

FEATURES

- The RS PRO beacon module is a robust visual alarm device that is easy to install and has a steady and flashing light output setting
- Made from durable Polycarbonate, the beacon unit is reliable, offering superior protection against UV, and is impact-resistant, ideal for harsh environments
- In addition to this, the beacon is resistant to shocks, bumps and vibration to ensure it can withstand industrial and high traffic environments
- Ideal for using as a warning light or visual alarm for emergencies like a fire or machine failure, a call point, or general safety measures to indicate potential hazards and exercise caution

RS PRO 70MM Light Tower Module Steady Light

RS Stock No.: 2222430, 2222431, 2222429

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.
