A quarterly accounting of any transactions made on behalf of the resident shall be furnished to the resident or the person responsible for the resident. The facility may not require a resident to deposit personal funds with the facility. However, upon written authorization of a resident, the facility must hold, safeguard, manage, and account for the personal funds of the resident deposited with the facility as follows:

1. The facility must establish and maintain a system that ensures a full, complete, and separate accounting, according to generally accepted accounting principles, of each resident's personal funds entrusted to the facility on the resident's behalf.

2. The accounting system established and maintained by the facility must preclude any commingling of resident funds with facility funds or with the funds of any person other than another resident.

3. A quarterly accounting of any transaction made on behalf of the resident shall be furnished to the resident or the person responsible for the resident.

4. Upon the death of a resident with personal funds deposited with the facility, the facility must convey within 30 days the resident's funds, including interest, and a final accounting of those funds, to the individual or probate jurisdiction administering the resident's estate, or, if a personal representative has not been appointed within 30 days, to the resident's spouse or adult next of kin named in the beneficiary designation form provided for in s. 400.162(6).

When the resident refuses medication or treatment, the nursing home facility must notify the resident or the resident's legal representative of the consequences of such decision and must document the resident's decision in his or her medical record. The nursing home facility must continue to provide other services the resident agrees to in accordance with the resident's care plan.

(l) The right to receive adequate and appropriate health care and protective and support services, including social services; mental health services, if available; planned recreational activities; and therapeutic and rehabilitative services consistent with the resident care plan, with established and recognized practice standards within the community, and with rules as adopted by the agency.

In case of an emergency, restraint may be applied only by a qualified licensed nurse who shall set forth in writing the circumstances requiring the use of restraint, and, in the case of use of a chemical restraint, a physician shall be consulted immediately thereafter. Restraints may not be used in lieu of staff supervision or merely for staff convenience, for punishment, or for reasons other than resident protection or safety.

(p) The right to be transferred or discharged only for medical reasons or for the welfare of other residents, and the right to be given reasonable advance notice of no less than 30 days of any involuntary transfer or discharge, except in the case of an emergency as determined by a licensed professional on the staff of the nursing home, or in the case of conflicting rules and regulations which govern Title XVIII or Title XIX of the Social Security Act. For nonpayment of a bill for care received, the resident shall be given 30 days' advance notice. A licensee certified to provide services under Title XIX of the Social Security Act may not transfer or discharge a resident solely because the source of payment for care changes. Admission to a nursing home facility operated by a licensee certified to provide services under Title XIX of the Social Security Act may not be conditioned upon a waiver of such right, and any document or provision in a document which purports to waive or preclude such right is void and unenforceable. Any licensee certified to provide services under Title XIX of the Social Security Act that obtains or attempts to obtain such a waiver from a resident or potential resident shall be construed to have violated the resident's rights as established herein and is subject to disciplinary action as provided in subsection (3). The resident and the family or representative of the resident shall be consulted in choosing another facility.

If a resident chooses to use a community pharmacy and the facility in which the resident resides does not use a unit-dose system, the pharmacy selected by the resident shall be one that provides service delivery and stocks the drugs normally used by long-term care residents.

(r) The right to retain and use personal clothing and possessions as space permits, unless to do so would infringe upon the rights of other residents or unless medically contraindicated as documented in the resident's medical record by a physician. If clothing is provided to the resident by the licensee, it shall be of reasonable fit.

(s) The right to have copies of the rules and regulations of the facility and an explanation of the responsibility of the resident to obey all reasonable rules and regulations of the facility and to respect the personal rights and private property of the other residents.

(t) The right to receive notice before the room of the resident in the facility is changed.

(u) The right to be informed of the bed reservation policy for a hospitalization. The nursing home shall inform a private-pay resident and his or her responsible party that his or her bed will be reserved for any single hospitalization for a period up to 30 days provided the nursing home receives reimbursement. Any resident who is a recipient of assistance under Title XIX of the Social Security Act, or the resident's designee or legal representative, shall be informed by the licensee that his or her bed will be reserved for any single hospitalization for the length of time for which Title XIX reimbursement is available, up to 15 days; but that the bed will not be reserved if it is medically determined by the agency that the resident will not need it or will not be able to return to the nursing

home, or if the agency determines that the nursing home's occupancy rate ensures the availability of a bed for the resident. Notice shall be provided within 24 hours of the hospitalization.

The licensee shall provide a copy of the resident's rights to each staff member of the facility. Each such licensee shall prepare a written plan and provide appropriate staff training to implement the provisions of this section. The written statement of rights must include a statement that a resident may file a complaint with the agency or state or local ombudsman council. The statement must be in boldfaced type and include the telephone number and e-mail address of the State Long-Term Care Ombudsman Program and the telephone numbers of the local ombudsman council and the Elder Abuse Hotline operated by the Department of Children and Families.

(3) Any violation of the resident's rights set forth in this section constitutes grounds for action by the agency under s. [400.102](#), s. [400.121](#), or part II of chapter 408. In order to determine whether the licensee is adequately protecting residents' rights, the licensure inspection of the facility must include private informal conversations with a sample of residents to discuss residents' experiences within the facility with respect to rights specified in this section and general compliance with standards and consultation with the State Long-Term Care Ombudsman Program.

(4) Any person who submits or reports a complaint concerning a suspected violation of the resident's rights or concerning services or conditions in a facility or who testifies in any administrative or judicial proceeding arising from such complaint shall have immunity from any criminal or civil liability therefor, unless that person has acted in bad faith, with malicious purpose, or if the court finds that there was a complete absence of a justiciable issue of either law or fact raised by the losing party.
