Ethics & Jurisprudence for the Wisconsin Physical Therapist

rehab techs.

- One of your patients frequents a chiropractor for a condition unrelated to the carpal tunnel syndrome you are treating. This clinic utilizes a modality that you are not familiar with. How should you address this with your patient?
 - Rather than expressing your doubts regarding this modality; honor the patient's autonomy (principle 2C) and right to make treatment decisions on their own behalf and respect the chiropractor's treatment as valid and complementary.
