diagnósticas y estrategias terapeúticas. Alexo Carballeira

Intestino hiperpermeable en lipedema. José Luis Simarro

Nutrición y lipedema: criterios clave para la práctica clínica. Eraci Drehmer

Discusión

13:00-14:00 **Asamblea GEL**

14:00-15:00 **Comida** (zona expocición)

15:00-17:05 **SESIÓN 3: TRATAMIENTO LINFEDEMA**

Agentes físicos en el abordaje de los trastornos linfáticos. Raquel Reinaldos

Terapia celular en el tratamiento linfedema. Cristina Puigdellivol

Cirugías derivativas y de resección en el linfedema.
África Duque y Andrés Reyes

Optimización del resultado quirúrgico mediante el abordaje rehabilitador.
Pilar Crespo

Mitos en medidas de prevención de linfedema. Marta López

Ejercicio como prevención y manejo del linfedema. Roser Belmonte

Discusión

17:05-19:00 **TALLER 4: LINFOFLUOROSCOPIA ICG.** Jean-Paul Belgrado

19:30-20:00 **Clausura del Congreso y entrega de premios.** Isabel Forner

[SALA H004]

09:00-10:30 **TALLER 5: DEEP OSCILLATION EN EL LINFEDEMA Y SECUELAS ONCOLÓGICAS.** Felipe Medina y Raquel Reinaldos

10:30-11:00 **Pausa café** (zona expocición)

11:00-13:00 **TALLER 6: DIAGNÓSTICO EN LINFEDEMA. APLICACIÓN DE HERRAMIENTAS DIGITALES EN LA CONSULTA DE LINFEDEMA.**
Vicenta Pujol y Ana Luzardo

14:00-15:00 **Comida** (zona expocición)

15:00-16:30 **TALLER 7 (pendiente)**

16:30-18:00 **TALLER 8: AUTOGESTIÓN DE LINFEDEMA. DEL MODELO BIOMÉDICO AL PACIENTE PROTAGONISTA.** Helena Martínez y Marta Fernández

[PENDIENTE SALA]

19:30 **Reunión del Executive Committee de ESL**

Scientific Committee

ESL President
Francesco Boccardo

ESL Vice-presidents
Etelka Földi
Martin Wald

President Scientific Committee
Pierre Bourgeois

Vice-president Scientific Committee
Evangelos Dimakakos

President of the Congress
Isabel Forner Cordero

Editor in Chief of the EJLRP
Sandro Michelini

Local Scientific Committee

Roser Belmonte Martínez
Pilar Crespo Cobo
Carolina de Miguel Benadiba
Marta Fernández González
Fernando Gómez Muñoz
Marta López Martín
Helena Martínez Ramos
José Muñoz Langa
Blanca Pardo Sievers
Cristina Puigdellívol Serafí
Vicenta Pujol Blaya
Lourdes Reina Gutiérrez
Reme Ruiz Miñarro

European Society of Lymphology

Friday 25th SEP

08:00-08:30 **Registration**

[SALÓN DE ACTOS - Assambly Hall]

08:30-08:40 **Welcome to the Congress**

08:40-11:00 **SESSION 1: CLINICAL FEATURES**

Breast edema after conservative surgery for early-stage breast cancer: a single-center assessment of risk factors. Sara Dessalvi

The benefits of combining manual lymphatic drainage with bandaging techniques in the treatment of lymphedema. Olivier Leduc

Implementation of prospective surveillance model for early intervention strategies in breast cancer related arm lymphedema. Karin Johansson

Primary lymphedema and associated syndromes. Miguel Amore

Primary lymphedema and associated syndromes. Amer Hamade

Adaptive velcro compression devices in lymphedema: an evolving strategy in patient-centered approach to compression therapy. Pinar Borman

Head and neck lymphedema management. Franz Schingale

Discussion

11:00-11:30 **Coffee break** (exhibition area)

11:30-14:00 **SESSION 2: DIAGNOSIS**

Non-invasive diagnostic of lymphedema. Alberto Macciò

Technical diagnosis of lymphedema. Erika Mendoza

The standardization of lymphoscintigraphic imagings, their analysis, and reporting. Pierre Bourgeois

Assessment of lymphedema using tissue dielectric constant (TDC) technology. Mia Niinimäki

MR Lymphography: new data for its useful for the diagnosis and differencial diagnosis of lymphedema. Evangelos Dimakakos

The PeriKit: standardizing the measuring and the monitoring of the lymphedema after 10 years of research and development. Joe Harfouche

Discussion

14:00-15:00 **Lunch** (exhibition area)

15:00-17:45 **SESSION 3: LIPEDEMA**

Alteration of subcutaneous adipose tissue function in lipedema. Philipp Kruppa

Lymphedema and lipedema: different diagnostic and therapeutical approach. Sandro Michelini

Contribution of power doppler to three dimensional tissue ultrasound diagnostics. Marina Cestari

Dietary management in patients with lipedema. Gabriele Faerber

Beyond emotional eating: the neuroinflammatory root of hedonic hunger in lipedema. José Luis Simarro

Surgical treatment of lipedema. Manuel Cornely

An update on lipedema research: current evidence and future challenges. Isabel Forner Cordero

Discussion

18:00-20:00 **SESSION 4: NEW THERAPIES**

Embolotherapy in lymphatic pathology. Fernando Gómez

Anastomosis LV in alzheimer. Carmen Higueras

Research horizons in lymphedema: current focus and future directions. Sarah Thomis

Discussion

[ROOM H004]

08:30-11:00 **WORKSHOP 1: BIOBRIDGE**

11:00-11:30 **Coffee break** (exhibition area)

11:30-14:00 **WORKSHOP 2 (THUASNE)**
Optimizing lymphedema care: clinical and medico-economic evidence of home-based compression strategies. Pinar Borman

14:00-15:00 **Lunch** (exhibition area)

15:00-15:45 **Oral communications**

15:45-17:45 **WORKSHOP 3 (JUZO)**
How to improve effectiveness of the therapy and have sustainable results in lymphatic diseases. Pyszniak Slawomi

18:00-20:00 **WORKSHOP 4 (MEDI)**

Saturday 26th SEP

[SALÓN DE ACTOS - Assambly Hall]

08:00-09:00 **ORAL COMMUNICATIONS**

09:00-11:00 **SESSION 5**

Summary of 44 years experience of unit of treatment of edema: necessary or not? Real justification. Alexandre Pissa

Lymphedema of male genitals, a 360 degrees approach. Giovanni Monetta

Surgical treatment of genital lymphedema. Martin Wald

Consensus International Society of Lymphology (to be defined). ISL

Discussion

11:00-11:30 **Coffee break** (exhibition area)

11:30-12:30 **General Assambly of ESL**

12:30-14:30 **SESSION 6: SURGERY**

Pathophysiological bases of the surgical treatment of lymphatic diseases. Francesco Boccardo

Effects of CDT in patients with LVA/LNT. Nele Adrianssen

Twenty-five-year outcomes of reconstructive liposuction for large, chronic lymphedema: evidence of complete reduction. Hakan Brorson

Microsurgery procedures in lymphedema. Gurusami Manokaran

More than 50 years of lymphatic surgery. Corradino Campisi

Discussion

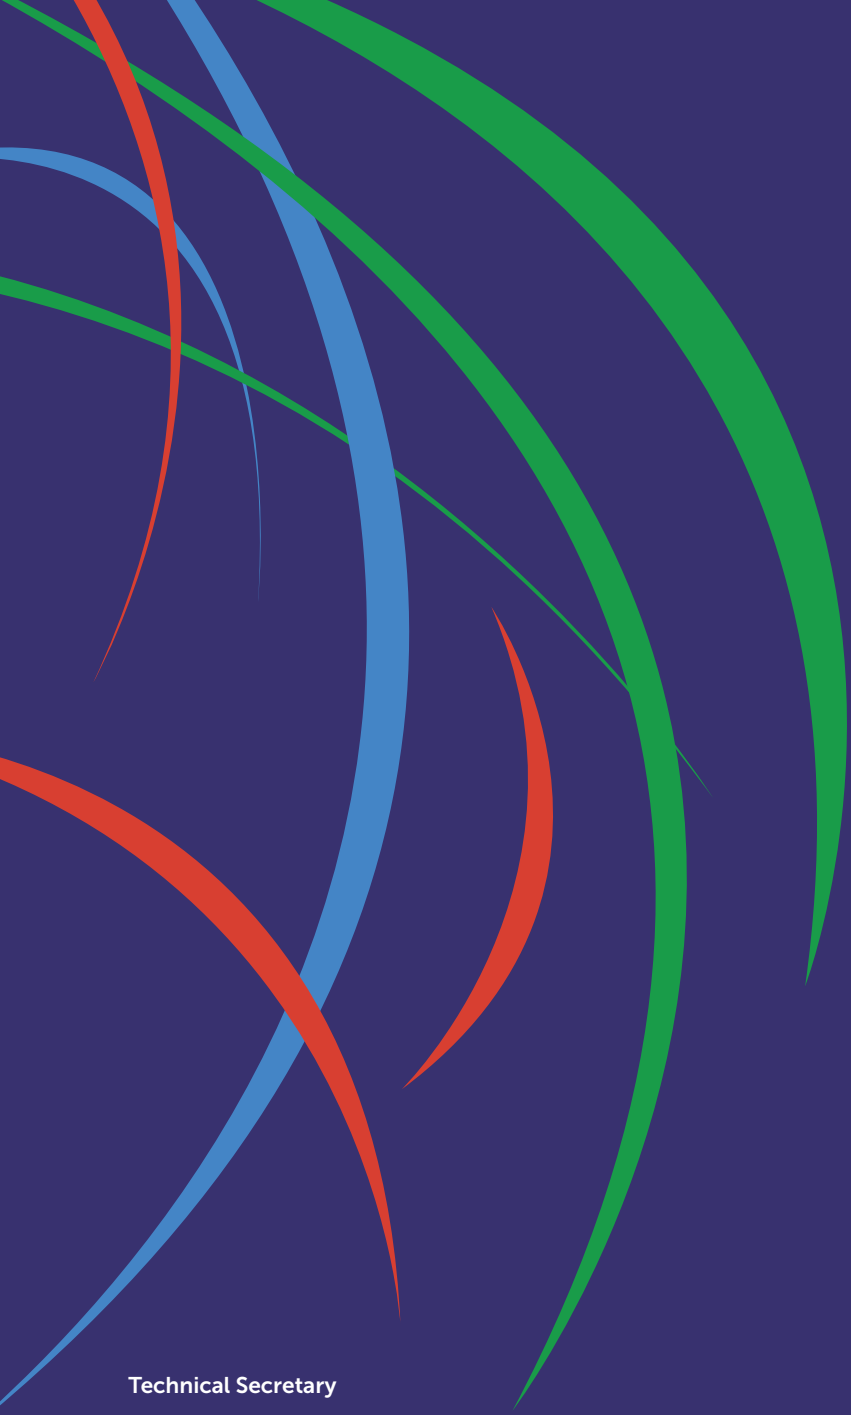

14:30-15:00 **End of the Congress**

[ROOM H004]

09:00-11:00 **WORKSHOP 5**
Optimising the design and manufacture of multi-component bandages using the latest materials and measurement systems.
Jean-Paul Belgrado

11:00-11:30 **Coffee break** (exhibition area)

11:30-14:00 **WORKSHOP 6**
