STORTEKT

SK-2180A

180 CAN CLASS 2 AEROSOL & GAS STORAGE CABINETS - VENTILATED

Stortekt Aerosol & Gas Storage Cabinets – Ventilated comply with the Australian Standard AS 4332-2004 "The Storage and Handling of Gases in Cylinders".

The Stortekt 180 Can Aerosol Storage Cage is engineered with industry-leading standards for safe storage. Its construction from heavy-duty steel promises durability, while its AS-compliant design ensures regulatory compliance. The inclusion of bolt-down plates and a green powder-coated finish makes it both secure and aesthetically appealing. With a capacity for 180 aerosol cans, it meets the needs of various industrial applications efficiently.

FEATURES

- Constructed from heavy-duty steel with a green powder-coated finish
- Solid steel roof and floor, and steel walls with holes to provide necessary ventilation
- Includes a strong padlock bolt latch to hold door closed and secure (padlock not included)
- Includes bolt down flanges with pre-drilled holes for permanently fixing to the ground or slab (recommended)
- Relevent signage to comply with AS4332-2004 standards for aerosol storage
- Designed for industrial applications, ensuring durability and safety compliance in various workplace settings
- Ideal for securely storing up to 180 aerosol or spray paint cans
- Supplied assembled
