What do we collect?
Electronic and electrical items can be hazardous to the environment and dangerous to soil, animals and people.

**Environmental impact**

- Air pollution when burnt
- Explosions and leakage of hazardous materials
- Toxicity to soil, animals and humans
- Waste management problem (not biodegradable)
- Blockage of water runoff channels

**Economic impact**

- Negative effects on soil, air and people create significant public and private spending on healthcare and and other sectors that are dependent on the environment (farming etc.)
- Investment in complex and expensive remediation measures
- Loss of resources that can be reused and recycled
- Opportunities for job creation and development of the recycling industry
Protect the environment!

Bring your e-devices to our

**WeTu Collection Centers**

WeCollect in Mbita, Sindo, Sori, Ragwe, Honge, Kisumu and Homabay

Each kilogram that you hand in will earn you 3 **WeCollect** points, which you can use to redeem a gift at our **WeTu Hubs**.
