

Acision IRT3101 Infrared Thermometer

Acision IRT3101 infrared thermometer is the ideal tool for measuring surface temperatures of rotating, hard to-reach, electrically live, or dangerously hot targets. For preventative maintenance tasks, the Acision IRT3101 will cut measurement time to almost zero with the ability to take a temperature reading in less than one second.

Feature

- Temperature range: -58°F to 1022°F (-50°C to 580°C)
- Built-in laser pointer for easy targeting
- Large backlit LCD display
- Max Hold
- Automatic Data Hold when trigger released
- Auto power off

Specifications	
Temperature Range	-50°C to 580 °C
	-58°F to 1022°F
Accuracy	± 2%, ±2°C /3.6°F
Distance to Spot	13:1
Emissivity	Adjustable 0.1 ~ 1.0
IR Temp. Resolution	0.1°C/°F
Response Time	<200ms
Auto Power Off	Auto shuts after 20 Seconds inactivity
Power Supply	9V Battery

Applications:

Food preparation, Safety & Fire Inspection,
Plastic Molding, Electrical maintenance,
Fleet maintenance, and more

Complete with:
Soft case,
Instruction manual
