

Datasheet

RS PRO Male XLR to Male XLR Coupler, Metal

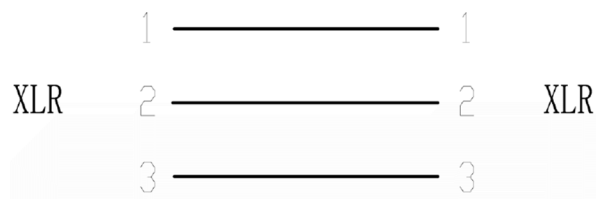

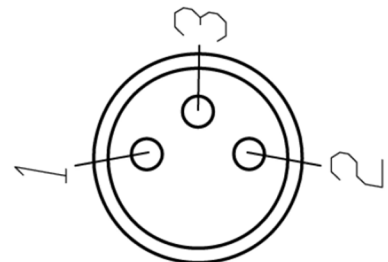

Stock number: 192-4473

EN

The RS PRO male XLR to male XLR coupler is a metal adapter which has a three pin male XLR connector on each side.

The pins are gold plated which helps with anti-corrosion and ensures a good connection for better audio quality.

XLR cables are generally used for sound, video and lighting equipment. An adapter such as this could be used to join two female cables together.
