

## 2022 GLOBAL LEAP OFF-GRID COLD CHAIN CHALLENGE TERMS AND CONDITIONS

### Background

The Global LEAP Off-Grid Cold Chain Challenge (“the Challenge”) is a global competition to identify the most energy-efficient, sustainable, and affordable technologies that can meet the diverse cold storage requirements for fresh fruits and vegetables, dairy products, meat, and fish produced by smallholders and affiliated value chain players in off- and weak-grid areas.

The Challenge is structured in two stages. The first stage requires participants to submit technical information about their cold storage solutions as well as information about their business model, target markets, and other aspects of their commercial strategy. The second stage requires participants to undergo field evaluation (of at least 6 months) in either Kenya, Tanzania, Uganda, Rwanda, Nigeria, or India. This document provides about eligibility requirements, nomination procedures, the evaluation process, and benefits to participants.

The Challenge is implemented through the [Efficiency for Access Coalition](#) with the support of DOEN Foundation, IKEA Foundation, Foreign & Commonwealth Department Office and Good Energies Foundation. Efficiency for Access is a global coalition working to promote high performing appliances that enable access to clean energy for the world’s poorest people. It is a catalyst for change, accelerating the growth of off-grid appliance markets to boost incomes, reduce carbon emissions, improve quality of life and support sustainable development.

Companies that participate in the Challenge are subject to these Terms and Conditions (“Terms and Conditions”). CLASP is the Administrator of the Challenge (“the Administrator”). Violations of, or a failure to abide by, these Terms and Conditions may disqualify a participant from the Competition at the sole discretion of the Administrator.

The Administrator reserves the right to adjust, strike, make reasonable changes to or redefine any of the Challenge's terms and conditions at any time.

### **3. Fees**

Nomination is free.

### **4. Pre-Screening & Notification**

The Administrator will pre-screen nominations and select "Preliminary Finalists" for each Category. This review will be based upon data as provided in the Nomination Form.

The Administrator will notify Nominators of pre-screening decisions by email on or before 30 September 2021. Products that pass the pre-screening process will be deemed Preliminary Finalists.

### **5. Field Evaluation & Product Deployment**

Preliminary Finalist Products will undergo field-based evaluation to assess the Product's design, performance, and end-user impact in a real-world setting. Product technical performance will be assessed via remote monitoring devices to assess criteria such as energy consumption and temperature maintenance. Product impacts and user experience will be assessed qualitatively through surveys and interviews.

Field evaluation will take place in six countries: Kenya, Uganda, Tanzania, Rwanda, Nigeria and India.

Field evaluation and site visits will be coordinated by the Administrator. Field evaluation will be conducted according to the Global LEAP Off-Grid Cold Chain Challenge Field Evaluation Protocol and may be subject to additional terms and conditions.

Nominators are responsible for all aspects of Product deployment for field evaluation, and Products must be deployed in one of the six eligible countries. Upon notification of Preliminary Finalist status, Nominators are encouraged to begin preparations for Product deployment.

The Administrator may request proof of ability to deploy by the target date. Details of the intended or actual Product location MUST be provided.

The Administrator has a limited amount of funds available to offset costs associated with this deployment, and will allocate these funds based on a needs assessment. Nominators may request consideration for these funds in their Nomination Forms.

All companies are encouraged to have completed their Product deployment by no later than 30<sup>th</sup> November 2021.

## 6. Assessment Process & Winner Selection

### Nominations

A panel of Expert Judges<sup>i</sup> will evaluate data provided in the Nomination Forms to select up to 15 Preliminary Finalists based on the following parameters. The panel of Expert Judges will include technical, development, and industry and market experts, and may include representatives from the donor agencies supporting the Challenge.

Each of the nominations is eligible to be awarded up to 100 points based on the following:

- a. **Financial Viability – 30 Points** will be awarded based on an assessment of the viability of the Product's financial model, including elements such as upfront and operating costs, as well as any innovations intended to increase the Product's affordability for target end users.
- b. **Commercial Strategy & Intended Beneficiaries – 30 Points** will be awarded based on an overall assessment of the Nominator's go-to-market and growth strategies, as well as the nature and scale of the Product's intended market and the agricultural value chains it will support.
- c. **Deployment Plan & Organizational Capacity – 20 Points** will be awarded based on the extent to which Nominators demonstrate their ability to successfully deploy a Product for the field evaluation process.
- d. **Sustainability – 20 Points** will be awarded based on demonstration of consideration taken to ensure a Product's design and deployment is sustainable in terms of local environmental and climate change considerations (particularly use of climate-friendly refrigerants) and the end-of-life considerations especially repairability, recyclability, and handling of waste.

The Administrator will notify successful Preliminary Finalists by email on or before 30 September 2021.

### Field Evaluation

Points will be awarded based on a combination of 1) a formulaic assessment of quantitative data collected during the field evaluation and 2) qualitative assessment by the Expert Judges.

The formulaic assessment and Expert Judge assessment will utilize data collected via the remote monitoring systems on technical performance factors relevant to walk-in cold storage users, such as energy performance and temperature maintenance, as well as data generated by the end user surveys regarding financial impacts and ease of use, among others. The total score will be determined for each Product relative to other Products in the same Category.

All methodologies used to award points shall be applied uniformly with respect to all Finalist Products.

The Product in each Category that earns the most points will be declared the “Winner” of its category. In the event of a tie, a category will have multiple Winners with each of the Products that earned the highest amount of points will be declared a Winner. All Preliminary Finalists other than the category Winners shall be referred to as “Finalists”. The Administrator reserves the right to exclude from all Competition promotions any Preliminary Finalist Product that fails or performs poorly in the field evaluation and/or Expert Assessment.

In addition, the Administrator will award two Innovation Cash Prizes -- a grand prize of \$75,000 and a runner up prize of \$25,000 -- to Products that demonstrate market-leading performance, affordability, and high user impact based on results of the field evaluation.

All decisions rendered by the Global LEAP OGCCC Expert Judges or Administrator are final.

Should the Administrator discover that reliable comparisons of products across the Challenge’s Categories is not possible, the Administrator reserves the right to strike or redefine those Categories or create new Categories. In such event, the Administrator will give notice to all Nominators, and Nominators will have ten (10) calendar days from the date of such notice to request a recategorization of its nomination.

Field evaluation results will be delivered to the Preliminary Finalists after the announcement of Challenge results. Field evaluation results may be used by the Administrator for market intelligence reporting. The Nominator will remain the owner of all intellectual property related to the Product, its technology, and/or its design, as applicable, with the exception of the following: (1) declared performance data and product technical specifications submitted with a Product’s nomination and (2) test results generated through field evaluation.

### **Benefits to Winners and Finalists**

Nominators of Winners and Finalists will receive the right to use a Global LEAP Awards logo and phrase (the “Global LEAP Awards IP”) in marketing materials for the Product in accordance with these Terms and Conditions.

All Challenge Winners and Finalists will be eligible for the following:

1. Inclusion in the first-ever Global LEAP Awards Off-Grid Cold Chain Buyer’s Guide
2. Inclusion in a Global LEAP-sponsored communications to promote Winners and Finalists in the Challenge and raise consumer awareness about high-quality and energy-efficient off-grid cold storage.
