

Datasheet

RS PRO Electromagnetic Water Conditioner

Stock No: 195-2205

Technical Specifications:

95mm diameter x 480mm in length

WRAS approved

80 deg C maximum temperature

70 litres per minute flow rate

Less than 10 Watts power consumption

12v power supply

10 bar pressure tested

Features & Benefits:

- **Chrome plated stainless steel housing – robust**
- **10 year guarantee – peace of mind**
- **No moving parts - maintenance free**
- **Cost effective to run – inexpensive**
- **Water remains potable – safe to drink**
- **Electromagnetic technology – proven in industry**
- **Uses power for optimum performance - efficient**
- **Long lasting effect – value for money**
- **No minimum flow rate required – easily sized**
- **Cleaning is quicker – saves time**
- **Uses less detergents/cleaners – saves money**
- **WRAS approved – materials conform**
- **10 year guarantee**

General – component parts

- 1 x electromagnertic water conditioner**
- 2 x 22mm – 22mm compression fittings**
- 2 x 22mm – 15mm compression fittings**
- 1 x 12v power supply**
- 1 x instructions**
