RS PRO IoT Enclosures

RS Stock No.: 2384001

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Family Name

Product Description

The 2383999 can be used for a variety of applications, including home temperature controllers or access control solutions.

Different plugs can be purchased as separate accessories in 10 pieces packs and available in lightgrey, black and white colours.

The enclosure features two buffers to separate the electronics from the fasteners. This keeps the electronic components safe and the finished product can be securely closed tamper sealed if necessary, with the installation of the device made easy. Enclosure can be attached to a pipe by zip ties using four rectangle holes.
