

Datasheet

Plain Ceramic Hex M3 x 5mm Set Screw

RS Stock number 223-7175

Description:

Metric Thread Ceramic Socket Set Screws

- To replace plastic screws where embrittlement or creep are a problem
- Electrical insulation
- Non magnetic applications
- High temperature (1600 degree C)
- Corrosive/chemical environments
- Nuclear/radiation/UV applications

Specifications:

Strength M3	Destructive Torque Nm 0.27	Tensile Strength MPa 30
Density:	3.89 gm/cc	

Note: When screwing into other materials, do not engage the male fastener more than 5-10 threads
