

Temporary Inaccessibility of HOA Website Financial Section

Important Notice: Scheduled Security Upgrades and Accounting System Audit

Please be advised that the Financial section of the HOA website, located in the Document section, will not be accessible for the next two weeks. This temporary unavailability is necessary to implement enhanced security upgrades as part of our transition to Windows 11.

During this period, Academic Accounting will also be conducting a complete audit to reconcile the website's accounting system with our QuickBooks accounting system. These efforts are aimed at ensuring your financial data remains secure and our records are accurate and up-to-date.

We appreciate your patience and understanding as we work to improve the safety and reliability of our digital resources. If you have any questions or need assistance with financial documents during this time, please contact the HOA office directly.

Thank you for your understanding and cooperation.
