# Ultimate Gel Knee Pad

### Product Information

Functional and technically innovative, these kneepads offer tough protection and premium comfort to the user. A thick silicone gel adapts to the shape of your kneecap offering unrivalled comfort, whilst the tough abrasion-resistant PVC shell ensures excellent protection and a longer lifespan. The shell is also designed to give great stability by evenly distributing your weight over a wide area. Adjustable straps allow for great flexibility in fitting while providing comfort to the back of the leg.
