## High-Density Polyethylene Bulk Refuse Container

### Description

Made from High-Density Polyethylene (HDPE), which is able to absorb shocks and resistant to common chemicals. Easy maintenance with smooth inner surfaces.

Mounted with 2 rubber tyres for smooth & reliable operation. Easy & safe to manoeuvre with ergonomic anti-slip handles.

Equipped with abrasion resistant stubs, that prolong the product lifespan.

Lifting the lid while handling foodstuffs or soiled wastes is no longer hard work with the robust, heavy duty, steel recessed center foot pedal. Anti over flipping catch feature, keep the lid close and prevent pests such as flies, birds, cats & rodents from accessing the food waste. Thus, stop spreading of diseases by keeping germs & bacteria at bay.
