

TECHNICAL DATA SHEET

Brake fluid DOT 4 Plus

Art. no. 0892 009 8

P. Qty.: 1

For hydraulic brake systems. Prescribed for Mercedes Benz vehicles.

Contents	5 l
Container	Canister
Colour	Yellow, Amber
Smell/fragrance	Characteristic
Chemical basis	Polyglycol ether
Shelf life from production	36 Month
Min. wet boiling point	180 °C
Min. dry boiling point	270 °C
Density	1.075 g/cm ³
Density conditions	at 20°C
pH value	7.7

Notice

Brake fluid is hygroscopic.

Change brake fluids according to the vehicle manufacturer instructions. Under no circumstance mix with automatic transmission fluids (ATF) or mineral oils. Avoid contact with painted surfaces, as brake fluids have a solvent effect on paints.

The tap must only be used to pour brake fluid. After use (and during storage), always seal the canister with the original lid. The taps do not ensure that the brake fluid is not enriched with humidity. Please alert your customers to the correct storage method. Observe the information provided by the vehicle manufacturer.

The usage instructions are recommendations based on the tests we have conducted and are based on our experience; carry out your own tests before each application. We do not assume any liability for a specific application result due to the large number of applications and storage and processing conditions. Insofar as our free customer service provides technical information or acts as an advisory service, no responsibility is assumed by this service except where the advice or information given falls within the scope of our specified, contractually agreed service or the advisor was acting deliberately. We guarantee consistent quality of our products. We reserve the right to make technical changes and further develop products.
