

## FEATURES

- Versatile and easy to fit
- Can be screwed into place and removed manually
- Hexagonal shaped versions can be tightened using a wrench
- Lock PCB securely into place
- Nylon insulation material reduces the risk of electrical short circuits and is also lightweight and durable.
- Versions with nickel plated brass threaded inserts for resistance to corrosion

## RS PRO Nylon Hex Standoff Female/Female, 20mm, M3xM3

RS Stock No.: 325-700

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

### Product Description

From RS Pro a range of high-quality standoffs made from solid nylon or with metal threaded inserts and a nylon insulation material. These versatile standoffs are designed to mount and secure your PCB as well as elevating your PCB from other components such as the inside of a computer chassis or another PCB, similar to spacers. They are also ideal for improving airflow space around components when the equipment becomes hot. These stand-offs are available in a range of different heights and threads sizes to suit a wide range of applications.

### General Specifications

<b>Gender Type</b>	Female/Female
<b>Material</b>	Nylon
<b>Body Shape</b>	Hex
<b>Finish</b>	Plain
<b>Application</b>	Office machinery, Telecommunications equipment, Consumer electronics, Audio visual equipment

### Mechanical Specifications

<b>Body Length</b>	20mm
<b>Thread Size</b>	M3 x M3
<b>Thread Size A</b>	M3
<b>Thread Size B</b>	M3
<b>Hex Size Across Flat</b>	5.5mm
<b>Hole Depth</b>	20mm

### Approvals

<b>Compliance/Certifications</b>	EN61340
