

**Datasheet**

**RS PRO**

**Thermal grease, 8.0W/m K**

Stock Nos: 50g pot size: 2065715

1kg pot size: 2065714

**Technical Specifications:**

| Characteristic                          | Test Method | Result      |
|---|-------------|-------------|
| Colour                                  | Visual      | Grey        |
| Thermal conductivity W/m.K              | ASTM-D5470  | 8.0         |
| Thermal impedance °C-in <sup>2</sup> /W | ASTM-D5470  | 0.002       |
| Operating Temperature °C                | EN344       | -40 to +200 |
| Density g/cm <sup>3</sup>               | ASTM D792   | 3.2         |

## Features & Benefits:

- No pump out or stability issues
- Easy to apply and rework
- Suitable for screen printing
- Good value

## Applications:

- Communications equipment
- Automotive electronics
- Small office, and networking equipment
- Consumer and industrial electronics

**Available product size: 50g, 1kg**

**Approx dimensions: (50g) 50x50x70mm**

**(1 kg) 120x100x100mm**
