Datasheet

RS PRO 0.5 mtr Mini DisplayPort Male to Male Cable
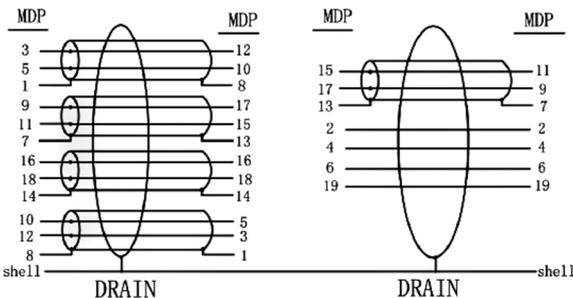

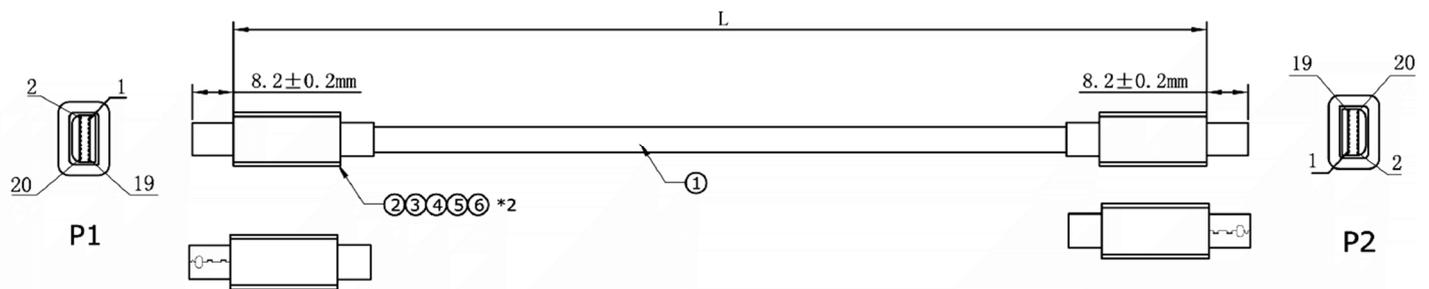

Stock number: 186-3041

EN

Our RS PRO 0.5 metre Mini DisplayPort cable comes with two mini 20 pin male connectors, although only 19 pins are connected. Pin 20 carries 3.3v which traditionally is not used and can cause problems with some devices, this is why only 19 pins are connected on our product.

The connector hoods are made from black PVC and come with dust caps to protect the connectors and a strain relief on the end of the hood to support the cable.

Our 2m Mini DisplayPort cable is v1.1 and has a bandwidth of 10.8 Gbit/s

DisplayPort, commonly known as DP is a digital high definition video connection which also can carries audio. Due to its bandwidth, DisplayPort cables are normally up to 5 metres long.

DisplayPort cables are very simple to use and are plug and play.
