1/2 in BSP Spray Gun, 24 bar

 **Warning**

Heavy Duty Water Guns should not be used with steam

## Product Details

### Heavy Duty Water Gun, Stainless Steel

The water pattern of these guns is adjustable from a fine spray to a concentrated jet by means of a Stainless Steel handle.

The heavy duty water guns are designed to withstand the operating conditions common to the industrial environment therefore being ideal for industrial water applications requiring a highly efficient washdown facility such as factories, garages and abattoirs.

The Stainless Steel water gun is ideally suited to the food, pharmaceutical and chemical industries.

Stainless steel with blue EPDM rubber insulated grip, body and trigger

For hot/cold washdown

Adjustable spray pattern and auto shut off

Delivery of 25 Litres/min@ 73 PSI (5 bar)

Maximum temperature handling of 95°C

Thread 1/2" BSP Female

### Note

For safety of connection and to allow the Water Gun to swivel in use, it is recommended quick release couplings are used.

# Specifications:

Maximum Working Pressure	24 bar
Threaded Connection	1/2 in BSP
Thread Size	1/2in
Thread Standard	BSP
