## FEATURES

- Different coloured cable sheaths, ideal for identification purposes

- Ethernet cable supplied in a useful pull box

- 4 twisted pairs of 8 solid conductors

- High speed and performance of data transmission

- Cat6 cables are backward compatible, they interact with older data and systems

- Reduced crosstalk and noise levels

RS PRO Black Cat6 Cable U/UTP PE Unterminated/Unterminated, 100m

RS Stock No.: 916-4103

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Cat6 Cable

Product Description

Category 6 or Cat6 cable for short is the 6th generation of twisted pair Ethernet cabling that is widely used in both business and home network installations. It is commonly known as a network cable, LAN or Ethernet cable. It consists of 4 twisted pairs of sheathed copper wire cable, able to support a high data transfer.
