

# **ROYLAB KIRYN** series - Single-channel pipettes are uniquely designed with distinctive features:

#### **Ergonomic**

• Well-contoured handle & finger hook with lower tip ejection force to avoid repetitive strain injury (RSI)

### Lightweight & durable

- High-tech synthetic material that withstands extreme temperature & resistant to corrosion
- Guarantees thermal insulation of internal parts to improve accuracy
- Highly elastic tip cone provides good seal & easy tips removal

#### **High accuracy & precision**

- Certified with CE, ISO 9001:2008 & 13485:2003
- Individually calibrated in compliance with ISO 8655
- Each pipette is furnished with a quality certificate

#### **Easy for maintenance & calibration**

- · Flexible assembling & disassembling
- · Autoclavable for the lower section
- · Re-calibration is needed after autoclaving

#### Universal tip cone

 Compatible with most brands of tips on the market

0.5-10µL

Clear & visible 4-digit counter with fast counter rewinding

# **Delivery Package**

Pipette tips	ADJ seals
Calibration oil	Replaceable safe-cone filters (for P5000 only)
Manual	Tweezer (for P5000 only)
Quality certificate	Calibration tool

Identifiable with different coloured top
