

PRODUCT DATA SHEET | SKU CODE: DC-1040

Microporous Disposable Coveralls with Tape Seam

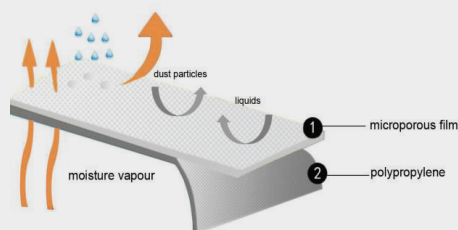

Applications:

- Paint Spraying
- Viral Contaminated Areas
- Pharmaceutical Industries
- Veterinary Services
- General Industry Maintenance
- Agriculture
- Virus, Bacteria Protection
- Hospital and Medical

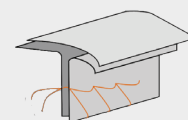

This coverall is made by two layers fabric which is guaranteed to offer protection and comfort for user dealing with hazardous contamination from bacteria, virus, particles, chemical tight spray and blood borne pathogens. Silicone free for critical in paint spraying applications; low linting to reduce the risk of fibre contamination; the optimised body fit to improve wearer comfort and safety.

Fabric and Seam

Breathable 2 layer fabric with high water vapour transmission from inside to outside. It is guaranteed to provide an effective barrier against both liquid and particle.

Tightly stitched and heat tape seam provides a strong liquid and particle barrier

Protection Levels

Production under ISO:9001:2015

CE category III PPE Regulation(EU) 2016/425

TYPE 4 EN14605: Protection against tight spray of liquid chemicals

TYPE 5 EN ISO 13982-1: Protection against solid particulates

TYPE 6 EN13034: Protection against limited liquid chemicals

EN1149-5 Anti-static/Electrostatic

EN14126: Protection against infective agents

EN1073-2: class 1 Protection against radioactive contamination

EN 14605:2005
A1:2009

EN ISO 13982-1
2004 A1:2010

WHAT MAKES A GOOD PROTECTIVE COVERALL

High quality microporous film provides an effective liquid and particle biological hazards barrier combined with a high water vapour transmission rate from inside to outside. Superior strength of serged plus tape seam ensure protection level.

Improved Hood Design

To make sure you can have your head with comfortable movement and cover

Serged Plus Taped Seam

Superior strength, liquid and particle barrier

Easily Identify

The protection level the garment offers

Zipper Flap

To reduce the contamination coming through the zipper go inside.

Elastic Waist, Wrists, Ankles

For a more comfortable body fit and easy wear gloves and boots

Relaxed Cut Out

For a more comfortable working movement by relaxed size

Protective Clothing Size Guide

This sizing chart is only a guide for garment selection. Proper fit varies with individual body shape and underclothing. A good fit helps ensure that your protective clothing provides comfort and protection. Badly fitting garments can restrict wearer movement, and ultimately reduce efficiency, protection and comfort. Test for proper fit before use. Appropriate size helps determine your garment's performance.
