## Datasheet

# Epoxy Mixer Nozzle, 200ml Screw Fit

RS Stock number [512821](#)

### Description

The Mixer's square geometry can provide superior mixing, allowing the operator to be closer to the application, and reducing the retained waste within the mixer. The design consists of a series of alternating left- and right-hand elements with intermittent flow inverters which effectively channel the fluids from the walls into the centre of the mixer. For use with epoxy resins. Ideal for use instead of traditional mixer dispensers.

### Specification

- |                             |           |
|-----------------------------|-----------|
| • Length                    | 5.6in     |
| • Number of Mixing Elements | 18        |
| • Supported Adhesive Type   | Epoxy     |
| • Supported Cartridge Size  | 200ml     |
| • Supported Cartridge Type  | Screw Fit |
